## SECTION B: ISSUER

---

- B.1 The legal and commercial name of the Issuer is PTL Holdings p.l.c. (registration number C 63261).
- B.2 The Issuer was registered in Malta in terms of the Act on 23 December 2013 as a private limited liability company and changed its status to a public limited liability company on 20 October 2014. The Issuer is domiciled in Malta.

Upon incorporation, the Company acquired a 100% shareholding in PTL International Limited (C 63276) which was set up on the same day. Subsequently, by virtue of a number of share transfer instruments the latter company acquired the Group companies highlighted in Element B.5 below, other than (i) PTL Company B.V. (28889541) and Ipsyon Limited (C 65394) which were incorporated after the said transactions; and (ii) SAD and APCO which were acquired from third parties in 2014. As at 31 December 2013, the principal operating company of the Group was PTL.

- B.4b The Issuer is a wholly owned subsidiary of Hili Ventures Limited and is the parent company of the technology business division of the Hili Ventures Group. The principal object of the Issuer is to carry on the business of a holding and finance company. The Issuer does not itself undertake any trading activities apart from the raising of capital and the advancing thereof to members of the Group. Accordingly, the Issuer is economically dependent on the financial and operating performance of the business of PTL, SAD and APCO.

The following is an overview of the trends expected in the key areas of operations of the PTL Group in the foreseeable future.

### **IT products and services**

The IT hardware, software and services industry is very fragmented and highly competitive. PTL competes with a large number and wide variety of marketers and resellers of IT hardware, software and services. The competitive landscape in the industry is continually changing as various competitors expand their product and service offerings. In addition, emerging models such as cloud computing are creating new competitors and opportunities in messaging, infrastructure, security, collaboration and other service offerings, and, as with other areas, PTL both resells and competes directly with many of these offerings.

### **Reselling of Apple products and services**

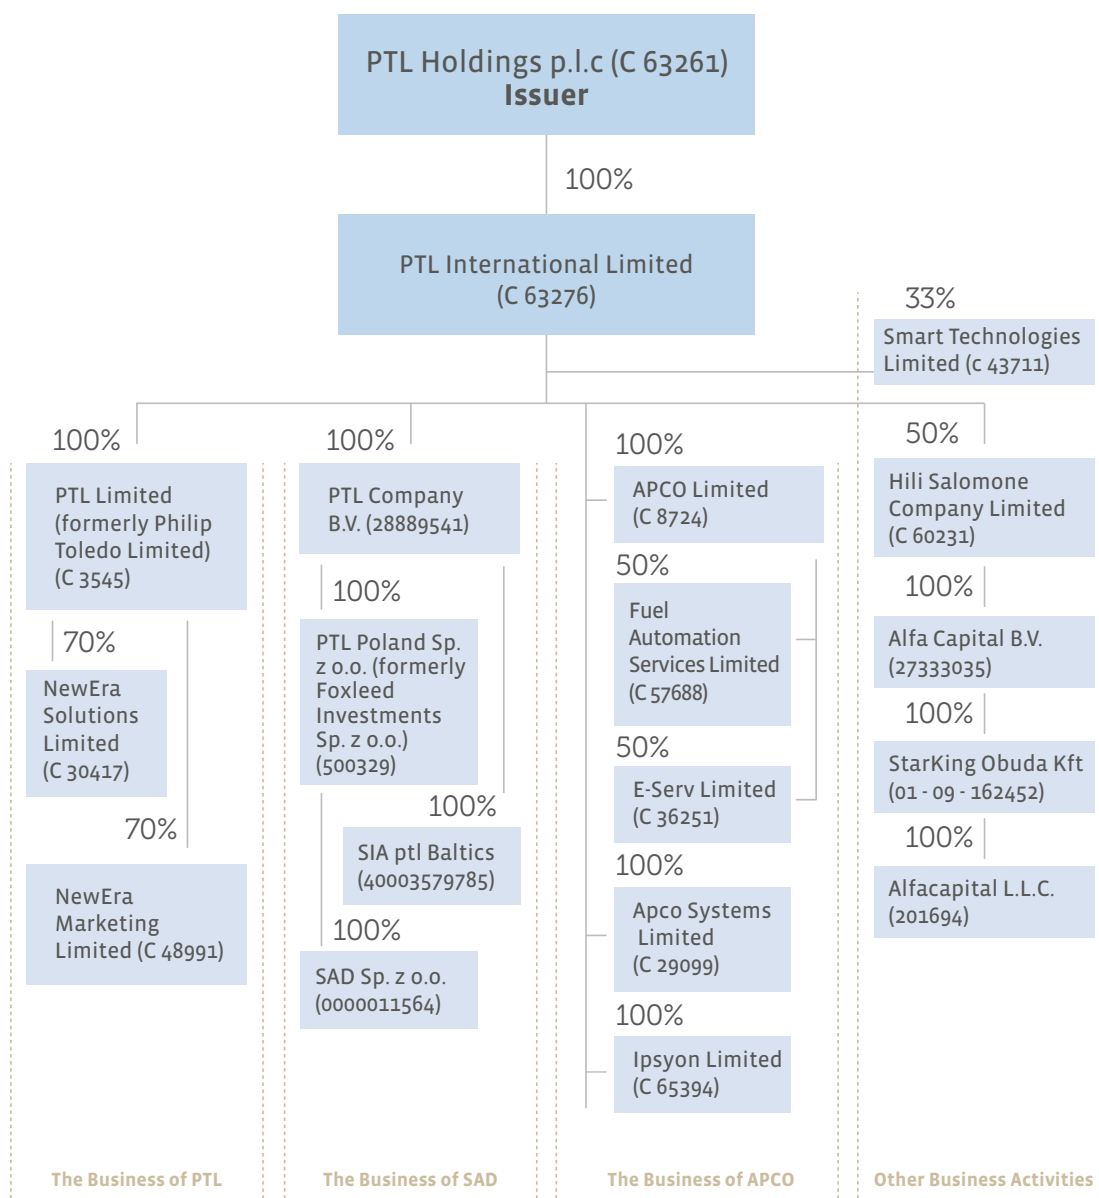

The market in Poland for Apple products and services is highly competitive. As with other developed markets, the market is characterised by frequent product introductions and rapid technological advances that have substantially increased the capabilities and use of mobile communication and media devices, personal computers, and other digital electronic devices. SAD competes with other resellers of Apple products and services, and therefore the main competing factors are not price or quality of products, but location of stores, quality of service provided and share of the business-to-business market. SAD's other competitors, who sell mobile devices and personal computers based on other operating systems, typically undertake aggressive price cuts and lower their product margins to gain or maintain market share.

SAD is highly dependent on Apple to continuously introduce new and improved products and services ahead of competitors so as to maintain high demand for Apple offerings. Principal competitive factors important to SAD include price, product features, relative price/performance, product quality and reliability, design innovation, a strong third-party software and peripherals ecosystem, marketing and reselling capability, service and support, and corporate reputation.

**Electronic payment gateway and related services**

APCO believes that electronic transactions will expand further in the future and that an increasing percentage of these transactions will be processed through emerging technologies. Competitors are continually offering innovative products and enhanced services, such as products that support smart phones that contain mobile wallet software. As mobile payments continue to evolve and are desired by merchants and consumers, APCO will continue to develop new products and services that will leverage the benefits that these new technologies can offer customers. In addition, it is expected that new markets will develop in areas that have been previously dominated by paper-based transactions. Industries such as e-commerce, government, recurring payments and business-to-business should continue to see transaction volumes migrate to more electronic-based settlement solutions. As a result, the continued development of new products and services and the emergence of new vertical markets will provide opportunities for APCO to expand its business in the years to come.

B.5 The Issuer is the holding company of the PTL Group. The organisational structure of the Group is illustrated in the diagram below.

B.8 The following financial information is extracted from the pro forma consolidated financial statements of the Issuer for the year ended 31 December 2013 and for the six month period ended 30 June 2014. The aforesaid pro forma financial information has been prepared to take into account the changes that have taken place in the structure of the Group as described in Element B.2 above.

In the basis of preparation of the pro forma consolidated financial information, it has been assumed that the Issuer has controlled the Group as from 1 January 2013, and that the acquisitions of SAD and APCO have occurred with effect from 1 January 2013.

- B.15 As at the date of the Prospectus, the Issuer is the holding company of the PTL Group. In terms of the Memorandum and Articles of Association of the Issuer the principal object is to purchase or otherwise acquire, under any title whatsoever, to hold and manage, by any title, movable and immovable property or other assets, including but not limited to securities and other financial interests. Sub-Clause 4(n) of the Company's Memorandum of Association specifically provides that the Issuer is authorised and empowered to issue bonds, commercial paper or other instruments creating or acknowledging indebtedness and to sell or offer same to the public.

The PTL Group is wholly owned directly or indirectly through Hili Ventures Limited by Carmelo sive Melo Hili as to 50%, whilst the remaining 50% is held by Joseph sive Beppe Hili and other members of his family.
- B.17 Not Applicable: the Issuer has not sought the credit rating of an independent rating agency, and there has been no assessment by any independent rating agency of the Bonds issued by the Issuer.

The Group’s bank borrowings are secured by general hypothecs, pledges and guarantees provided by Group companies, by companies forming part of the Hili Ventures Group and by the Company’s ultimate shareholders. The related party loans of the Group are unsecured and interest free. An amount of €20.8 million of bank borrowings and a related party loan amounting to €8.4 million will be repaid through net proceeds of the Bond Issue, and therefore bank borrowings senior to the Bonds will be reduced to *circa* €12 million.

The indebtedness being created by the Bonds ranks after these bank borrowings. In addition, the Bonds would also rank after any future debts which may be secured by a cause of preference such as a pledge, mortgage, privilege and/or a hypothec.

- C.9 The Bonds shall bear interest from and including 5 December 2014 at the rate of 5.1% per annum on the nominal value thereof, payable annually in arrears on each Interest Payment Date. The first interest payment will be effected on 4 December 2015. Any Interest Payment Date which falls on a day other than a Business Day will be carried over to the next following day that is a Business Day. Unless previously purchased and cancelled, the Bonds will be redeemed at their nominal value (together with interest accrued to the date fixed for redemption) on 4 December 2024.

The gross yield calculated on the basis of the Interest, the Bond Issue Price and the Redemption Value of the Bonds at Redemption Date, is five point one per cent (5.1%).

The remaining component of Element C.9 is not applicable, given that no representative of debt security holders has been appointed.

- C.10 Not Applicable: there is no derivative component in the interest payments on the Bonds.
- C.11 The Listing Authority has authorised the Bonds as admissible to Listing pursuant to the Listing Rules by virtue of a letter dated 3 November 2014. Application has been made to the MSE for the Bonds being issued, pursuant to the Prospectus, to be listed and traded on the Official List. The Bonds are expected to be admitted to the MSE with effect from 16 December 2014 and trading is expected to commence on 17 December 2014.

## SECTION D. RISKS

---

**Holding of a Bond involves certain risks. Prospective investors should carefully consider, with their own independent financial and other professional advisors, the following risk factors and other investment considerations as well as all the other information contained in the Prospectus before deciding to acquire Bonds. Prospective Investors are warned that by investing in the Bonds they may be exposing themselves to significant risks that may have the consequence of losing a substantial part or all of their investment.**

The Prospectus contains statements that are, or may be deemed to be, “forward looking statements”, which relate to matters that are not historical facts and which may involve projections of future circumstances. They appear in a number of places throughout the Prospectus and include statements regarding the intentions, beliefs or current expectations of the

Issuer and/or its' Directors. These forward looking statements are subject to a number of risks, uncertainties and assumptions and important factors that could cause actual risks to differ materially from the expectations of the Issuer's Directors. No assurance is given that the future results or expectations will be achieved.

Below is a summary of the principal risks associated with an investment in the Issuer and the Bonds – there may be other risks which are not mentioned in this Summary Note. Investors are therefore urged to consult their own financial or other professional advisors with respect to the suitability of investing in the Bonds. The following is a summary of the principal risk factors:

**D.2 Essential information on the key risks specific to the Issuer, the Group and its business:**

**A. Risks relating to the Issuer:**

- i. The Issuer is a holding company and, as such, its assets consist primarily of loans issued to and investments in Group companies. Consequently, the Issuer is largely dependent on income derived from dividends receivable from Group companies and the receipt of interest and loan repayments from Group companies.
- ii. The integration and operation of acquired businesses may disrupt the Group's business and create additional expenses, and the Group may not achieve the anticipated benefits of the acquisitions.
- iii. The Group's operating results may be adversely affected by fluctuations in the Polish Zloty and other foreign currency exchange rates.
- iv. The Group's failure to comply with its contracts or applicable laws and regulations could result in, among other things, fines or other liabilities, and changes in procurement regulations could adversely impact the Group's business, results of operations or cash flows.
- v. The Group's indebtedness could adversely affect its financial position.

**B. Risks relating to the business of PTL:**

- i. General economic conditions could negatively affect technology spending by PTL's customers and put downward pressure on prices, which may have an adverse impact on PTL's business, results of operations or cash flows.
- ii. PTL's financial performance could be adversely affected by decreases in spending on technology products and services by PTL's public sector customers.
- iii. PTL's business depends on vendor partner relationships and the availability of their products.
- iv. PTL's sales are dependent on continued innovations in hardware, software and services offerings by vendor partners and the competitiveness of their offerings.
- v. Substantial competition could reduce PTL's market share and significantly harm its financial performance.
- vi. Failure to provide high-quality services to PTL's customers could adversely impact PTL's reputation and business.
- vii. If PTL loses any of its key personnel, or is unable to attract and retain the talent required for its business, the business could be disrupted and its financial performance could suffer.

**C. Risks relating to the business of SAD:**

- i. Economic conditions in Poland could have material adverse effect on SAD.
- ii. SAD's business is highly dependent on the reseller agreement with Apple; a loss of or change in the material terms of this agreement could have a material adverse effect on SAD's business, operating results and financial condition.
- iii. Fluctuation in the value of currencies in which operations are conducted and activities are financed relative to the Polish Zloty could adversely affect SAD's business, operating results and financial condition.
- iv. SAD operates in a highly competitive market.

- v. SAD is reliant on Apple to successfully manage frequent product introductions and transitions.
- vi. If SAD loses any of its key personnel, or is unable to attract and retain the talent required for its business, the business could be disrupted and its financial performance could suffer.
- D. Risks relating to the business of APCO:
  - i. APCO's future success is partly dependent upon its speed to adapt to technological changes.
  - ii. If APCO loses any of its key personnel, or is unable to attract and retain the talent required for its business, the business could be disrupted and its financial performance could suffer.
  - iii. APCO regards its intellectual property as critical to its success. Despite APCO's efforts to protect such proprietary rights, unauthorised parties may attempt to obtain and use information that APCO regards as proprietary.
  - iv. Failure on the part of APCO to safeguard its data could affect its reputation among merchant clients and cardholders, and may expose APCO to penalties, fines, liabilities and legal claims.
  - v. APCO relies on various financial institutions to provide clearing services in connection with settlement activities. If APCO is unable to maintain clearing services with these financial institutions and is unable to find a replacement, its business may be adversely affected.
  - vi. The payment processing industry is highly competitive and some of APCO's competitors are larger and have greater financial and operational resources, which may give them an advantage in the market with respect to the pricing of products and services offered to APCO's customers, and the ability to develop new technologies.
  - vii. APCO's systems and systems of third-party providers may fail, which could interrupt APCO's service.
  - viii. APCO may experience software defects, undetected errors, and development delays, which could damage customer relations, decrease potential profitability and expose APCO to liability.
- D.3 Essential information on the key risks specific to the Bonds:

An investment in the Bonds involves certain risks, including those set out below in this section. In deciding whether to make an investment in the Bonds, prospective investors are advised to carefully consider, with their own independent financial and other (including tax, accounting, credit, legal and regulatory) professional advisors, the following risk factors (not listed in order of priority) and other investment considerations, together with all the other information contained in the Prospectus:

- i. the existence of an orderly and liquid market for the Bonds depends on a number of factors. Accordingly, there can be no assurance that an active secondary market for the Bonds will develop, or, if it develops, that it will continue. Furthermore, there can be no assurance that an investor will be able to sell or otherwise trade in the Bonds at or above the Bond Issue Price or at all;
- ii. investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds;
- iii. a Bondholder will bear the risk of any fluctuations in exchange rates between the currency of denomination of the Bonds (€) and the Bondholder's currency of reference, if different;
- iv. no prediction can be made about the effect which any future public offerings of the Issuer's securities, or any takeover or merger activity involving the Issuer, will have on the market price of the Bonds prevailing from time to time;
- v. the Bonds constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and with other unsecured debt, if any. Furthermore, subject to the negative pledge clause, third party security interests may be registered which will rank in priority to the Bonds against the assets of the Issuer for so long as such security interests remain in effect;
- vi. in the event that the Issuer wishes to amend any of the Terms and Conditions of the Bond Issue it shall call a meeting of Bondholders. The provisions relating to meetings of Bondholders permit defined majorities to bind all Bondholders including Bondholders who did not attend and vote at the relevant meeting and Bondholders who voted in a manner contrary to the majority;

- vii. **the Terms and Conditions of this Bond Issue are based on Maltese law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in Maltese law or administrative practice after the date of this Prospectus.**

In the event that subscriptions exceed the reserved portions referred to in clauses (i) and (ii) above of €2,000,000 and €5,000,000 respectively, the unsatisfied excess amounts of such Applications will automatically participate in the amount of Bonds available to the general public.
