2. RISK FACTORS

2.1 General

The Risk Factors associated with the banking industry are multiple and varied. Exposure to credit risk, liquidity risk, interest rate risk and foreign currency risk arises in the normal course of the Issuer's and Group's business. As the Group is mainly engaged in trade finance business, control over contingent liabilities and commitments is fundamental since the risks involved are the same as with on-balance sheet items. The Board is ultimately responsible for the identification and evaluation of key risks applicable to the different areas of the business of the Group and for ensuring that proper systems of internal controls are in place. The Board has delegated Management with the task of creating an effective controlled environment to the highest possible standards. The internal audit function monitors compliance with policies, standards and procedures and the effectiveness of the internal control environment of the Group. The internal auditor periodically reviews and tests the internal systems of control independently from Management, adopting a risk-based approach. The internal auditor reports to the Audit Committee (a Board Committee). All reports are circulated and copied to the Chairman of the Board of Directors.

Adherence to the various banking directives and rules issued by the regulatory authorities from time to time and applicable to credit institutions licensed in Malta is and shall continue to form the basis of the risk control environment of the Group. The Group is committed to ensure strict compliance with the thresholds established by the regulatory framework in relation to capital adequacy, solvency ratios, liquidity ratios, credit management, reserve accounting, quality of assets and financial reporting.

The sequence in which the risks below are listed is not intended to be indicative of any order of priority or of the extent of their consequences.

2.2 World Economy and Cross-Border Trade

The success of the Group's activities is connected to the overall performance of international trade in the global economy, and in particular to the level of cross-border trade between countries at varying stages of their economic development, and which may not yet have achieved the level of political stability of countries members of the Organisation for Economic Cooperation and Development (OECD).

The major part of the Group's trade finance activities relate to essential goods. It is recognised that trade in essential goods is the livelihood of all nations. Whereas political strife and other factors may cause temporary disruption to trade in general, the supply of essential goods always persists as far as possible and the resulting settlement thereof, through banks such as the Issuer, is normally given priority over all other imports.

The trade services provided by the Group are to a large extent based on international trade and therefore the Group is not dependent on a narrow geographical base. In the case of pre-demolition shipping finance, the Group's business is mostly dependent on the importation of scrap metal into South Asia and unfavourable economic conditions in this area may adversely affect this business.

2.3 Credit Risk

Credit risk is the risk that one party to a financial transaction might fail to discharge an obligation and cause the other party to incur a financial loss. As illustrated above, the Group finances international trade in many countries worldwide, especially emerging markets, which in turn entails an exposure to sovereign, bank and corporate credit risk respectively. Credit risk is not only akin to loans but also to other on- and off-balance sheet exposures such as letters of credit, guarantees, acceptances and money market operations.

A strict credit assessment and control procedures are in place in order to monitor such exposures. The Group also complies with regulatory guidelines as defined by the MFSA and a limit of 25% of Own Funds applies to any particular customer or group of connected customers. The Risk Committee (a Board Committee) is responsible for overseeing

the Group's credit policy and risk, for approving individual limits for banks and corporates within its delegated parameters of authority and also for recommending country limits for approval by the Executive Committee. The Risk Committee is also responsible for the oversight of operational, legal and reputational risk related to credit activity.

Loans are secured either by pledged goods, cash collateral or by personal or bank guarantees. These collaterals are reviewed periodically by Management both in terms of exposure to the Issuer and the Group and to ensure the validity and enforceability of the security taken. The Group also ensures that it has a reasonable mix of loans to customers. This diversification of credit among different economic sectors is a policy adopted by the Group to control such risks. The Group also monitors its risk on balances held with other banks by establishing bank and country limits. The risks associated with off-balance sheet assets and liabilities arise from the normal course of banking operations. In the case of risks associated with inter-bank participants under letters of credit, the Group exercises the same credit controls as those applied to on-balance sheet risks.

The Group maintains a prudent provisioning policy in accordance with the applicable laws and regulations to ensure that losses are immediately recognised in the income statements. Efforts at recovering losses incurred in past financial periods (even in those periods outside the scope of this Prospectus) are continuous. To this purpose, legal proceedings have been undertaken in the courts of competent jurisdiction.

2.4 Country and Transfer Risk

In addition to the counter-party credit risk inherent in lending, international lending also includes country risk, which refers to risks associated with the economic, social and political environment of the borrower's home country. A component of country risk is transfer risk which arises when a borrower's obligation is not denominated in his local currency. The currency of the obligation may become unavailable to the borrower regardless of its particular condition.

As the Group carries out activities with counter-parties in emerging markets, there are certain risk factors which are peculiar to such activities and which require careful consideration by prospective investors since they are not usually associated with activities in more developed markets. Such exposure relates to the risks of major political and economic changes including but not limited to, higher price volatility, the effect of exchange control regulations and the risks of expropriation, nationalisation and/or confiscation of assets. The ineffectiveness of the legal and judicial systems in some of the emerging markets, including those in which the Issuer may be carrying out activities, may pose difficulties for the Group in preserving its legal rights.

The Executive Committee (a Board Committee) approves country limits after they are presented with reports covering the political and economic situations for each of the country to which a limit is issued. Senior officials of the Issuer pay regular visits to those countries in which the Issuer is already doing business and in those countries where it seeks to develop business, in order to provide the Issuer with a deeper understanding of the risks posed by any such countries.

2.5 Foreign Exchange Risk

The Group is also exposed to foreign exchange risk. These exposures include the monetary assets and monetary liabilities of the Group that are not denominated in the functional currency of the Group. Transactional exposures give rise to foreign currency gains and losses that are recognised in the income statement. Currency risk is mitigated by a closely monitored currency position policy and is managed through matching within the foreign currency portfolio. Mismatches, which are allowed temporarily and for small amounts, are continuously monitored and regularised immediately. The Group ensures that its net exposure is kept to an acceptable level by buying and selling foreign currencies at spot rates when considered appropriate.

Investors should also be aware that any investment in Shares of the Issuer shall be denominated in US Dollars. This involves certain risks on the part of the investor, in particular exchange rate fluctuations that may affect the realisation of the original investment of the investor who may use a different currency to calculate the value of the investments.

2.6 Settlement Risk

The Issuer faces settlement risk due to the fact that few financial transactions are settled simultaneously or on a same day basis. Consequently, the Issuer could suffer a loss if the counter-party fails to deliver on settlement date. The Issuer controls the deals performed on a recorded line by the dealer and further ensures that the receipt of the deal and the confirmation received from the counter-party are reconciled and matched. This ensures that any settlement risk is identified immediately and that real-time action is taken to rectify any problematic situation.

2.7 Interest Rate Risk

Interest rate risk refers to the exposure of the Issuer's and Group's financial instruments to movements in interest rates. The risk impacts the earnings of the Group as a result of changes in the economic value of its assets, liabilities and off-balance sheet instruments. The Group's operations are subject to interest rate fluctuations to the extent that interest-earning assets and interest-bearing liabilities mature or re-price at different times or at different amounts. Accordingly, interest rate risk is managed through the matching of the interest resetting dates on assets and liabilities.

2.8 Liquidity Risk

Liquidity risk is the risk that the Issuer may be unable to meet its obligations as they become due because of an inability to liquidate assets or obtain adequate funding ("funding liquidity risk") or that it cannot easily unwind or offset specific exposures without significantly lowering market prices because of inadequate market depth or market disruptions ("market liquidity risk").

Liquidity risk arises in the general funding of the Group's activities and the management of positions. It includes both the risk of being unable to fund assets at appropriate maturities and rates as well as the risk of being unable to liquidate an asset at a reasonable price and in an appropriate time frame. The Group raises funds from deposits, other financial institutions (by means of loans and money market placements), by issuing promissory notes and similar paper and through increases in share capital. Liquidity is managed by maintaining significant levels of liquid funds, and identifying and monitoring changes in funding required and in meeting business goals driven by management. The Group's Assets-Liabilities Committee (a Board Committee) is responsible for establishing appropriate asset and liability management policies, monitoring their application and reviewing financial information on the basis of which investment and funding decisions are taken. The daily application of the asset and liability management policies rests with the Treasury Unit of the Group.

2.9 Operational Risk

Operational risk arises from the potential that inadequate information systems, operational problems, breaches in internal controls, fraud, or unforeseen catastrophes will result in unexpected losses.

The Group's activities are subject to operational risk, including but not limited to breakdowns in internal controls and corporate governance. Such breakdowns can lead to financial losses through error, fraud, or failure to perform in a timely manner or cause the interests of the Issuer to be compromised in some other way. Other aspects of operational risk include major failure of information technology systems or events such as major fires or other disasters.

The Group has invested heavily in information technology and disaster recovery and contingency systems to assist its Management to control this risk.

2.10 Legal Risk

The Group is subject to various forms of legal risk. Legal risks arise from the possibility that unenforceable contracts, lawsuits, or adverse judgments can disrupt or otherwise negatively affect the operations or condition of the Issuer.

The Group carries on business in various parts of the world and under different legal systems. The Group is particularly susceptible to legal risks when entering structured transactions in some of the emerging markets in which it is dealing and when its legal rights might be susceptible to non-enforcement because of uncertainties of the local legal and judicial system.

The Group has procedures in place to minimise this risk. It has its own Legal and Compliance Department, with the Group Head of the Unit having the right to attend Risk Committee meetings. Furthermore, legal advisors in different countries are contracted on an ad-hoc basis to provide the professional advice required to ensure that all customers and account documentation (as well as the security provided for any facility granted to them) is in accordance with the law governing the transaction.

2.11 Reputational Risk

Reputational risk is the risk that negative publicity regarding the Issuer's business practices, whether true or not, will cause a decline in the customer base, costly litigation, or revenue reductions.

Reputational risk arises from operational failures, failure to comply with relevant laws and regulations [especially Anti-Money Laundering (AML) and Anti-Terrorism Financing (ATF) regulations] or from other sources, including

acts or omissions of misconduct on the part of its Directors and/or officers and/or representatives overseas, even in matters which are unrelated to their mandate or position within the Group.

The impact to the Issuer for non compliance with the applicable regulations can be substantial and can include formal enforcement actions, monetary penalties, informal enforcement actions, and enhanced supervisory monitoring. To this purpose detailed AML and ATF programs and procedures coupled with a strong and capillary oversight by the Issuer's Board and Management have been devised.

Reputational risk could be particularly damaging for the Group since the nature of its business requires maintaining the confidence of depositors, creditors, regulatory authorities and of the general marketplace. The Group has installed adequate internal monitoring systems to discover any such irregularities on the part of any person who may cause such risk, thus ensuring that persons not maintaining the highest standards of integrity in their activities, even if such activities are unrelated to their position, are not allowed to retain their positions of responsibility within the Group.

7. INFORMATION ABOUT THE ISSUER

7.1 History and development of the Issuer

The Issuer is registered in Malta as a public limited liability company under registration number C 17003 and with registered office at 7th Floor, The Plaza Commercial Centre, Bisazza Street, Sliema, SLM1640 Malta. It was incorporated on 8 November, 1994 as First International Merchant Bank Limited for an unlimited duration under the Commercial Partnerships Ordinance, 1962 (Cap. 168, Laws of Malta), and with effect from 31 December, 1997 complied with the Companies Act, 1995 under which it is currently regulated.

The status of the Issuer was changed from a private limited liability company to that of a public limited liability company (p.l.c.) on 30 April, 2001. The Issuer's ordinary shares were then offered to the public and admitted to the official list of the Malta Stock Exchange on 22 June, 2001.

In late 2003, the Issuer increased its issued share capital by US\$ 15,001,468 by means of a rights issue. The shares were offered (i) at US\$ 0.75 per share and (ii) on a basis of a ratio of 10 new shares for every 23 shares held. The new shares issued amounted to 20,001,957.

The Issuer changed its name from First International Merchant Bank p.l.c. to FIMBank p.l.c. on 13 May, 2005.

The Issuer may be contacted on telephone: +356 23280171 (Company Secretary) facsimile: +356 23280107 and website: www.fimbank.com.

7.2 Credit Institution Licence

On 11 July, 1994, the Issuer was granted a licence by the Ministry of Finance to carry on the business of banking as a 'financial institution' operating initially with non-residents subject to such conditions as may from time to time be imposed under Section 4(6)(c) of the Banking Act, 1970. In terms of this licence, the Issuer was authorised to conduct the activities of foreign trade and banking services, structured finance, and retail banking services for high net worth individuals, Islamic banking and investment and advisory services to its clients only. Furthermore, the Issuer was subject to all the conditions of the Banking Act, 1970 except for the specific exemptions outlined in the same licence.

Following the enactment of the Banking Act, 1994, the Central Bank of Malta became the competent authority responsible for the regulation and supervision of credit institutions.

On 15 November 1994, the Central Bank of Malta issued a new licence in terms of the Banking Act, 1994, replacing the original licence issued under the 1970 Act so that the Issuer would be designated as a credit institution. All terms and conditions of the Issuer's licence remained unchanged.

On 20 November, 1995, at the Issuer's request, the Central Bank of Malta reviewed the Issuer's licence and extended it by authorising the Issuer to undertake business with both residents and non-residents of Malta in providing documentary trade finance, provided no financing is granted to the resident party. The condition that the Issuer transacts in foreign currency only was retained.

On 17 September, 1997, the Central Bank of Malta further extended the Issuer's licence to enable it to conduct full banking activities in all currencies, except the Maltese Lira, with both residents and non-residents. Other terms and conditions of the original licence remained unchanged.

In July 2005, the terms of the licence were again changed and the Issuer was authorised to carry out its business in all currencies, including the Maltese Lira. Changes were also made to the Issuer's Memorandum and Articles and were approved by its members in Annual General Meeting on 6 April, 2006.

Additional to the business of banking, the Issuer is now licensed to carry out the following additional activities listed in the Banking Act, 1994 (Schedule 2) namely:

7.3 Special Taxation Status of the Issuer

The taxation regime regulating the Issuer is governed by the Exemption Order granted by the Minister of Finance to the Issuer on 16 June 1999, in terms of Article 12(2) of the Income Tax Act (Cap.123 of the Laws of Malta).

The Exemption Order regulates the taxation of the Issuer with effect from year of assessment 1996 up to year of assessment 2010. Following the termination of this period, the Issuer's income tax liability will be subject to consultation with the Government of Malta. The arrangements of the Exemption Order are to have effect so long as the Issuer is carrying on the business of banking as a credit institution in terms of the Banking Act.

In terms of the Exemption Order the Issuer's taxable profit arising from business conducted wholly outside Malta (that is to say profits arising from income derived from non-residents and interest on amounts held with all banks) is calculated as a percentage (0.25%) of the foreign gross assets as at the end of the relevant year. The taxable profit thus calculated is then subject to tax at the higher of 35% or the company rate of tax in force as at the end of the applicable year.

The Exemption Order is subject to the following conditions:

- (a) the profits arising from that part of the Issuer's business which is not conducted wholly outside Malta is accounted for separately and taxed in the normal manner provided by the Income Tax Act. The said profits are arrived at after deducting those costs and allowances (including capital allowances) which are exclusively related to the business not conducted wholly outside Malta as well as a portion of those costs and other allowances (including capital allowances) common to the two different sources of business. Common costs and allowances are apportioned by reference to the percentage which the gross income from business conducted in Malta bears to the total gross income derived by the Issuer for the applicable year;
- (b) the allocation of distributable profits to the Issuer's tax accounts is to be made as follows:
 - i. The taxable profits of the Issuer computed as set out in the Exemption Order shall be allocated to the Maltese Taxed Account;
 - ii. The difference between the total distributable profits and the amount allocated to the Maltese Taxed Account is allocated to the Untaxed Account;provided that dividends paid to non-Maltese residents from profits arising from that part of the Issuer's business which is conducted wholly outside Malta will be paid without any deduction of tax.

10. ORGANISATIONAL STRUCTURE

The diagram below indicates the structure of the Group as at the date of this Registration Document:

11. OPERATING AND FINANCIAL REVIEW

Details of the Operating and Financial Review of the Issuer and the Group have been published in the audited financial statements for the financial years ended 31 December 2004, 31 December 2005, 31 December 2006 respectively and the Issuer's and the Group's unaudited half-yearly results for the six months ended 30 June, 2007. These can be viewed on the Issuer's website: www.fimbank.com.

12. TREND INFORMATION

For the remainder of 2007, the general trend and diversification in the Issuer's and Group's business is expected to continue to follow the same pattern experienced in recent financial periods. Further to the financial results announced for the six months ended 30 June 2007, no significant change in the financial or trading position of the Issuer or the Group has occurred, or is expected to occur, as a result of major business or strategic shifts. Moreover, on the basis of the performance in evidence up to the date of this Prospectus, and subject to the observations made under section 13 below in relation to the general outlook, the Directors consider that the trend should continue for the rest of the year.

13. PROFIT FORECAST OR ESTIMATES

The Registration Document does not contain any profit forecast or estimates, however the Directors have expressed the following views about the general foreseeable outlook for the business of the Issuer and the Group.

The short-term outlook for the Group continues to reflect the strategic mix of mature and emerging products, services and markets. In spite of increasing competition in some of the more traditional markets and business areas, the Issuer's core trade finance services are expected to continue delivering good revenue streams. At the same time new and structured products and services are being considered to enhance the offering in these markets. Moreover, the results from the Indian associated company, Global Trade Finance Limited ("GTF"), have outperformed expectations so far in 2007 and buoyed by strong market opportunities in the sub-continent, are expected to make a significant contribution to final Group profits for 2007. On the other hand, the start-up associates - MENAFACTORS Limited and Egypt Factors Limited - will be expected to start making meaningful contributions to Group results in 2008. The outlook for London Forfaiting Company Limited ("LFC") performance for the rest of 2007 is also positive, especially as future recognition of the deferred tax asset in this subsidiary will start contributing directly to Group profit. In particular, the future of GTF and LFC will depend significantly on the level and depth of equity support, and the Directors will look at developments in 2008 which should improve the quality and mix of the shareholdings in both companies.

While the continued expansion of major developing economies is expected to continue fuelling emerging market growth and high commodity prices, the Group's risks remain that emerging economies can still present unforeseeable reversals. Sustained high oil prices and rising interest rates accentuate the risks, although improving fundamentals in these markets tend to reduce the extent of downside.

Subject to any unforeseen negative events or developments, the Directors expect the Group's operating performance for 2007 to show a strong improvement over that of 2006, and such improvement to be reflected in the results of the 2007 financial year.

14. ADMINISTRATIVE, MANAGEMENT AND SUPERVISORY BODIES

The Issuer's Articles of Association (the "Articles") contain detailed provisions (in Articles 93 to 114) as to the manner of appointment and retirement of Directors. Directors hold office from the Annual General Meeting at which they are appointed until the date of the following Annual General Meeting, when they become eligible for re-election. Currently the Board of the Issuer is composed of the maximum number of 11 Directors, of whom one is appointed/removed by the IFC by simple notification to the Company Secretary in terms of the Memorandum of Association. The Articles also provide that the Chairman and Vice-Chairman are to be appointed by the Directors from amongst their number and shall hold office for a period of one year, unless otherwise decided by a simple majority of the Board. Any member may nominate an individual by means of a letter addressed to the Company Secretary, provided that such nomination is seconded by a member or members who in the aggregate hold at least twenty thousand (20,000) shares.

The participation of Directors on Board Committees, as provided for by the Articles, is decided upon by the Board. All such Board Committees include at least one Director.

15. REMUNERATION AND BENEFITS

The Annual General Meeting of shareholders approves the maximum annual aggregate remuneration which the Directors may receive for the holding of their office. For the 2007 financial year the maximum aggregate emoluments of the Directors were fixed at US\$ 250,000.

The Board then decides and approves how individual remuneration is to be allocated amongst Directors for the roles that they carry out, such as participation at Committees, and acting as Chairman of the Board and of Committees. None of the Directors is on a contract of service with the Issuer or the Group. No Director is entitled to profit sharing, share options or pension benefits from the Issuer or the Group.

The review, approval and monitoring of the overall Group remuneration policy, as well as the implementation of the executive share option schemes, are delegated by the Board to the Executive Committee which in 2007 in turn established a Remuneration Sub-Committee from amongst its members to oversee this responsibility. The Sub-Committee determines the remuneration, bonuses as well as the allocation of share options of all other members of staff, within the parameters approved by the Board.

Individual terms and remuneration of the President are determined and approved by the Board of Directors. The aggregate salaries to the President and the Executive Management amounted to US\$ 1,149,248 in 2006 ¹.

In addition to salaries and bonuses, the Issuer also provides non-cash benefits to the President and the Executive Management including health insurance, participation in share option schemes, company car and participation in a private retirement plan established by the Issuer, which benefits are commensurate with the position occupied.

No benefits upon termination of employment are provided for any of the Directors, Executive Management and other members of Management by the Issuer.

17. EMPLOYEES

As at the date of this Registration Document, the Issuer employs 123 employees. The Group employs 145 employees.

17.1 Executive Share Option Schemes

The Issuer has in place Executive Share Option Schemes ("Option Schemes") which allow eligible employees (Vice Presidents and more senior grades) to participate in the capital growth of the Issuer. The Issuer's Directors do not have participating rights in the Option Schemes. The awarding of the share options to eligible employees is strictly dependent on whether or not the Issuer on a consolidated basis reaches predetermined performance targets. No payment is due on the award of the share options (unless the Board of Directors determines otherwise) and the price for the exercise of the options is set at the market price of the shares of the Issuer at grant date.

To date the Issuer has four Option Schemes in operation:

- the 2000 Scheme applicable for 2000 basis year;
- the 2001 Scheme applicable for 2001 basis year;
- the 2002-2005 Scheme applicable for basis years 2003 and 2005²; and
- the 2006-2009 Scheme applicable for basis years 2006 to 2009.

The grant of the options, the performance target to be reached by the Issuer, the maximum aggregate and individual number of awards, the exercise price and exercise period of the options are all set out in the rules relating to each particular Option Scheme and are approved by the shareholders in the annual general meeting. Such rules also lay down the circumstances in which the awards may be forfeited in case of termination of employment of the eligible executives with the Issuer other than for a permissible cause and the capital restructuring exercises (for example rights issue, scrip and bonus issues, share split, reductions of capital) in the Issuer which would justify an adjustment in the exercise price of the options or an adjustment in the number of share options granted. An adjustment due to capital restructuring is only effected after the Board has obtained a confirmation from the Issuer's auditors that the adjustment is fair and reasonable.

Share options do not entitle the holder thereof to any voting, dividend or other rights and share options are not transferable except *causa mortis*.

² No awards were made for the years 2002 and 2004.

Details of share options currently granted are as follows:

18. MAJOR SHAREHOLDERS

18.1 Interest of Major Shareholders

The following shareholders hold in excess of five (5) per cent of the Issuer's ordinary shares as at the date of this Registration Document:

18.2 Information on Major Shareholders

18.2.1 Massaleh Investments K.S.C.C. (formerly Kuwaiti Interests for Financial Investments)

Massaleh Investments K.S.C.C. ("Massaleh") is a wholly-owned subsidiary of Kuwaiti Interests for Development Holding K.S.C. (K.I.D.H.). The shareholders of KIDH are members of the Musaad Al-Saleh family.

Massaleh was incorporated in Kuwait on May 19, 1982.

As an investment company incorporated pursuant to the laws of Kuwait, Massaleh is under the direct supervision of the Central Bank of Kuwait. The annual audited financial statements have to be approved by the Central Bank of Kuwait prior to the same being sent to the Ministry of Commerce and Industry.

The shareholding in the Issuer held by Massaleh includes the 21.68% shareholding previously held by Global Financial Holding N.V. In October 2007, Global Financial Holding N.V. transferred its shareholding in the Issuer to Massaleh and thus ceased to be a qualifying shareholder of the Issuer.

Massaleh holds 45.26% of the issued share capital of the Company.

18.2.2 International Finance Corporation ("IFC")

In June 2005, the Issuer entered into a subordinated convertible loan agreement with the IFC for the amount of US\$ 10 million. The loan agreement gave the option to IFC to convert the whole or part of the loan into fully paid up ordinary shares in the Issuer. Such option is exercisable between the dates of the disbursement of the loan and the fifth anniversary of disbursement date.

On 27 October 2005 IFC exercised its option to convert US\$ 4 million into shares of the Issuer and on 28 November 2005, 5,107,930 ordinary shares were issued to IFC. The conversion price had been obtained pursuant to a formula set out in the loan agreement. The said conversion price was set at the book value per share multiplied by a coefficient which reflects a close approximation of the market price during the period of negotiation of the agreement, provided that the conversion price could not be less than the nominal value of the Issuer's shares. The procedure for conversion requires a written notice from the IFC to the Issuer's Company Secretary stating the amount of the loan to be converted and the conversion price.

³ Mr. Andrew T.M. Freeman resigned on 30 August 2007. In accordance with the rules applicable to the Option Scheme, Mr. Freeman's entitlement to share options will expire six months after the termination of employment, i.e. 29 February 2008 unless earlier exercised.

IFC may still exercise its right to convert the remaining loan balance of US\$ 6 million into the shares of the Issuer by June 2010.

At 31 December 2006, the loan incurred interest at 7.61% (2005: 6.01%) and the balance is repayable by 22 June 2013 unless earlier converted into fully paid up ordinary shares as detailed above.

18.2.3 Astrolabe General Trading and Contracting Company

18.3 Rights attached to the Majority Shareholders' Shares

The Issuer's shares are all ordinary shares and rank pari passu in all respects as regards voting rights, the right to participate in profits available for distribution and assets on the winding-up. However, in respect of a number of reserved matters, as specified at Article 6A of the Issuer's Memorandum of Association, the Issuer needs to obtain the prior written consent of the IFC. The reserved matters are:

- Reduction in the capital of the Issuer;
- Change in the nominal value of, or the rights attached to any shares of any class of the Issuer, unless this is specifically required by Maltese law;
- Merger or consolidation of the Issuer;
- Material reorganisation of the Issuer;
- Sale of all or substantially all of the Issuer's assets;
- Change in the Issuer's capital structure, except for the issuance of any new shares or securities convertible into shares. In case of issue of new shares or securities convertible into shares, the issuer needs to inform the IFC 90 days prior to the issuance of such shares; and

18.4.1 Subordinated convertible loan of IFC to the Issuer

Reference is made to information regarding IFC at paragraph 18.2.2 of this Registration Document.

18.4.2 Put Option in the Issuer

("Global") and Massaleh Investment K.S.C.C. (now Massaleh). The Put Option Agreement obliges Massaleh and Global, jointly and severally, to buy the shares held by IFC if IFC decides to sell all or any its shares. The period during which IFC may exercise its right to oblige Massaleh and Global to buy its shares commenced on 30 November 2005 and expires on the earlier of:

- (i) 29 September 2013; and
- (ii) the first date when the required liquidity exists.

The required liquidity relates to the aggregate volume of shares traded in the Issuer and according to the Put Option Agreement exists when for a period of 90 consecutive trading days the aggregate volume of traded shares exceeds the higher of (i) 50% of the total number of shares held by IFC and (ii) 10% of the total issued share capital of the Issuer.

The put price has been set at the higher of (i) the average market price per share over the 30 calendar day period before the exercise date; and (ii) the average price paid by IFC for its shares.

In terms of the Put Option Agreement Massaleh and Global may not, without obtaining the prior written and express consent of the IFC, transfer sell or in any manner dispose of or grant or permit to exist any lien over, all or any portion of the shares held in the Issuer if this will result in the aggregate holding of Massaleh and Global in the Issuer to fall below 30%.

Further to the transfer and sale of Global Financial Holding N.V. shareholding in the Issuer to Massaleh, the Put Option Agreement has been amended to refer only to Massaleh with effect from 23 August 2007.

21. ADDITIONAL INFORMATION

21.1 Authorised and issued share capital

The Issuer's authorised share capital as at the date of this Registration Document is US\$ 100 million divided into 200 million ordinary shares of US\$ 0.50 each.

The Issuer's issued share capital as at the date of this Registration Document is US\$ 43,499,287 divided into 86,998,574 fully paid up ordinary shares of US\$ 0.50 each listed on the Malta Stock Exchange.

All of the Issuer's shares rank *pari passu* in all respects, including with respect to voting rights, right to dividend and assets of the Issuer on a winding up. However in respect of a number of reserved matters, the Issuer needs to obtain the prior written consent of the IFC. Reference is made to paragraph 18.3 of the Registration Document.

21.2 Acquisition of own shares by the Issuer

At the 2007 Annual General Meeting the Issuer requested and obtained a renewal of the authorisation from the shareholders to buy back its own shares, as indeed empowered to do so by Article 23 of the Articles of Association. Such authorisation is required in terms of Article 106 of the Companies Act and is valid until the next Annual General Meeting in 2008.

The number of shares which the Issuer is authorised to buy back will not exceed the maximum permissible at law, i.e. up to 10% of the issued share capital. Any prospective acquisition will be financed from profits available for distribution in terms of law. It would be the Issuer's intention to acquire such shares with a view to dispose of them in an orderly manner and within a reasonable time-frame: they will neither be retained as own shares for a considerable period of time nor cancelled as part of a capital reduction exercise.

Consistent with the basis on which the price range was established in 2005 and 2006, the shareholders adopted a price range calculated as to a maximum of fifty per cent (50%) below and above the trade weighted average price of the shares for the period of seven months up to and including 28 February 2007, with discretion being given to the Directors in the use of such range. The trade weighted average price for the period stated above was calculated at US\$ 1.780, with the minimum and maximum of the range being US\$ 0.890 and US\$ 2.670, respectively.

As at the date of this Registration Document no shares in the Issuer are:

- (a) acquired by it by forfeiture or surrender or otherwise;
- (b) acquired by another person in circumstances where the acquisition was by the Issuer's financial assistance, the Issuer itself having a beneficial interest;
- (c) made subject to pledge or other privileges, to a hypothec or to any other charge in favour of the Issuer.

On the same date of the acquisition of its holding in GTF, the Issuer entered into a put option agreement (the "Put Option Agreement") with GTF and the other shareholders i.e. Export-Import Bank of India ("EXIMBank") and IFC. The Put Option Agreement gives the right to IFC, by sending a notice of exercise to EXIMBank and/or FIMBank, at any time during the exercise period, to sell to EXIMBank and/or FIMBank, jointly and severally, all or part of IFC's shareholding in GTF at the exercise price.

The exercise period commenced on 31 March 2007 and terminates on the earlier of:

- (ii) the date when all the shares of GTF are listed on the Mumbai Stock Exchange or any other exchange acceptable to IFC; or
- (iii) 30 September, 2010.

The put price has been fixed at the book value per share multiplied by a coefficient. The book value per share is determined by the prorata amount of shareholders equity as derived from the audited financial statements of GTF for the financial year ended immediately preceding the date of delivery of the notice of exercise.

21.4.3 Egypt Factors Limited

The Issuer entered into a put option agreement (the "Put Option Agreement") with Commercial International Bank ("CIB") and IFC. The Put Option Agreement gives the right to IFC, by sending a notice of exercise to CIB and/or FIMBank, at any time during the exercise period, to sell to CIB and/or FIMBank, jointly and severally, all or part of IFC's shareholding in Egypt Factors at the exercise price.

The exercise period is defined as the period commencing on the fifth anniversary from the receipt of the licence by Egypt Factors Limited from the local regulator (i.e. from 26 April 2007) and terminating on the tenth anniversary of such date, unless an event of default (as defined in the Put Option Agreement) has occurred before such fifth anniversary, in which case the exercise period commences on the date of that event of default.

The put price has been fixed at the higher of:

- (i) The coefficient multiplied by the number of shares subject to the put option; and
- (ii) the investment costs per share (i.e. the total investment by IFC from time to time in Egypt Factors until the date of notice of exercise) divided by the total number of shares subject to the put option.

21.6 Memorandum and Articles of Association

21.6.1 Issuer's objects and purposes

The principal objects of the Issuer's activities are set out in Article 4 of the Memorandum of Association and include, but are not limited to the carrying on of the business of banking from Malta and executing all kinds of financial and banking operations including the taking of deposits, the carrying out of trade, export and project finance.

21.6.2 Appointment of members of Administrative, Management and Supervisory Bodies

The Issuer's Articles of Association (the "Articles") contain detailed provisions (in Articles 93 to 114) as to the manner of appointment and retirement of Directors. The Articles also provide that the Chairman and Vice-Chairman are to be appointed by the Directors from amongst their number and shall hold office for a period of one year, unless otherwise decided by a simple majority of the Board. Any member may nominate an individual in the manner prescribed by the Articles, provided that such nomination is seconded by a member or members who in the aggregate hold at least twenty thousand (20,000) shares.

The proceedings of Directors are regulated by the Issuer's Articles and the Companies Act. Meetings of the Board are held as frequently as necessary and are notified by the Company Secretary at least seven days before the meeting with the issue of the agenda for the forthcoming meeting. The agenda is accompanied by such papers and documents as are necessary to make Directors informed of issues relating to their roles and responsibilities, and in particular the decisions they are expected to take. Meetings also include presentations by Management, whilst other information and documentation is made available for perusal by the Directors, at their request. Members of Executive Management, who invariably include the President, attend all Board meetings. The Board also might request that the meetings be attended by other employees or by professional advisors, as and when necessary.

In terms of the Articles, whenever a conflict of interest situation, real or potential, arises in connection with any matter, the interest has to be declared. In particular, the Director concerned refrains from taking part in proceedings relating to the matter or decision. The minutes of Board meetings, as well as those of Board Committees, invariably include a suitable record of such declaration and of the action taken by the individual Director concerned. In all other circumstances, the Directors are expected to play a full and constructive role in the Group's affairs.

The Issuer's Articles provide that the Directors may delegate certain powers, authorities and discretions to any person and/or Committee appointed by them. Accordingly, the Board has established the following Committees:

- Executive Committee;
- Audit Committee;
- Risk Committee;
- Assets-Liabilities Committee.

Each Committee duties and responsibilities are laid out in the respective Charter which has been approved by the Board. For the composition of each of the Board Committees reference is made to paragraph 16 of this Registration Document.

21.6.3 Rights attaching to each class of the existing shares

Reference is made to paragraphs 18.3 and 21.1 of this Registration Document.

21.6.4 Changes in the rights attached to shares

The Issuer's Articles of Association do not contain more stringent provisions than the ones contained in the Companies Act governing the changes or variations in the rights attached to shares.

In terms of Article 12 of the Issuer's Articles of Association the rights attached to any class of shares may be varied either with the consent in writing of the holders of not less than 80% of the issued shares of that class or with the sanction of an extraordinary resolution passed at a separate general meeting of the holders of shares of that class.

However in terms of Article 6A of the Memorandum of the Issuer, the IFC's prior consent is to be obtained to change the rights attaching to any class of shares.

The Banking Act obliges the Issuer to obtain the consent of the competent authority (MFSA) to effect any material change in voting rights.

21.6.5 Calling of annual and extraordinary general meetings

All eligible shareholders are served with a notice to attend the annual general meeting, which is normally held during the first half of the year. The notice contains all the resolutions proposed for approval by the annual general meeting and, as necessary, notes accompanying such resolutions. Pursuant to the Companies Act, notices are delivered to shareholders at least 14 clear days before the date of the annual general meeting. Advance notification of the resolutions proposed for approval is also given by way of a Company Announcement.

The valid quorum for the annual general meeting is constituted by members holding in aggregate not less than 50% plus 1 vote. Each share in the Company entitles the holder thereof to one vote. The conditions for admission provide for the delivery of the admission form (bearing the details of the meeting) together with some form of identification of the member or of his proxy (in such case a proxy form must accompany the admission form).

The Issuer's Articles provide for the application of similar provisions for the extraordinary general meetings.

21.6.6 Change in control

The Issuer's Articles of Association provide that the IFC consent is required in all cases in which the Issuer seeks to reduce its capital, change the nominal value of or the rights attached to its shares of any class, merge or consolidate, carry out a material reorganisation, change its capital structure. These provisions must be coupled with the obligation to obtain the consent of the Malta Financial Services Authority (in terms of the Banking Act and the Listing Rules) in case a change in control is to occur.

21.6.7 Ownership threshold disclosure

The Banking Act and the Listing Rules provide that the threshold for disclosure of ownership is 5% of the issued share capital of the Company.

22. MATERIAL CONTRACTS

The Issuer has not entered into contracts of a material nature which were not in the ordinary course of its business, save as otherwise disclosed in this Registration Document.

23. STATEMENT BY EXPERTS

An opinion by Messrs KPMG, certified public accountants, dated 29 October 2007 on the adjustments to the Executive Share Option Schemes further to the Rights Issue has been referred to in paragraph 17.1 of this Registration Document.

Save as expressly provided for above, this Registration Document does not contain any statement or report attributed to any person or expert.

26. CORPORATE SOCIAL RESPONSIBILITY

The Board of Directors encourages that sound principles of corporate social responsibility are adhered to in the ongoing management practices of the Group. As a result, from time to time the Issuer and its subsidiaries are involved in supporting initiatives at both national and community level aimed at contributing to economic and social development. They also assist and promote small-scale projects of a charitable and humanitarian nature. FIMBank Group is also progressive in promoting health and safety and family-friendly work arrangements for its staff, as well as ethical and environmentally-responsible practices in all its business dealings.

1. DEFINITIONS

Unless specifically stated below and except where the context otherwise requires, words and expressions used in this Securities Note shall bear the same meaning as defined under "Definitions" at paragraph 1 of the Registration Document.

2. RISK FACTORS

2.1 General

Risk and returns go hand in hand. Although securities markets provide returns for investors there are some risks associated with investments, especially because securities markets are more complex and volatile than markets for other goods.

The value of the Shares can go up or down and past performance is not necessarily indicative of future performance. An investment in the Shares involves certain risks including those described below. Prospective investors should carefully consider, with their own independent financial and other professional advisers (including tax, accounting, credit, legal and regulatory advisors) the following risk factors and other investment considerations as well as all the other information contained in this Prospectus before deciding to make an investment in the New Ordinary Shares. The sequence in which the risks below are listed is not intended to be indicative of any order of priority or of the extent of their consequences.

2.2 Trading and Liquidity of the Securities

The trading records in respect of the Issuer's Shares show a consistent increase in the number of shareholders and in deals transacted over the period 2004 - 2006 covered by this Prospectus. This trend has generally continued so far in 2007.

There are many other factors which might affect the trading market and the trading value of the Shares over which the Issuer has no control.

The price at which the New Ordinary Shares will trade and the price which the Eligible Shareholders may realise for their New Ordinary Shares will be influenced by a large number of factors, some specific to the Issuer, its proposed operations, the ability to implement successfully its intended development plans and some which are peculiar to the business sectors in which the Group operates, the performance of the Group's operations, large purchases or sales of the shares, liquidity (or absence of liquidity) in the Shares, currency fluctuations, legislative or regulatory changes relating to the business of the Group and general economic conditions.

In any event, stock markets (including the Maltese stock market) have from time to time experienced substantial price and volume fluctuations, which in addition to general economic and political conditions, could adversely affect the market price of the Shares of the Issuer. To optimise returns shareholders might need to hold the Ordinary Shares on a long term basis.

Eligible Shareholders also need to be aware that failure to take up their rights under the Rights Issue will entail a dilution of their percentage ownership of the Issuer's Ordinary Shares.

2.3 Foreign Exchange Risk

Investors should also be aware that any investment in the Issuer's Ordinary Shares will be denominated in US\$. This involves certain risks on the part of the investor, in particular exchange rate fluctuations that may affect the realisation of the original investment of the investor who may use a different currency to calculate the value of his investments. Exchange rate fluctuations may affect the conversion value of the original investment made by those investors who calculate the value of investment in any currency other than the US\$.

2.4 Prior ranking charges

The Issuer may incur further borrowings or indebtedness and may create or permit to subsist other security interests upon the whole or any part of its present or future undertakings, assets or revenues (including uncalled capital).

2.5 Suspension of dealings

In all cases provided by the Listing Rules, the Listing Authority may request that the Issuer's shares be suspended from dealing on the Malta Stock Exchange.

3. PERSONS RESPONSIBLE

This document includes information compiled in compliance with the Listing Rules for the purpose of providing Eligible Shareholders with information about the New Ordinary Shares to be issued by way of Rights Issue by the Issuer. Each and all of the Directors whose names appear in paragraph 14 of the Registration Document accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors, who have taken all reasonable care to ensure that such is the case, the information contained in this document is in accordance with the facts and does not omit anything likely to affect the importance of such information. The Directors hereby accept responsibility accordingly.

No expenses will be specifically charged to any Eligible Shareholder who subscribes to the New Ordinary Shares. The amount of the expenses will be deducted from the proceeds of the Rights Issue, which accordingly will bring the net proceeds from the Rights Issue to circa US\$ 25,000,000 (United States Dollars twenty five million) if all the entitlements to the New Ordinary Shares are validly taken up.

5. INFORMATION CONCERNING THE NEW ORDINARY SHARES

5.1 General

Each New Ordinary Share forms part of the duly authorised issue by way of rights to 22,894,699 New Ordinary Shares (of a nominal value of US\$ 0.50 each) which, if subscribed to in full at the Offer Price, will amount to gross principal proceeds of US\$ 25,184,169 (United States Dollars twenty five million one hundred eighty four thousands and one hundred sixty nine). The Issuer's ISIN number is FIM MT 0000 180100.

5.2 Applicable Laws

The New Ordinary Shares are issued in accordance with the requirements of the Listing Rules, the Banking Act, the Companies Act, and Commission Regulation (EC) No. 809/2004 of 29 April 2004 implementing Directive 2003/71/EC of the European Parliament and of the Council.

5.3 Registration, Denomination, Form and Title

- 5.3.1 The Issuer will not issue share certificates representing the fully paid up New Ordinary Shares as the New Ordinary Shares will be represented in uncertificated form by the appropriate entry in the electronic register of the Issuer's members maintained on behalf of the Issuer at the Central Securities Depository of the Malta Stock Exchange. There will be entered into such electronic register the names and addresses of the holders of the New Ordinary Shares and the number of New Ordinary Shares held by them. It is expected that the Registrar will issue the "Council Notice" on 3 December 2007 and such date shall constitute the date of issue, allotment as well as listing of the New Ordinary Shares. It is also expected that the Malta Stock Exchange will issue registration advices to each shareholder immediately thereafter.

5.3.2 Any shareholder in whose name the New Ordinary Shares are registered may (to the fullest extent permitted by the applicable laws) be deemed and treated at all times and for all purposes as the owner of the New Ordinary Shares. Title to the New Ordinary Shares is transferred in accordance with the provisions of paragraph 5.7 of this Securities Note.

5.4. Currency of the New Ordinary Shares

The currency of the New Ordinary Shares is United States Dollars.

5.5. Rights attached to the New Ordinary Shares

5.5.1 Ranking

The New Ordinary Shares will, when issued and fully paid up, rank *pari passu* in all respects with the Ordinary Shares, including with regard to the right to receive notice of and attend general meetings, voting rights, dividends and distribution of assets upon winding up of the Issuer.

5.5.2 Class of New Ordinary Shares

The New Ordinary Shares will be of the same class as the Issuer's Ordinary Shares currently in issue. In terms of the Issuer's Memorandum and Articles the rights attached to any class of shares may only be varied with the consent in writing of the holders of not less than 80% of the issued shares of that class, or by means of an extraordinary resolution passed at a separate general meeting of the holders of shares of that class.

Currently, the Issuer does not have any preference shares in issue and thus the right of the Ordinary Shareholders in respect of dividends declared by the Issuer or in respect of the distribution of assets of the Issuer upon winding up does not rank after the preferred rights of any preference shareholders.

5.5.3 Dividends

In accordance with the Companies Act, the authority to declare dividends lies with the Issuer's shareholders in the general meeting. However, in terms of the Issuer's Memorandum and Articles, no dividend shall exceed the amount recommended by the Directors. The Issuer's policy on dividend distributions has been adopted in accordance with the provisions contained in the subordinated convertible loan agreement with the International Finance Corporation ("IFC"). In particular, unless otherwise agreed by the IFC, the proposed payment of dividends shall not exceed thirty percent (30%) of the Issuer's net profit after tax during such financial year.

Subject to the above, the Directors have the authority to declare such interim dividends as appear to the Directors to be justified by the Issuer's profits.

5.5.4 Voting Rights

The New Ordinary Shares will entitle the holder thereof to one vote for every share and will have a nominal value of US\$ 0.50. Voting rights may also be exercised by the appointment of a proxy at the meeting of the Shareholders as detailed below.

5.5.5 Meetings of Shareholders

In accordance with the provisions of the Companies Act and of the Issuer's Articles of Association, the holders of the New Ordinary Shares will have the right to attend general meetings which might be called by the Directors whenever they think fit.

Notice in writing shall be given to each shareholder at least fourteen clear days before the meeting (excluding the day on which the notice is given and the day for which it is given). The notice shall specify the date, time and location of the meeting and whether there will be required decisions of ordinary or special business. If the latter, the notice has to specify the general nature of the business.

The instrument appointing a proxy shall be deposited at least twenty four (24) hours before the time fixed for the meeting at such place as the Issuer shall designate or approve.

Shareholders holding in aggregate at least 50% plus 1 votes of the shares having voting rights in the Issuer (present in person or by proxy) shall constitute a quorum for a general meeting.

No business shall be transacted at a meeting of shareholders unless a quorum is present within half an hour of the time appointed for the commencement of the meeting. If a quorum is not present within thirty (30) minutes from the time initially fixed for the meeting, the meeting shall stand adjourned until such date, time and place as the Directors may decide. If a quorum is not present within thirty (30) minutes from the time fixed for a meeting so adjourned, the members present shall constitute a quorum.

5.5.6 Pre-emption rights in respect of new issues of shares

In terms of Article 88 of the Companies Act, shareholders in a public company have pre-emption rights in respect of new issues of shares for cash, in proportion to the holding of capital by such shareholders. Such pre-emption rights may not be withdrawn or restricted by the memorandum and articles of a company; however the Companies Act allows the memorandum and articles of the company or an extraordinary resolution of the general meeting to authorize the Board of Directors to restrict or withdraw pre-emption rights for as long as the Board of Directors is authorised to issue and allot shares of the Company.

The Shareholders in Annual General Meeting have granted on 12 April 2007 the following authorities:

- (i) Pursuant to Article 85 of the Companies Act and in virtue of the powers vested in the Company by Article 5 of the Articles of Association, the Board of Directors (with full powers of delegation) has been generally authorised to issue and allot such number of Equity Securities (defined as "a share in the Company of whatever class or a right or option to subscribe for, or to convert securities into shares of whatever class in the Company"), for the time being unissued, as may be determined by the Board of Directors up to a maximum value of one hundred million US Dollars (US\$ 100,000,000). This authorisation is a renewal of the previous authorisation given by the Members at the 2006 Annual General Meeting and is valid for a maximum period of 5 years from the date of the adoption of the extraordinary resolution, that is to say up to and including 12 April 2012.
- (ii) Pursuant to Article 18 of the Articles of Association of the Company, the Board of Directors (with full powers of delegation) has been generally authorised to restrict or withdraw the statutory pre-emption rights of the Company's Equity Securities holders for as long as the Board of Directors remains authorised to issue and allot Equity Securities in terms of Article 85 of the Companies Act.

5.5.7 Issuer's Rights to acquire own Shares

At the 2007 Annual General Meeting the Issuer requested and obtained a renewal authorisation from the Shareholders to buy back its own shares, as indeed empowered to do so by Article 23 of the Articles of Association. Such authorisation is required in terms of the Companies Act and is valid until the next Annual General Meeting in 2008.

The number of shares which the Company is authorised to buy back may not exceed the maximum permissible at law, i.e. up to 10% of the issued share capital. Any prospective acquisition will be financed from profits available for distribution in terms of law. It would be the Issuer's intention to acquire such shares with a view to dispose of them in an orderly manner and within a reasonable time-frame; they will neither be retained as own shares for a considerable period of time nor cancelled as part of a capital reduction exercise.

Consistent with the basis on which the price range was established in 2005 and 2006, the Shareholders approved a price range calculated as to a maximum of fifty per cent (50%) below and above the trade weighted average price of the Shares for the period of seven months up to and including 28 February 2007, with discretion being given to the Directors in the use of such range. The trade weighted average price for the period stated above has been calculated at US\$ 1.780, with the minimum and maximum of the range being US\$ 0.890 and US\$ 2.670, respectively.

5.6 Authorisations and approvals for the Rights Issue

In virtue of (i) the authority granted to the Board of Directors to issue Equity Securities up to the maximum value of the authorised share capital of the Company and (ii) to withdraw or restrict the statutory pre-emption rights for as long as the Board is authorised to issue and allot Equity Securities, the Rights Issue has been authorised by means of a resolution of the Board of Directors adopted on 23 August 2007.

The MFSA, Banking Unit has authorised the increase in the share capital of the Issuer further to the Rights Issue by means of a letter dated 25 July 2007.

The Listing Authority has authorised the New Ordinary Shares to be admitted to Listing.

Application has been made to the Malta Stock Exchange for the New Ordinary Shares to be issued pursuant to this Prospectus to be listed and traded on the Official List of the Malta Stock Exchange and for dealings to commence once the New Ordinary Shares are authorised as admissible to listing by the Listing Authority.

The expected date of issue and allotment and listing on the Malta Stock Exchange of the New Ordinary Shares is 3 December 2007.

5.7 Transferability of the New Ordinary Shares

The New Ordinary Shares are freely transferable and dealings on the Malta Stock Exchange are expected to commence on 4 December 2007. The New Ordinary Shares shall be transferable in accordance with the rules and regulations of the Malta Stock Exchange applicable from time to time.

Any person becoming entitled to New Ordinary Shares in consequence of the death of the holder may, upon producing such evidence of his title as may be required by the Issuer and the Malta Stock Exchange, elect either to be registered himself as holder or to have someone else nominated by him registered as the transferee thereof.

All transfers and transmissions are subject in all cases to any pledge (duly constituted) in respect of any New Ordinary Shares and to any applicable laws and regulations.

5.8 Restrictions and takeover bids

No restrictions are provided for the free transferability of the New Ordinary Shares.

No mandatory takeover bids, or public takeover bids and/or squeeze out and sell out rules have occurred in relation to the Issuer's Shares during the financial periods referred to in this Prospectus.

5.9 Taxation

5.9.1 General

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation in respect of the New Ordinary Shares, including their acquisition, holding and disposal as well as any income/gains derived therefrom or made on their disposal. The following is a summary of the anticipated tax treatment applicable to the holders of the fully paid up New Ordinary Shares. This information, which does not constitute legal or tax advice, and which does not purport to be exhaustive, refers only to the holders of the New Ordinary Shares who do not deal in securities in the course of their trading activity.

The information below is based on an interpretation of tax law and practice relative to the applicable legislation in Malta, as known to the Issuer at the date of the Prospectus, in respect of a subject on which no official guidelines exist. Investors are reminded that tax law and practice and their interpretation as well as the levels of tax on the subject-matter referred to in the preceding paragraph, may change from time to time and may vary depending on the jurisdiction of the investor.

The information is being given solely for the general information of investors: the precise implications for investors will depend on their particular circumstances and professional advice in this respect should be sought accordingly.

5.9.2 Dividends

Malta operates a full imputation system for the taxation of dividends in the hands of the shareholder whereby the shareholder is imputed with the tax paid by the company on the distributed profits. The dividend received by the shareholder is grossed up with the tax paid by the company and taxable at the shareholder's personal tax rate. A credit is given to the shareholder for the tax paid by the company. On the assumption that the company would have suffered tax on its profits at the rate of 35% no further Maltese tax should be payable by the shareholder on the dividends received.

Shareholders who are not resident in Malta and individual shareholders resident in Malta are not obliged to disclose the receipt of a dividend in any tax return submitted for Maltese tax purposes. Other shareholders are obliged to declare such dividend in their tax return but no further tax should be payable.

Dividends distributed from the "untaxed account" of the Company to persons who fall within the definition of "recipient" in terms of Article 61 of the Income Tax Act, Cap. 123, Laws of Malta, will be paid net of withholding tax of 15% on the distributed dividend.

A "recipient" is defined as:

- (i) a person, other than a company, resident in Malta in the year in which a dividend is received by him or by any person on his behalf; or
- (ii) a non-resident person (including a non-resident company) who is owned and controlled by, directly or indirectly, or who acts on behalf of, an individual who is ordinarily resident and domiciled in Malta; or
- (iii) a trustee of a trust where the beneficiaries of such trust are persons referred to in subparagraphs (i) and (ii).

The withheld tax will be paid by the Issuer to the Maltese Inland Revenue within fourteen (14) days following the end of the month in which the dividend is paid.

"Recipients" are not obliged to disclose the untaxed dividend in any tax return submitted for Maltese tax purposes and in such case no person shall be charged to any further tax in respect of the said dividend. In the event the "recipient" elects to disclose it in the tax return, the dividend grossed up with the withholding tax of 15% would be chargeable to tax at the shareholder's personal tax rate. The tax withheld on the dividend would be credited against the shareholder's income tax liability and where applicable shall also be available as a refund.

Where an untaxed dividend is paid to a shareholder who is not a "recipient" such dividend shall not be charged to Maltese tax and where such person is not resident in Malta such person shall not be obliged to disclose the existence of the dividend in any tax return made for Maltese tax purposes.

5.9.3 Capital Gains on the transfer of the New Ordinary Shares

According to current legislation, since the New Ordinary Shares are shares in a company listed on the Malta Stock Exchange, no tax on capital gains should be chargeable on the transfer of the New Ordinary Shares.

5.9.4 Duty on documents and transfers

According to current legislation, since the New Ordinary Shares are shares in a quoted company, no duty should be chargeable in respect of transfers of the New Ordinary Shares.

6. TERMS AND CONDITIONS OF THE OFFER

6.1 Conditions

The rights to New Ordinary Shares will be offered to Eligible Shareholders (other than those Eligible Shareholders who have registered address in the United States of America or territories outside Malta) on the basis and on the terms and conditions as set out in this Securities Note.

Save as provided below, all shareholders registered as shareholders of the Issuer as at the Record Date (i.e. 26 October 2007) on the Central Securities Depository of the Malta Stock Exchange are Eligible Shareholders.

The Issuer's Eligible Shareholders (other than those who have their registered address in the United States or territories outside Malta) will be entitled to acquire 5 New Ordinary Shares at US\$ 1.10 per share for every 19 Ordinary Shares registered in their name on the Record Date.

The Listing Authority has authorised the New Ordinary Shares to be admitted to listing. It is expected that the issue date and allotment as well as the listing of the New Ordinary Shares will occur on 3 December 2007 and that dealings in the New Ordinary Shares will commence on 4 December 2007.

Save as provided in paragraph 6.3 below, none of the New Ordinary Shares are being made available to the public other than pursuant to the Rights Issue.

Entitlements to New Ordinary Shares will be rounded up to the nearest whole number.

It is the responsibility of shareholders wishing to apply for the New Ordinary Shares to inform themselves as to the legal requirements of so applying including any requirements relating to exchange control (including any applicable external transaction requirements) in Malta and in the countries of their nationality, residence or domicile.

If the Provisional Allotment Letter is signed on behalf of another party or on behalf of a body of persons, the person signing will be deemed to have bound his principal, or the relative body of persons and will be deemed also to have given the confirmations, warranties and undertakings contained in this Securities Note on their behalf. Such person may be requested to submit the relative power of attorney/resolution or a copy thereof duly certified by a lawyer or notary public if so required by the Registrar.

In the case of Provisional Allotment Letters issued to joint Eligible Shareholders, reference to the Eligible Shareholder in this Securities Note is a reference to each Eligible Shareholder, and liability thereof is joint and several.

6.1.1 *United States of America*

The New Ordinary Shares have not been nor will they be registered under the United States Securities Act, 1933 as amended (the "1933 Act"), or under any Federal or State securities law and may not be offered, sold or otherwise transferred, directly or indirectly in the United States of America, its territories or possessions, or any area subject to its jurisdiction (the "United States") or to or for the benefit of, directly or indirectly, any United States person (as defined in Regulation "S" of the 1933 Act, as amended from time to time).

New Ordinary Shares which Eligible Shareholders with registered addresses in the United States would otherwise have been entitled to subscribe to, will be offered as if they were Lapsed Rights under the Rights Issue, in accordance with the paragraphs below (6.3 *et seq.*). Any premium obtained over the Share Offer Price will be paid to such Eligible Shareholders, save that individual amounts of less than Lm 2 (€ 4.66) will not be distributed but will be retained for the benefit of the Issuer.

The IFC qualifies as a non-US person pursuant to Regulation "S" exemption of the Securities Act of 1933 of the United States of America. Therefore, the Offer contained in this Prospectus addressed to the IFC does not qualify as an offering made under the US Securities Act of 1933.

6.1.2 *Territories outside Malta*

No person receiving a copy of this Prospectus or a Provisional Allotment Letter in any territory other than Malta may treat the same as constituting an invitation or offer to him nor should he make use of such Provisional Allotment Letter, **unless, in the relevant territory, such an invitation or offer could lawfully be made to him or such Provisional Allotment Letter could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside Malta wishing to take advantage of the Provisional Allotment Letter to satisfy himself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any required governmental or other consents, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.**

6.1.3 *Notices*

This Prospectus and accompanying documentation will be mailed to the Eligible Shareholders at their registered addresses as held by the Central Securities Depository of the Malta Stock Exchange (as at the Record Date) by 10 November 2007 and for all Eligible Shareholders residing in Malta it shall be deemed to have been served at the expiration of three (3) calendar days after such mailing.

Overseas shareholders will be served by registered post.

Save where the context requires otherwise, terms defined in the Prospectus bear the same meaning when used in the Provisional Allotment Letter and in any other document issued pursuant to the Prospectus

6.1.4 *Provisional Allotment Letters ("PALs")*

Provisional Allotment Letters will be despatched to Eligible Shareholders by 10 November 2007. The Eligible Shareholders shall return the Provisional Allotment Letter/s to any of the Collecting Agents (as listed in Appendix 1) to reach the Registrar before the closing of the Offer Period.

The Provisional Allotment Letter details the number of New Ordinary Shares to which the Shareholders are entitled. It is then supplemented by instructions as to the possibility that an Eligible Shareholder might want to:

- (a) take up all of his entitlement (PALA); or
- (b) take only part of the rights allotted to him (PALB); or
- (c) transfer part or all of those rights to a third party/ies (PALC).

The Provisional Allotment Letter/s must be returned by the Collecting Agents to the Registrar by the end of the Offer Period together with relevant evidence of full payment made to the Registrar Account for the amount of New Ordinary Shares subscribed for.

6.1.5 Payment Methods

Payment for the New Ordinary Shares must reach the Registrar Account in cleared funds and may be made by SWIFT, account transfer, bank draft or bankers' cheque, or personal cheque and shall be made out to the Registrar Account. 6.1.7 Right to reject

Subject to all other terms and conditions set out in this Prospectus, the Issuer reserves the right to reject, in whole or in part, a Provisional Allotment Letter. The Issuer also reserves its rights to refuse any Provisional Allotment Letter which in the opinion of the Issuer is not properly completed in all respects in accordance with the Instructions or is not accompanied by the required documents and/or payments. The Provisional Allotment Letter/s will be accepted in original only: photocopies/facsimile copies will not be accepted.

6.1.8 Right to revoke the Offer

Subject to all other terms and conditions set out in this Prospectus, the Issuer reserves the right to revoke the Offer at any time before the closing of the Offer Period.

The circumstances in which such revocation might occur are expected to be exceptional, for example in the case of extraordinary injection of capital exogenous to this Rights Issue or where a significant change in market conditions occurs.

Suspension of dealing in the New Ordinary Shares might occur in accordance with the provisions of the Listing Rules.

6.1.9 Announcement of the acceptance of Rights

In accordance with the Listing Rules, within five (5) days from the closing of the Offer Period, the Issuer shall announce the results of the Offer by means of a Company Announcement.

6.2 Action required to subscribe to the Rights Issue

6.2.1 General

Each Provisional Allotment Letter will set out:

- (i) the holding of the Ordinary Shares on which an Eligible Shareholder's entitlement to New Ordinary Shares has been based;
- (ii) the aggregate number of New Ordinary Shares which have been provisionally allotted to each Eligible Shareholder in respect of such Shares;
- (iii) instructions regarding acceptances and payment, splitting, transfers and payments.

The maximum number of New Ordinary Shares that an Eligible Shareholder may take up or transfer is that which is set out in the relevant Provisional Allotment Letter. The minimum number of New Ordinary Shares an Eligible Shareholder may take up is one.

6.2.2 Procedure for acceptance and payment

a. Eligible Shareholders who wish to accept in full

Holders of Provisional Allotment Letter/s who wish to take up all of their entitlements must return the Provisional Allotment Letter/s (PALA) to any of the Collecting Agents (listed in Appendix 1) together with proof of payment.

Delivery of the Provisional Allotment Letter/s together with proof of payment (in cleared funds) to the Registrar must be made as soon as possible, in any event so as to be received by the Registrar by not later than 12.30 p.m. on 30 November 2007.

b. Eligible Shareholders who wish to accept in part

Holders of Provisional Allotment Letter/s who wish to take up only some but not all of their rights should complete the Provisional Allotment Letter (PAL B) and then return it to any of the Collecting Agents. The Collecting Agent will provide the Eligible Shareholder with the original of the PAL B duly validated.

Delivery of the Provisional Allotment Letter/s together with proof of payment (in cleared funds) to the Registrar must be made as soon as possible, in any event so as to be received by the Registrar by not later than 12.30 p.m. on 30 November 2007.

c. Eligible Shareholders who wish to transfer their rights

Holders of the Provisional Allotment Letter/s may wish to transfer all or part of their entitlement to a third party or third parties.

In case the holder of the Provisional Allotment Letter/s wishes to transfer all of his rights to one or more transferee/s he may do so by completing the Provisional Allotment Letter (PAL C) and then return it to any of the Collecting Agents.

Delivery of the Provisional Allotment Letter/s together with proof of payment (in cleared funds) to the Registrar must be made as soon as possible and in any event so as to be received by the Registrar by not later than 12.30 p.m. on 30 November 2007.

The Issuer reserves the right to refuse to register any renunciation of the Provisional Allotment Letter in favour of any person in respect of which the Issuer believes such renunciation may violate applicable legal or regulatory requirements including (without limitation) any renunciation in the name of any person with an address outside Malta.

d. Eligible Shareholders who wish to transfer fully paid entitlements

If, after following any of the procedures detailed at (a) to (c) above but always before the closing of the Offer Period, the Eligible Shareholder who has paid for the entitlement to New Ordinary Shares wishes to transfer them, fully paid, to one or more transferee/s, then the Eligible Shareholder shall apply in writing to the Registrar and/or the Issuer specifying the details of the proposed transfer by and not later than 12.30 p.m. on 28 November 2007.

The Issuer reserves the right to refuse to register any transfer of such entitlements in favour of any person in respect of which the Issuer believes such renunciation may violate applicable legal or regulatory requirements including (without limitation) any renunciation in the name of any person with an address outside Malta.

e. Payment

All payments must be made in US\$.

f. Issuer's discretion as to the validity of acceptances

If the Provisional Allotment Letters and proof of payment of cleared funds do not reach the Registrar by 12.30 p.m. on 30 November 2007, the Provisional Allotment will be deemed to have been declined and will lapse and it will be treated in accordance with the provisions detailed at paragraph 6.3 below. The Issuer may, with the agreement of the Registrar, but shall not be obliged, to treat as valid Provisional Allotment Letters accompanied by proof of payment received later than 12.30 p.m. on 30 November 2007.

6.3 Procedure in respect of rights not taken up (Lapsed Rights)

6.3.1 Lapsed Rights

If an entitlement to New Ordinary Shares is not validly taken up by 12.30 p.m. on 30 November 2007, in accordance with the procedure laid down in this Securities Note for acceptance and payment of rights, then that provisional allotment to the particular Eligible Shareholder will be deemed to have been renounced and will lapse (Lapsed Rights).

Pursuant to Listing Rule 4.15, the Issuer will endeavour to sell the Lapsed Rights on behalf and for account of the Lapsed Rights holders.

Any such Lapsed Rights will be offered at the most advantageous market price and on the earliest suitable trading day after the closing of the Offer Period. The Issuer will endeavour to dispose of the Lapsed Rights within the Lapsed Rights Offer Period, i.e. between 3 December 2007 and 17 December 2007.

Where the Issuer considers it to be advisable in the interests of the Lapsed Rights holders to do so, it shall enter (within the Lapsed Rights Offer Period) either into a Private Placement (Listing Rule 4.7) or Intermediaries Offer (Listing Rule 4.10), whichever option the Issuer and the Manager/Registrar will deem to be in the best interests of the Lapsed Rights holders and according to the prevailing market conditions.

In accordance with Listing Rule 4.15, any premium over the Share Offer Price [where such premium exceeds LM 2 (€4.66) net of any expenses which might be incurred by the Issuer] obtained by the Issuer from the disposal of the Lapsed Rights with any of the methods described above shall be paid as follows:-

- (i) where the entitlement to the New Ordinary Shares was, at the time of lapsing, represented by a Provisional Allotment Letter, to the person whose name and address appeared on the Provisional Allotment Letter; and
- (ii) where an entitlement to New Ordinary Shares is treated as not taken up by an Overseas Shareholder, to that Overseas Shareholder.

The Lapsed Rights holders will be notified accordingly.

Any Lapsed Rights which the Issuer does not dispose of within the prescribed Lapsed Rights Offer Period will be acquired and retained by the Issuer in accordance with the Shareholders' authorisation for the Issuer to acquire its own Shares. Sale of the Issuer's own Shares after the closing of the Lapsed Rights Offer Period will not create an obligation on the Issuer to return any premium so obtained to the Lapsed Rights holders.

6.3.2 Private Placement and Intermediaries Offer

In accordance with the provisions of paragraph 6.3.1, the Issuer may enter into arrangements with Financial Intermediaries either for a Private Placement or for an Intermediaries Offer.

Such arrangements will come into force upon the closing of the Offer Period for any Lapsed Rights not taken up. Such Lapsed Rights will either be offered to the Financial Intermediaries on their own account or on account of their clients provided that such offer will only be opened for the Lapsed Rights Offer Period. The price at which such Lapsed Rights will be offered shall be determined and/or accepted in the best interests of the Lapsed Rights holders and according to the prevailing market conditions.

6.4 Overseas Shareholders

6.4.1 General

THE OFFER OF NEW ORDINARY SHARES UNDER THE RIGHTS ISSUE TO PERSONS RESIDENT IN, OR WHO ARE CITIZENS OF, OR WHO HAVE A REGISTERED ADDRESS IN, COUNTRIES OTHER THAN MALTA MAY BE AFFECTED BY THE LAW OF THE RELEVANT JURISDICTION. THOSE PERSONS SHOULD CONSULT THEIR PROFESSIONAL ADVISERS (INCLUDING TAX ADVISERS) AS TO WHETHER THEY REQUIRE ANY GOVERNMENTAL OR OTHER CONSENTS OR NEED TO OBSERVE ANY OTHER FORMALITIES TO ENABLE THEM TO TAKE UP THEIR RIGHTS.

This paragraph sets out the restrictions applicable to Eligible Shareholders who have registered addresses outside Malta and/or who are citizens or residents of countries other than Malta.

Any person (including, without limitation, nominees and trustees) outside Malta wishing to take up his rights under the Rights Issue must satisfy himself as to full observance of the applicable laws of any relevant territory including obtaining any requisite governmental or other consents, observing any other requisite formalities and paying any issue, transfer or other taxes due in such territories.

The comments set out in this paragraph are intended as a general guide only and any Eligible Shareholder who is in doubt as to his position should consult his independent professional adviser without delay.

Provisional Allotment Letters will not be sent to Eligible Shareholders with registered addresses in the United States of America or territories outside Malta, **except where in the absolute discretion of the Issuer** it is satisfied that such action would not result in a contravention of any applicable legal or regulatory requirement in the relevant jurisdiction. In these circumstances the New Ordinary Shares provisionally allotted to such Eligible Shareholders will be offered as if they were Lapsed Rights, in accordance with the provisions of paragraph 6.3 of this Securities Note.

Accordingly, receipt of this document and/or a Provisional Allotment Letter will not constitute an offer in those jurisdictions in which it would be illegal to make an offer and, in those circumstances, this document and/or a Provisional Allotment Letter will be sent for information only and should not be copied or redistributed. No person receiving a copy of this document and/or a Provisional Allotment Letter in any territory other than Malta, may treat the same as constituting an invitation or offer to him, nor should he in any event deal with the Provisional Allotment Letter **unless, in the relevant territory, such an invitation or offer could lawfully be made to him or the Provisional Allotment Letter could lawfully be used or dealt with without contravention of any unfulfilled registration or other legal or regulatory requirements.**

The provisions of this paragraph 6.4 will apply generally to Overseas Shareholders who do not or are unable to take up New Ordinary Shares provisionally allotted to them on the basis that such action would result in a contravention of applicable legal or regulatory requirements in the relevant jurisdiction.

6.4.2 United States of America

The Provisional Allotment Letters and the New Ordinary Shares have not been, and will not be, registered under the Securities Act 1933 of the United States of America or under the applicable securities laws of any state of the United States. Accordingly the Provisional Allotment Letters may not be offered or sold in the United States absent registration or an exemption from registration under the US Securities Act. Eligible Shareholders with registered addresses (or who are otherwise located) in the United States will not be sent Provisional Allotment Letters and the New Ordinary Shares provisionally allotted to them will be sold in the market as if they were Lapsed Rights, in accordance with paragraph 6.3.

7. INDICATION BY MAJOR SHAREHOLDERS

The Issuer has obtained an indication from the major shareholders (as detailed in paragraph 18.1 of the Registration Document) that they intend to subscribe to this Rights Issue.

7.1. Dilution of Major Shareholders

Should the major shareholders (as detailed in paragraph 18.1 of the Registration Document) elect not to take up their rights pursuant to the Rights Issue, the percentage of immediate dilution shall be as follows:

	<i>Number of Shares as at 26 October 2007</i>	<i>Shareholding as at 26 October 2007</i>	<i>Dilution of Shareholding after the Rights Issue</i>
<i>Major Shareholders</i>			
Massaleh Investments K.S.C.C.	39,376,160	45.26%	35.83%
International Finance Corporation	6,308,513	7.25%	5.74%
Astrolabe General Trading and Contracting Company	5,165,218	5.94%	4.70%

8. EXPENSES OF THE RIGHTS ISSUE

The Rights Issue will involve expenses including professional fees, publicity, advertising, printing, listing, registration, sponsor, management and registrar fees and other miscellaneous costs incurred in connection with this Rights Issue. Such expenses are estimated not to exceed US\$ 150,000 and shall be borne by the Issuer. No expenses will be specifically charged to any Eligible Shareholder who subscribes for New Ordinary Shares. The amount of the expenses will be deducted from the proceeds of the Rights Issue, which accordingly will bring the net proceeds from the Rights Issue to circa US\$ 25,000,000 if all the entitlements to the New Ordinary Shares are validly taken up.

9. REPRESENTATIONS AND WARRANTIES OF ELIGIBLE SHAREHOLDERS

By completing and delivering the Provisional Allotment Letter or its attachments the Eligible Shareholders:

- (a) agree to have had the opportunity to read the Prospectus and to be deemed to have had notice of all information and representations concerning the Issuer and the issue of the New Ordinary Shares contained therein;

- (b) confirm that in completing the Provisional Allotment Letter no reliance was placed on any information or representation in relation to the Issuer or the issue of the New Ordinary Shares other than those contained in this Prospectus and accordingly agree that no person responsible solely or jointly for the Prospectus or any part thereof will have any liability for any such other information or representation;
- (c) agree to provide the Registrar and/or the Issuer, as the case may be, with any information which they may request in connection with the Provisional Allotment Letter/s;

- (e) warrant that all applicable exchange control or other such regulations (including those relating to external transactions) have been duly and fully complied with;

- (g) agree that Rizzo, Farrugia & Co. (Stockbrokers) Ltd. in its capacity as Sponsor will not treat the Eligible Shareholders as its customer by virtue of Eligible Shareholders completing the Provisional Allotment Letter to subscribe for the New Ordinary Shares and that Rizzo, Farrugia & Co. (Stockbrokers) Ltd. in its capacity as Sponsor, will not provide any investment services to the Eligible Shareholders;
- (h) agree that all documents in connection with the issue of the New Ordinary Shares will be mailed at the Eligible Shareholders' own risk and may be sent at the address (or, in the case of joint Provisional Allotment Letters, the address of the first named Eligible Shareholder) as set out in the Provisional Allotment Letter;
- (i) the Eligible Shareholder is aware that for the purposes of the Prevention of Money Laundering and Funding of Terrorism Regulations, 2003 as subsequently amended, all appointed Collecting Agents are under a duty to communicate, upon request, all information about clients as is mentioned in Articles 1.2(d) and 2.4 of the "Code of Conduct for Members of the Malta Stock Exchange" appended as Appendix IV to Chapter 3 of the Malta Stock Exchange Bye-Laws. Such information shall be held and controlled by the Malta Stock Exchange in terms of the Data Protection Act (Cap. 440, Laws of Malta) for the purposes and within the terms of the Malta Stock Exchange Data Protection Policy as published from time to time.

6. REASONS FOR THE OFFER AND USE OF THE PROCEEDS

The net proceeds from the issue of the New Ordinary Shares will be used by the Issuer to support the general growth of the Group as well as its diversification strategies into new products, markets and ventures. The proceeds of the New Ordinary Shares will constitute Tier I capital forming part of the Issuer's Own Funds in terms of the Own Funds Directive BD/03, pursuant to the Banking Act of Malta, 1994.

7. RISK FACTORS**7.1 General**

The Risk Factors associated with the banking industry are multiple and varied. Exposure to credit risk, liquidity risk, interest rate risk and foreign currency risk arises in the normal course of the Issuer's and Group's business. As the Group's core business is that of a trade finance specialist, control over contingent liabilities and commitments is fundamental since the risks involved are the same as with on-balance sheet items.

7.2 Risks Relating to the Issuer

- The Issuer and the Group are engaged in trade finance activities primarily in emerging markets and are therefore subject to influence by numerous unpredictable factors including risk factors which are not usually associated with activities in more developed markets;
- Various operational risks must also be taken into consideration, for instance, failed internal or external processes or systems, human error, regulatory breaches, employee misconduct or external events such as fraud, other factors over which the Issuer has no control such as catastrophic events, terrorist attacks and other acts of war and hostility, changes in the law, taxation and regulations to which the Issuer is subject, including changes in the interpretation thereof;
- Increased competitive pressure in the financial services sector could adversely affect the Issuer's operations and profitability results.

7.3 Risks relating to the New Ordinary Shares

- Trading records in respect of the Issuer's existing shares show a consistent increase in the number of shareholders and deals transacted in the shares over the period 2004-2006. However this is not a guarantee for future performance.
- The value of the Ordinary Shares can go up or down and past performance is not necessarily indicative of future performance.
- Since the Shares in the Issuer are denominated in US\$, investors are exposed to the risk of foreign exchange rates.
- The Issuer may incur further borrowings or indebtedness and may create or permit to subsist other security interests upon the whole or any part of its present or future undertakings, assets or revenues (including uncalled capital).

Specialist services relating to shipping finance and in particular pre-demolition ship finance are provided from the Issuer's London and Dubai representative offices.

10. TREND INFORMATION

For the remainder of 2007, the general trend and diversification in the Issuer's and Group's business is expected to continue to follow the same pattern experienced in recent financial periods. Further to the financial results announced for the six months ended 30 June 2007, no significant change in the financial or trading position of the Issuer or the Group has occurred, or is expected to occur, as a result of major business or strategic shifts. Moreover, on the basis of the performance in evidence up to the date of this Prospectus, and subject to the observations made in paragraph 11 below in relation to the general outlook, the Directors consider that the trend should continue for the rest of the year.

10.1 Financial Performance for the Half-Year ended 30 June 2007

The Group recorded a profit before tax of US\$ 3,795,866 for the six months ended 30 June 2007, an increase of 10.5% over the same period in 2006.

Profit after tax attributable to shareholders was US\$ 3.46 million, an increase of 11% over the US\$ 3.13 million earned during the same period in 2006.

There was an increase in group net interest income of 22% on 2006, to US\$ 4.97 million as well as an increase in net fee and commission income of 24% to US\$ 6.14 million. On the other hand, net trading income booked by the Group for the period under review remained at same levels as 2006.

Total assets reached US\$ 473 million at 30 June 2007 compared with US\$ 463 million as at the end of 30 June 2006.

The Group's basic earnings per share for the six months ended 30 June 2007 were of US cents 4.01 (for the six months ended on 30 June 2006: US cents 4.02).

Financial performance and trend information regarding the Group and the Issuer for the financial years ended 31 December 2004, 31 December 2005 and 31 December 2006 respectively can be viewed in the financial statements on the Issuer's website: www.fimbank.com.

11. PROFIT FORECAST AND ESTIMATES

The Prospectus does not contain any profit forecast or estimates, however the Directors have expressed the following views about the general foreseeable outlook for the business of the Issuer and the Group.

The short-term outlook for the Group continues to reflect the strategic mix of mature and emerging products, services and markets. In spite of increasing competition in some of the more traditional markets and business areas, the Issuer's core trade finance services are expected to continue delivering good revenue streams, at the same time new and structured products and services are being considered to enhance the offering in these markets. Moreover, the results from the Indian associated company, Global Trade Finance Limited ("GTF"), have outperformed expectations so far in 2007 and buoyed by strong market opportunities in the sub-continent, are expected to make a significant contribution to final Group profits for 2007. On the other hand, the start-up associates - MENAFACTORS Limited and Egypt Factors Limited - will be expected to start making meaningful contributions to Group results in 2008. The outlook for London Forfaiting Company Limited ("LFC") performance for the rest of 2007 is also positive, especially as future recognition of the deferred tax asset in this subsidiary will start contributing directly to Group profit. In particular, the future of GTF and LFC will depend significantly on the level and depth of equity support, and the Directors will look at developments in 2008 which should improve the quality and mix of the shareholdings in both companies.

While the continued expansion of major developing economies is expected to continue fuelling emerging market growth and high commodity prices, the Group's risks remain that emerging economies can still present unforeseeable reversals. Sustained high oil prices and rising interest rates accentuate the risks, although improving fundamentals in these markets tend to reduce the extent of downside.
