Dated 9 August 2018

This supplement dated 9 August 2018 (this "**Supplement**") constitutes a supplement within the meaning and for the purposes of Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading and amending Directive 2001/34/EC (as amended by Directive 2008/11/EC of the European Parliament and of the Council of 11 March 2008, Directive 2010/73/EU of the European Parliament and of the Council of 24 November 2010, Directive 2010/78/EU of the European Parliament and of the Council of 24 November 2010, Directive 2013/50/EU of the European Parliament and of the Council of 22 October 2013, Directive 2014/51/EU of the European Parliament and of the Council of 16 April 2014, and Commission Delegated Regulation (EU) 2016/301 of 30 November 2015) (the "**Prospectus Directive**").

This Supplement is supplemental to, and must be read in conjunction with, the Base Prospectus dated 18 December 2017 (the "**Base Prospectus**") and published by the Issuer in respect of an offering programme for the issuance of asset backed securities by the Issuer.

Capitalised terms used but not defined herein shall have the meaning given to such terms in the Base Prospectus.

As at the date of this Supplement, the Issuer has issued a total of fifty four (54) Securities named 'Finsion Life One 2022' which are linked to the Securitisation Assets comprised in the 'Finsion Life Cell' and, generally, under the terms and conditions of the Base Prospectus and the relevant Final Terms.

Prior to the date of this Supplement, the Securities were listed on the EWSM. However, the Issuer was informed that, on 7 May, 2018, the managing board of Euronext N.V., being the ultimate parent company of the EWSM, decided to discontinue the business being carried on by the EWSM. The Issuer was further informed that the EWSM would cease to operate with effect on and from 13 July 2018 and, as a result, all the Securities would cease to be listed on the EWSM with effect on and from the aforementioned date.

As such, pursuant to a resolution of the Directors approved on 13 June 2018, the Issuer resolved to transfer the listing of the Securities from the EWSM to the Institutional Financial Securities Market (the "**IFSM**"), a regulated wholesale securities market operated by the Malta Stock Exchange which the Directors identified as a suitable alternative to the EWSM for the listing of the Securities.

By virtue of a resolution of the Directors approved on 27 June 2018, the Issuer further approved various amendments to the Base Prospectus for the purposes of providing that the Securities may bear interest equivalent to a portion or all of such proceeds (if any) as may be received by the Issuer upon the maturity of any Life Settlement Policy comprised in the relevant Linked Cell prior to the Maturity Date of the relevant Securities, subject to the deduction therefrom of an amount as may be determined by the Directors, at their sole discretion, as being required to be set aside and retained by the Issuer for the purposes of settling any fees and/or expenses incurred or which may be incurred by the Issuer in respect of the relevant Linked Cell in terms of the Base Prospectus and the relevant Final Terms. Interest (if any) would be payable to Investors in such proportions as would correspond to the percentage of Securities held by each Investor.

Pursuant to the abovementioned resolution of the Directors approved on 27 June 2018, the Issuer also approved the termination of the appointment of ISE Listing Services as Listing Agent, and the

appointment in its stead of Integra Private Wealth Limited, a company registered in Malta with registration number C46966, as the new Listing Agent. In addition, the Issuer had, in February 2018, approved the termination of the appointment of Valida Consulting GesmbH as Calculation Agent, and the appointment in its stead of ClearLife Limited, a company registered in England and Wales with registration number 6424296, as the new Calculation Agent.

In the meantime, the Issuer changed its registered office address to Level 1, LM Complex, Brewery Street, Mriehel, Birkirkara BKR3000, Malta. In addition, Mr Kenneth Mousu` resigned from the office of Director and company secretary of the Issuer with effect on 15 June 2018. Mr Nikolai De Giorgio, bearer of Maltese Identity Card numbered 239694M and residing at 14, Villa dei Vaganti, F W Ryan Street, San Pawl tat-Targa, Malta, was appointed as Director with effect on and from 15 June 2018. Mr Michael Scicluna, bearer of Maltese Identity Card numbered 352677M and residing at Flat 2, Apollo, D.M. Inguanez Street, Birkirkara BKR4813, Malta, was appointed as company secretary of the Issuer with effect on and from 15 June 2018.

The Issuer notified Alter Domus Trustee Services (Malta) Limited, in its capacity as Trustee appointed for the purposes referred to in section 3.5 of the Base Prospectus, of the Issuer's decisions to: (i) transfer the listing of the Securities from the EWSM to the IFSM; and (ii) amend the Base Prospectus for the purposes of authorising the payment of interest in respect of Securities as described above and reflecting the changes in Listing Agent, Calculation Agent, Directors and company secretary, for the approval of the Trustee as required pursuant to section 3.20 of the Base Prospectus.

The Issuer also notified Alter Domus Trustee Services (Malta) Limited, in its aforementioned capacity as Trustee, of: (i) the termination of the appointment of ISE Listing Services as Listing Agent; (ii) the appointment of Integra Private Wealth Limited as the new Listing Agent; (iii) the termination of the appointment of Valida Consulting GesmbH as Calculation Agent; (iv) the appointment of ClearLife Limited as the new Calculation Agent; (v) the change of the Issuer's registered office address to Level 1, LM Complex, Brewery Street, Mriehel, Birkirkara BKR3000, Malta; (vi) the resignation of Mr Kenneth Mousu` as Director and company secretary of the Issuer; (vii) the appointment of Mr Nikolai De Giorgio as Director of the Issuer; and (viii) the appointment of Mr Michael Scicluna as company secretary of the Issuer, as further required pursuant to section 3.20 of the Base Prospectus.

Once the Trustee approved the transfer of the listing of the Securities to the IFSM and the amendments to the Base Prospectus as outlined in this Supplement, the Issuer proceeded with notifying the holders of the Securities of the Trustee's approval by means of an announcement in accordance with section 3.19 of the Base Prospectus.

Concurrently with the announcement referred to in the immediately preceding paragraph, application was made with the Malta Stock Exchange to admit the Securities for trading on the IFSM and application was made to the Listing Authority for the approval of this Supplement.

The Listing Authority has approved this Supplement and the Malta Stock Exchange authorised the admissibility to trading of the Securities on the IFSM. This Supplement will be published in electronic form on the website of the Listing Authority and at www.helix-scc.com. This Supplement will also be available in printed form and free of charge at the registered office of the Issuer.

The Issuer does not accept responsibility for any information which is not contained in this Supplement.

Neither this Supplement, the Base Prospectus nor any Final Terms is or purports to represent investment advice.

In light of the above, the purpose of this Supplement is to amend various provisions of the Base Prospectus: (i) to reflect the transfer of the listing of the Securities from the EWSM to the IFSM; (ii) for the purposes of authorising the Directors to approve the payment of interest to Investors; (iii) to reflect the appointment of Integra Private Wealth Limited instead of ISE Listing Services as the new Listing Agent; (iv) to reflect the appointment of ClearLife Limited instead of Valida Consulting GesmbH as the new Calculation Agent; (v) to reflect the change of the Company's registered office address to Level 1, LM Complex, Brewery Street, Mriehel, Birkirkara BKR3000,

To the extent that there is any inconsistency between this Supplement and the Base Prospectus, the provisions of this Supplement will prevail.

QUOTE

Calculation Agent: *ClearLife Limited*

The Calculation Agent shall be responsible to determine the value of the Securities on a monthly basis and the resulting Redemption Amount due to an Investor pursuant to the redemption of his Securities.

Individuals selling their Life Settlement Policies in the life settlement market are likely to have a different mortality from the one illustrated by the valuation basic tables (VBTs). VBTs represent the overall average mortality of the insurance buying population taken as a whole. Therefore, in order to more accurately estimate the specific mortality of those insured persons selling their Life Settlement Policies, it is necessary to adjust the VBT mortality curve through an "adjustment factor". Applying this adjustment over the selected mortality curve results in a life expectancy projection similar to the life expectancy certificate provided by the independent medical underwriters. This adjustment factor, unique for each policy, considers among other things, the severity of an insured person's health impairment or the lack of significant health conditions.

When a Life Settlement Policy is purchased, a unique policy internal rate of return (IRR) is calculated.

At the Life Settlement Policy purchase date, it is assumed that both the death benefits and the premium payments are projected at the Life Settlement Policy IRR through the projected life expectancy.

The Life Settlement Policy IRR is derived from the projection of death benefits reduced by premium payments and the Life Settlement Policy purchase price.

A future premium stream is calculated during the purchase process. This illustration computes the minimum premium required to keep the policy in force until maturity of the Life Settlement Policy. This future premium stream is provided as an input to the valuation model.

The value of a single Life Settlement Policy at valuation date equals:
- Present value of future death benefits through projected life expectancy
- Present value of future premiums through projected life expectancy
= value of a single Life Settlement Policy

The Issuer is entitled to replace the Calculation Agent with any other person in accordance with the terms and conditions set out in an agreement between the Issuer and the Calculation Agent.
