

IMPORTANT INFORMATION YOU SHOULD READ BEFORE COMPLETING ANY OF THE FORMS INCLUDED IN THE SCHEDULES BELOW

We are required by law to determine applications within the timeframe specified under the Insurance Business Act from receipt of a properly completed application including relevant documentation. However we aim to process applications and take decisions about applications as soon as possible.

In this regard, an Application pack should be as comprehensive as possible and should be submitted complete and not in a piecemeal fashion. The Application should be accompanied by the appropriate fee and all the relevant documents for the processing of the respective Application to commence. In the instance where application documents are submitted in a piecemeal fashion or are incomplete, the processing of an application will not start and will be delayed until receipt of all the relevant documents and fees concerned. An Application is deemed to have been officially submitted once a full application pack (i.e. the Application Form and all relevant supporting documentation) together with the relevant application fee is submitted to the MFSA.

Moreover the time taken to determine each application is significantly affected by the quality of the application submitted. In this regard, Applicants are advised to provide comprehensive information as much as possible regarding the regulated activities the Applicant intends to carry out and how it will be carrying out those activities. The Applicant's description of its business is an integral basis of the processing of the application. The amount of detail submitted should be proportionate to the nature and scale of the business the Applicant intends to carry out and the risks to the Applicant's clients. It is important that Applicants are transparent with the MFSA at all stages of the application process. In this manner unnecessary delays on processing will be avoided.

If an authorisation is issued, its terms will depend (inter alia) upon all matters and circumstances discussed as part of the Application process. It is therefore essential that all pertinent matters are brought to the attention of the MFSA to enable the competent authority to form a complete and thorough understanding of the Applicant and its proposal.

Responsibility for the submission of all relevant information rests with the Applicant. Timely responses from applicants are expected. Undue and unjustifiably lengthy delays in the submission of responses from applicants may require the re-submission of updated documents.

The provision of false, misleading or inaccurate information or omission of provision of material information may prejudice the status of the application and

may also have a bearing on the fitness and properness of the person providing the information. Any person who knowingly or recklessly furnishes information or makes a statement which is inaccurate, false or misleading in any material respect is guilty of an offence under the Insurance Business Act.

If, after the Application has been submitted, the Applicant becomes aware that the information submitted has changed or if the Applicant becomes aware of any material fact that affects the information submitted, the Applicant must inform the MFSA immediately.

If the proposal changes significantly and materially during the application process, then the processing time may be lengthier than in normal circumstances.

All questions should be answered. In case where replies go beyond the space provided, separate sheets should be used. If the Applicant believes that a question does not apply, the response should be "Not Applicable". **NONE OF THE QUESTIONS ARE TO BE LEFT UNANSWERED.**

Any supporting documents submitted as part of the application pack which are not in English should be translated into English before being submitted to the competent authority.

Applicants are encouraged to also send the Application Form electronically. The respective application fee is to be payable together with the submission of the Application Form. The fee structure is found in the Insurance Business (Fees) Regulations, 2014 which can be down loaded from the MFSA's website.
