1. IMPORTANT INFORMATION

1.1 Introduction

This document constitutes a summary to the Prospectus dated 10th June 2009 and contains information on the issue by Tumas Investments p.l.c. (the “Issuer”) of an aggregate principal amount of €20,000,000 6.25% Bonds due 2014-2016 of a nominal value of €100 per Bond issued at par (the “Bonds”), guaranteed by Spinola Development Company Limited (the “Guarantor”). In the event that during the Issue Period the Issuer receives applications for Bonds in excess of €20,000,000, the Issuer may increase the issue of Bonds by a maximum amount of up to an additional €5,000,000 for an aggregate principal amount of €25,000,000 (the “Over-allotment Option”). The Bonds shall bear interest at the rate of 6.25% per annum payable semi-annually in arrears on the 31st January and 31st July of each year (each an “Interest Payment Date”), the first Interest Payment Date being on the 31st January 2010. Any Interest Payment Date which falls on a day other than a business day will be carried over to the next following day that is a business day. The Bonds will, unless previously purchased and cancelled, be redeemed at the Redemption Value of €100 per Bond on the 31st July 2016 (the “Maturity Date”), subject to the Issuer’s option to redeem all or any part of the Bonds at their nominal value prior to the Maturity Date between the 31st July 2014 and the 30th July 2016 (the “Designated Optional Redemption Period”) as the Issuer may determine on giving not less than thirty (30) days notice in writing to the Bondholders.

The Prospectus, of which this Summary forms part, also contains information about the Issuer, the Guarantor and the Bonds in accordance with the requirements of the Listing Rules of the Listing Authority, the Companies Act, 1995 (Chapter 386 of the Laws of Malta) (the “Act”) and the Commission Regulation (EC) No. 809/2004 of the 29th April 2004 implementing Directive 2003/71/EC of the European Parliament and of the Council as regards information contained in prospectuses as well as the format, incorporation by reference and publication of such prospectuses and dissemination of advertisements.

Each and all of the directors of the Issuer whose names appear under the heading “Administrative, management and supervisory bodies” in Section 11.1 of the Registration Document forming part of this Prospectus, are the persons responsible for the information contained in this Prospectus, save for the information specifically relating to the Guarantor, for which the directors of the Guarantor whose names appear in Section 11.2 of the Registration Document are responsible. To the best of the knowledge and belief of the directors, who have taken all reasonable care to ensure that such is the case, the information contained in the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The directors accept responsibility accordingly.

No broker, dealer, salesman or other person has been authorised by the Issuer, the Guarantor or their respective directors to issue any advertisement or to give any information or to make any representations in connection with the issue of the Bonds, other than those contained in this Prospectus and in documents referred to herein, in connection with the issue hereby made, and if given or made, such information or representations must not be relied upon as having been authorised by the Issuer, the Guarantor or their respective directors.

All the advisers to the Issuer named in the Prospectus under the heading “Advisers to the Issuer” in Section 5 of the Registration Document are acting exclusively for the Issuer and the Guarantor in relation to this Bond Issue and will not be responsible to any investor or any other person whomsoever in relation to the transactions proposed in the Prospectus.

The Prospectus, a copy of which has been registered with the Registrar of Companies in accordance with the Act, has been published with the consent of the Registrar of Companies in terms of regulation 5(2) of the Companies Act (the Prospectus) Regulations (Legal Notice 389 of 2005 as amended by L.N. 212 of 2007).

A copy of the Prospectus has been submitted to the Listing Authority in its capacity as the competent authority under the Financial Markets Act (Chapter 345 of the Laws of Malta) (the “FMA”) for its authorisation for admissibility of the Bonds for listing pursuant to the Listing Rules. Application has also been made to the Malta Stock Exchange for the Bonds being issued pursuant to this Prospectus to be listed and traded on the Official List of the Malta Stock Exchange.

THE LISTING AUTHORITY ACCEPTS NO RESPONSIBILITY FOR AND MAKES NO REPRESENTATIONS AS TO THE CONTENTS, ACCURACY OR COMPLETENESS OF THIS PROSPECTUS AND EXPRESSLY DISCLAIMS ANY LIABILITY WHATSOEVER FOR ANY LOSS HOWSOEVER ARISING FROM OR IN RELIANCE UPON THE WHOLE OR ANY PART OF THE CONTENTS OF THIS PROSPECTUS.

The Terms and Conditions of subscription for the Bonds are set out in Section 6 of the Securities Note forming part of this Prospectus.

Statements in the Prospectus are, except where otherwise stated, based on the law and practice currently in force in Malta and are subject to changes therein.

UNLESS OTHERWISE STATED, THE CONTENTS OF THE ISSUER’S OR THE GUARANTOR’S WEBSITES OR ANY WEBSITE DIRECTLY OR INDIRECTLY LINKED TO THE ISSUER’S OR THE GUARANTOR’S WEBSITES DO NOT FORM PART OF THIS PROSPECTUS. ACCORDINGLY, NO RELIANCE OUGHT TO BE MADE BY ANY INVESTOR ON ANY INFORMATION OR OTHER DATA CONTAINED IN SUCH WEBSITES AS THE BASIS FOR A DECISION TO INVEST IN THE BONDS.

DURING THE ISSUE PERIOD, APPLICATIONS FOR SUBSCRIPTION TO THE BONDS MAY BE MADE THROUGH ANY OF THE AUTHORISED INTERMEDIARIES AS LISTED IN ANNEX E FORMING PART OF THE PROSPECTUS. A SPECIMEN APPLICATION FORM IS PROVIDED WITH THIS PROSPECTUS IN ANNEX D, TOGETHER WITH A GUIDE ON HOW TO COMPLETE IT.

1.2 Selling restrictions

The Prospectus does not constitute, and may not be used for purposes of, an offer or invitation to subscribe for Bonds by any person in any jurisdiction: (i) in which such offer or invitation is not authorised; or (ii) in which the person making such offer or invitation is not qualified to do so; or (iii) to any person to whom it is unlawful to make such offer or invitation.

It is the responsibility of any person in possession of this Prospectus and any person wishing to apply for Bonds to inform themselves of, and to observe and comply with, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for Bonds should inform themselves as to the legal requirements of so applying and of any applicable exchange control requirements and taxation in the countries of their nationality, residence or domicile.

Save for the public offering in Malta, no action has been or will be taken by the Issuer that would permit a public offering of the Bonds or the distribution of the Prospectus (or any part thereof) or any offering material in any country or jurisdiction where action for that purpose is required.

The Bonds have not been, nor will they be, registered under the United States Securities Act, 1933 as amended (the “1933 Act”), or under any Federal or State securities law and may not be offered, sold or otherwise transferred, directly or indirectly, in the United States of America, its territories or possessions, or any area subject to its jurisdiction (the “United States”) or to or for the benefit of, directly or indirectly, any United States person (as defined in Regulation “S” of the 1933 Act, as amended from time to time). Furthermore, the Issuer will not be registered under the United States Investment Company Act, 1940 (the “1940 Act”) as amended and investors will not be entitled to the benefits of the 1940 Act. Based on interpretations of the 1940 Act by the staff of the United States Securities and Exchange Commission Relating to Foreign Investment Companies, if the Company has more than 100 beneficial owners of its securities who are United States persons, it may become subject to the 1940 Act. The directors will not knowingly permit the number of holders who are United States persons to exceed 70.

In relation to each Member State of the European Economic Area (other than Malta) which has implemented the Directive 2003/71/EC of the European Parliament and of the Council of the 4th November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading (the “Prospectus Directive”) or which, pending such implementation, applies Article 3.2 of the Prospectus Directive, the Bonds can only be offered to “qualified investors” (as defined in the Prospectus Directive), as well as in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

No person receiving a copy of the Prospectus or an Application Form in any territory other than Malta may treat the same as constituting an invitation or offer to him nor should he make use of such Application Form, unless, in the relevant territory, such an invitation or offer could lawfully be made to him or such application could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside Malta wishing to take advantage of the Bond Issue to satisfy himself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any required governmental or other consents, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.

2. RISK FACTORS

This document contains forward-looking statements. Such forecasts and projections do not bind the Issuer or the Guarantor with respect to future results and no assurance can be given that future results or expectations covered by such forward-looking statements will be achieved. These statements by their nature involve substantial risks and uncertainties, a few of which are beyond the Issuer's and Guarantor's control.

The value of investments can go up or down and past performance is not necessarily indicative of future performance. The nominal value of the Bonds will be repayable in full upon maturity. An investment in the Bonds involves certain risks, including those described below. Prospective investors should carefully consider, with the help of their own independent financial and other professional advisers (including tax, accounting, credit, legal and regulatory advisers) the following risk factors and other investment considerations as well as all the other information contained in this Prospectus before deciding to make an investment in the Bonds. The sequence in which the risks below are listed is not intended to be indicative of any order of priority or the extent of their consequences.

2.1 General

Potential investors in the Bonds must determine the suitability of that investment in the light of their own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Bonds, including Bonds with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iii) understand thoroughly the terms of the Bonds and be familiar with the behaviour of any relevant indices and financial markets; and,
- (iv) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect his/her investment and his/her ability to bear the applicable risks.

2.2 Considerations relating to the Issuer

The Issuer itself does not have any substantial assets and is essentially a special purpose vehicle set up to act as a financing company solely for the needs of the SDC Group. The Bonds are being guaranteed by SDC and the information in this Prospectus is designed to provide prospective investors with sufficient information about SDC and its subsidiary companies to enable investors to make an informed judgement as to the reliance on the guarantee. The said guarantee is unrestricted and unlimited in scope and a copy thereof features as Annex A to this Prospectus.

2.3 Reliance on the SDC Group

The Issuer is mainly dependant on the business prospects of the SDC Group and, therefore, the operating results of the SDC Group have a direct effect on the Issuer's financial position. Accordingly, the risks of the Issuer are indirectly those of the SDC Group.

2.4 Considerations relating to the business of the SDC Group

The Portomaso project is a large real estate development, targeted in part at the commercial and residential market, and in part at the hospitality and tourism sector.

All development projects are subject to a number of specific risks – the risk of cost overruns; the risk of insufficiency of resources to complete and continue to administer and manage; the risk of sales transactions not materialising at the prices and the tempo envisaged; and the risk of sales delays resulting in liquidity strain, higher interest costs and the erosion of profitability. If these risks were to materialise, they would have an adverse impact on the project's profitability and cash flows. The extent to which the Portomaso project is exposed to such factors is described in Section 8 of the Registration Document. The advanced stage of the project and its operational success to date both serve to reduce the remaining degree of uncertainty attaching to the future of this development.

A material part of the income currently derived by the project is subject to risks normally associated with the incoming travel industry, in terms of the operation of the Hilton Malta and convention centre. The hotel also depends materially on the business traveller for its earnings and would be adversely affected by economic downturns that curtail the volume of business visitors to Malta.

Portomaso is affected across the span of its components by business liquidity and economic conditions both locally and overseas. The quality and number of overseas visitors to the development has an impact on the attainment of apartment sales to overseas buyers who so far have accounted for around 60% of achieved sales.

The project may be impacted by other existing or planned property developments, and by the state of the property market generally. SDC expects to continue to face competition from a number of property developments which are currently underway or projected in the vicinity of Tigne` Point, St. Julian's and other areas. The quality of development and finishing standards, location and vehicular accessibility and the amenities and facilities on offer also impact on competition in the residential real estate market.

Apartments and car parking spaces for sale as at 31st December 2008 are estimated to have a realisable value of €44,000,000 and their disposal proceeds in the immediate years ahead are projected as one of the sources of liquidity that will enable SDC to effect a reduction in its borrowing levels. SDC's future sales expectations recognise that 51 apartments having a value of €18,500,000 are already subject to promise of sale agreements and that the currently adverse economic scenario may result in other sales materialising at a slower pace than has hitherto been the case. All projections are nevertheless inherently subject to the risk of adverse unexpected events which may result, for instance, in delays in the receipt of expected future cash inflows.

The business of managing, operating and letting of retail and commercial areas within the Portomaso complex may be subject to fluctuations in demand for such space and to counter-party risks over which the Guarantor may have no control. These may be the result of market and economic conditions generally, as well as those affecting the Guarantor's operations directly, such as fluctuations in consumer spending and shifts in consumer trends and preferences.

Material delays in income generation when compared to the company's expectations would necessitate the rescheduling of SDC's loan obligations, which would require the consent of the financing banks. Delays would also serve to prolong the SDC Group's exposure to interest rate risk.

The SDC Group is subject to taxation, planning, environmental, health and safety laws and regulations, including regulations relating to planning permissions. As with any business, the group is at risk in relation to changes in the laws and regulations and the timing and effects of changes in the laws and regulations to which it is subject, including changes in the interpretation thereof which cannot be predicted; and in relation to other factors over which the group has no control such as catastrophic events, terrorist attacks and other acts of war or hostility all of which could have an adverse affect on the business, financial condition and profitability of the group.

The SDC Group is also subject to various counter-party risks, including the risk of counter-parties such as contractors and sub-contractors engaged for the construction and finishing of the development, and prospective purchasers defaulting on their obligations with the group. Such parties may fail to perform or default in their obligations to the Guarantor due to insolvency, lack of liquidity, market or economic downturns, operational failure or other reasons which are beyond SDC's control.

2.5 Considerations relating to the Bonds

An investment in the Bonds involves certain risks including, but not limited to, those described below:

- **Trading and liquidity**

There is currently no trading record in respect of the Bonds as there has never been a public market for the Bonds prior to the offering contained in this Prospectus. Application has been made to the Listing Authority for the admissibility of the Bonds to listing and to the Malta Stock Exchange for the Bonds to be listed and traded on its Official List. There can be no assurance, however, that an active secondary market for the Bonds will develop or, if it develops, that it will continue, nor can there be any assurance that an investor will be able to re-sell his Bonds at or above the Bond Issue Price, or at all. A public trading market having the desired characteristics of depth, liquidity and orderliness depends on a number of factors including the presence in the market place of willing buyers and sellers of the Issuer's Bonds at any given time, which presence is dependent upon the individual decisions of investors over which the Issuer has no control. Many other factors over which the Issuer has no control may affect the trading market for, and trading value of, the Bonds. These factors include the time remaining to the maturity of the Bonds, the outstanding amount of the Bonds and the level, direction and volatility of market interest rates, generally. No prediction can be made about the effect which any future public offerings of the Issuer's securities or any takeover or merger activity involving the Issuer will have on the market price of the Bonds prevailing from time to time.

- **Early redemption**
The Issuer has the option to redeem the Bonds, in whole or in part, at any time during the Designated Optional Redemption Period, together with any accrued and unpaid interest until the time of redemption. This optional redemption feature may condition the market value of the Bonds.
- **Changes in laws and regulations**
The Bonds are based on the requirements of the Listing Rules of the Listing Authority, the Companies Act and the Commission Regulation EC No. 809/2004 of the 29th April 2004 implementing Directive 2003/71/EC of the European Parliament and of the Council in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in law or administrative practice after the date of this Prospectus.
- **Security**
The Bonds shall constitute unsecured and unsubordinated obligations of the Issuer and will rank *pari passu* without any priority or preference with all other present and future unsecured obligations of the Issuer, other than subordinated obligations, if any.
- **Amendments to the Terms and Conditions of the Bond Issue**
The Terms and Conditions relating to the Bonds contain provisions in Section 5.11 of the Securities Note forming part of this Prospectus for calling meetings of Bondholders in the event that the Issuer wishes to amend any of the Terms and Conditions of the Bond Issue. These provisions permit defined majorities to bind all Bondholders, including Bondholders who did not attend and vote at the relevant meeting and Bondholders who vote in a manner contrary to the majority.
- **Credit rating**
The Issuer has not sought the credit rating of an independent rating agency and there has been no assessment by any independent rating agency of the Bonds.
- **Interest rate risk**
Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds.
- **Prior ranking charges**
The Issuer may incur further borrowings or indebtedness and may create or permit to subsist other security interests upon the whole or any part of its present or future undertakings, assets or revenues (including uncalled capital).

8. INFORMATION ON THE ISSUER AND THE GUARANTOR

8.1 Organisational structure

The organisational structure of the Tumas Group, relevant to the Issuer and the Guarantor (which are fully-owned subsidiary companies of Tumas Group Company Limited), is illustrated in the diagram below as at the date of this Prospectus:

8.2 History and development of the Issuer and the Guarantor

8.2.1 The Issuer

The Issuer, as well as the Guarantor, are fully-owned subsidiary companies of Tumas Group Company Limited. The Tumas Group has expanded significantly since its founding in the mid 1960's by the late Chev. Thomas Fenech and is today one of the largest private business groups in the Maltese Islands, comprising various enterprises active primarily in the hospitality, leisure, tourism, property development and leasing, port operations and automotive sectors. The Group employs a total full-time equivalent staff complement of circa 1,400 employees.

Tumas Investments p.l.c. was incorporated on the 17th November 2000 as a public limited company, registered in terms of the Companies Act (Chapter 386 of the Laws of Malta) with company registration number C27296 and is domiciled in Malta, having its registered office at Level 3, Portomaso Business Tower, Portomaso, St. Julian's. The Issuer, which was set up and established to act as a finance company, has an authorised and issued share capital of €232,937.30, divided into 100,000 ordinary shares of €2.329373 each, fully paid up.

The issue of the Bonds falls within the objects of the Issuer, which continues and will continue to play a pivotal role in the further development of the SDC Group. The Issuer is intended to serve as a vehicle through which the SDC Group will continue to finance the management and administration of Portomaso and other projects that may be undertaken under the aegis of Spinola Development Company Limited and its subsidiary companies and/or refinance existing credit facilities, enabling the SDC Group to exploit its potential and seize new opportunities arising in the market.

8.2.2 The Guarantor

SDC, which was incorporated on the 10th May 1966 and was acquired by the Tumas Group in 1986, is a limited liability company incorporated and registered in Malta with company registration number C331, having its registered office at Level 3, Portomaso Business Tower, Portomaso, St. Julian's. SDC is a fully-owned subsidiary of the Tumas Group. Its immediate holding company is Spinola Investments Limited (C8034).

Today, following a number of share capital increases over the years, SDC has an authorised share capital of €13,652,805, divided into shares of a nominal value of €1 each. The issued share capital of SDC is of €13,652,805 divided into 1,164,687 ordinary 'A' shares of €1 each, 6,988,119 ordinary 'B' shares of €1 each and 5,499,999 redeemable preference shares of €1 each which have been fully paid and subscribed.

The business of SDC has to date principally comprised the continuous development, management and operation of the Portomaso project. SDC is the owner of the site on which the Portomaso project is built.

SDC owns 100% of the share capital of Portomaso Leasing Company Limited and of Halland Developments Company Limited.

The operations of Portomaso Leasing Company Limited form an integral part of the management and administration of the Portomaso project. The company focuses on leasing of the long-term commercial and office components of the project.

On the 4th June 2009, Halland Developments Company Limited acquired the freehold title of the Halland site and adjoining land from St. Andrews Hotels Limited, another fully-owned subsidiary of the Tumas Group. The consideration for the transfer was €9,000,000.

The Guarantor has, by means of an unlimited and unrestricted guarantee of the 4th June 2009, undertaken to guarantee all the obligations of the Bond Issue in the event of the Issuer defaulting on any of its obligations in terms of this Prospectus.

The continued success of the Portomaso project moving ahead depends in large part on the prevailing economic conditions impacting its ongoing operations. In other respects, the project is now in its final stages of construction, and, accordingly, a variety of business risks relating to real estate development no longer apply to Portomaso to any material extent.

The Hilton Malta is currently the single largest long-term component of the project. As with any hotel establishment, the Hilton Malta is exposed to risks associated with the incoming travel industry. The hotel also enjoys significant business traveller patronage.

The immediate outlook facing the hotel industry is not a positive one, given the economic downturn being experienced on a global scale, including the main overseas markets that impact Malta. SDC's expectations for the hotel moving ahead, including the profit forecast for 2009, necessarily reflect this. The hotel's resilience in the face of this downturn has been enhanced by the recent extension, which in other circumstances would have been expected to lead to materially higher profitability and by measures taken to control costs. While the current market uncertainty makes it more difficult than the norm to forecast future performance, the directors are at this stage confident that the hotel's 2009 results will not be inferior to those recorded in 2008.

Looking at the longer term, the directors remain confident that the hotel's leading position within the local market, and its international branding, will both serve to maintain and improve profitability.

Where commercial property is concerned, the SDC Group draws comfort from the high occupancy levels currently prevalent within Portomaso and from the quality of the counterparties with which SDC and Portomaso Leasing Company Limited are dealing. As in any large property development, Portomaso experienced a fairly significant turnover of tenants in its initial years, particularly on retail and catering units. This process of change has over the years resulted in the cessation of weaker tenants, and in their replacement by new operators who have better adapted to the particular features of the project. Anchor units such as Arkadia Supermarket, Café Portomaso, the Casino at Portomaso and Club 'Twenty-Two', amongst many others, are now very well established and constitute a stable core.

Full occupancy has also been attained within the Portomaso Business Tower, which remains a prestigious and unique business address. The tower houses a wide variety of tenants, but the major part of its occupants are linked, in different manners, to Malta's financial services industry. While this industry is also likely to be adversely effected by the current economic downturn, it remains a focal point of Malta's future development, and this augurs well for the continued success of the tower. The directors are encouraged as well by the steady stream of requests received for office accommodation within the tower.

While the sale of residential apartments has to date accounted for the major part of the project's income, the significance of this segment is today much reduced. As explained earlier in Section 2.4 of this Summary, apartments and car parking spaces for sale as at 31st December 2008 are estimated to have a realisable value of €44,000,000. SDC's future sales expectations recognise that 51 apartments having a value of €18,500,000 are already subject to promise of sale agreements and that the currently adverse economic scenario may result in the other remaining sales to completion materialising at a slower pace than has hitherto been the case.

10. EMPLOYEES

As at April 2009, Spinola Development Company Limited employed a total staff complement of 491 employees.

Apart from managing the Portomaso complex as a whole, the SDC's workforce is predominantly engaged in the operation of the Hilton Malta and the development and sale of the complex property as well as the management of its rental operations. Regular training for SDC employees is conducted by Hilton International and the Tumas Group HR Department.

Trading transactions between these companies include items which are normally encountered in a group context and include rental charges, management fees, recharging of expenses and financing charges. These transactions are subject to regular scrutiny of the Audit Committee to ensure that they are made on an arm's length basis.

The Guarantor, through its fully-owned subsidiary Halland Developments Company Limited, acquired the Halland property (as explained in Section 8.5 of the Registration Document) from St. Andrews Hotels Limited (a fully-owned subsidiary of Tumas Group Company Limited) pursuant to a deed dated 4th June 2009 in the records of Notary Dr. Malcolm Mangion for a consideration of €9,000,000. These statements by their nature involve substantial risks and uncertainties, a few of which are beyond the Issuer's and Guarantor's control.

The value of investments can go up or down and past performance is not necessarily indicative of future performance. The nominal value of the Bonds will be repayable in full upon maturity. An investment in the Bonds involves certain risks, including those described below. Prospective investors should carefully consider, with the help of their own independent financial and other professional advisers (including tax, accounting, credit, legal and regulatory advisers) the following risk factors and other investment considerations as well as all the other information contained in this Prospectus before deciding to make an investment in the Bonds. The sequence in which the risks below are listed is not intended to be indicative of any order of priority or the extent of their consequences.

2.1 General

Potential investors in the Bonds must determine the suitability of that investment in the light of their own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Bonds, including Bonds with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iii) understand thoroughly the terms of the Bonds and be familiar with the behaviour of any relevant indices and financial markets; and,
- (iv) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect his/her investment and his/her ability to bear the applicable risks.

2.2 Considerations relating to the Issuer

The Issuer itself does not have any substantial assets and is essentially a special purpose vehicle set up to act as a financing company solely for the needs of the SDC Group. The Bonds are being guaranteed by SDC and the information in this Prospectus is designed to provide prospective investors with sufficient information about SDC and its subsidiary companies to enable investors to make an informed judgement as to the reliance on the guarantee. The said guarantee is unrestricted and unlimited in scope and a copy thereof features as Annex A to this Prospectus.

2.3 Reliance on the SDC Group

The Issuer is mainly dependant on the business prospects of the SDC Group and, therefore, the operating results of the SDC Group have a direct effect on the Issuer's financial position. Accordingly, the risks of the Issuer are indirectly those of the SDC Group.

2.4 Considerations relating to the business of the SDC Group

The Portomaso project is a large real estate development, targeted in part at the commercial and residential market, and in part at the hospitality and tourism sector.

All development projects are subject to a number of specific risks – the risk of cost overruns; the risk of insufficiency of resources to complete and continue to administer and manage; the risk of sales transactions not materialising at the prices and the tempo envisaged; and the risk of sales delays resulting in liquidity strain, higher interest costs and the erosion of profitability. If these risks were to materialise, they would have an adverse impact on the project's profitability and cash flows. The extent to which the Portomaso project is exposed to such factors is described in Section 8 of this Registration Document. The advanced stage of the project and its operational success to date both serve to reduce the remaining degree of uncertainty attaching to the future of this development.

A material part of the income currently derived by the project is subject to risks normally associated with the incoming travel industry, in terms of the operation of the Hilton Malta and convention centre. The hotel also depends materially on the business traveller for its earnings and would be adversely affected by economic downturns that curtail the volume of business visitors to Malta.

Portomaso is affected across the span of its components by business liquidity and economic conditions both locally and overseas. The quality and number of overseas visitors to the development has an impact on the attainment of apartment sales to overseas buyers who so far have accounted for around 60% of achieved sales.

The project may be impacted by other existing or planned property developments, and by the state of the property market generally. SDC expects to continue to face competition from a number of property developments which are currently underway or projected in the vicinity of Tigne` Point, St. Julian's and other areas. The quality of development and finishing standards, location and vehicular accessibility and the amenities and facilities on offer also impact on competition in the residential real estate market.

Apartments and car parking spaces for sale as at 31st December 2008 are estimated to have a realisable value of €44,000,000 and their disposal proceeds in the immediate years ahead are projected as one of the sources of liquidity that will enable SDC to effect a reduction in its borrowing levels. SDC's future sales expectations recognise that 51 apartments having a value of €18,500,000 are already subject to promise of sale agreements and that the currently adverse economic scenario may result in other sales materialising at a slower pace than has hitherto been the case. All projections are nevertheless inherently subject to the risk of adverse unexpected events which may result, for instance, in delays in the receipt of expected future cash inflows.

The business of managing, operating and letting of retail and commercial areas within the Portomaso complex may be subject to fluctuations in demand for such space and to counter-party risks over which the Guarantor may have no control. These may be the result of market and economic conditions generally, as well as those affecting the Guarantor's operations directly, such as fluctuations in consumer spending and shifts in consumer trends and preferences.

Material delays in income generation when compared to the company's expectations would necessitate the rescheduling of SDC's loan obligations, which would require the consent of the financing banks. Delays would also serve to prolong the SDC Group's exposure to interest rate risk.

The SDC Group is subject to taxation, planning, environmental, health and safety laws and regulations, including regulations relating to planning permissions. As with any business, the group is at risk in relation to changes in the laws and regulations and the timing and effects of changes in the laws and regulations to which it is subject, including changes in the interpretation thereof which cannot be predicted; and in relation to other factors over which the group has no control such as catastrophic events, terrorist attacks and other acts of war or hostility all of which could have an adverse affect on the business, financial condition and profitability of the group.

The SDC Group is also subject to various counter-party risks, including the risk of counter-parties such as contractors and sub-contractors engaged for the construction and finishing of the development, and prospective purchasers defaulting on their obligations with the group. Such parties may fail to perform or default in their obligations to the Guarantor due to insolvency, lack of liquidity, market or economic downturns, operational failure or other reasons which are beyond SDC's control.

The Bonds are guaranteed by Spinola Development Company Limited (the “Guarantor”) and its bank loan is secured by specific property owned by the Guarantor. Related finance costs are also guaranteed by the Guarantor. The capital management of the Company therefore consists of a process of regularly monitoring the financial position of the Guarantor.

The Guarantor forecasts a borrowing ratio of 55% as at 31st December 2009 (2008: 54%) as noted under Section 6.4 below. This ratio expresses the Guarantor’s borrowings as a percentage of the aggregate net assets funded also by shareholders’ equity. The Guarantor’s borrowings are stated net of any funds placed in a sinking fund for the redemption of its own liabilities.

6.3 Selected financial information of the Guarantor

The historical information of the Guarantor is available for inspection as set out under the heading “Documents on display” in Section 18 of this Registration Document.

The most recent financial statements available for inspection are the audited consolidated financial statements of the Guarantor for the financial years ended 31st December 2008 and 31st December 2007 and comparative financial information for the financial year ended 31st December 2006 which have been prepared by SDC and approved on the 29th May 2009. There were no significant changes to the financial or trading position of the Guarantor since the 31st December 2008.

6.4 Capitalisation and indebtedness of the Guarantor

The capital of the Guarantor is managed with a view of maintaining a controlled relationship between capital and gearing in order to maintain an optimal capital structure which reduces the cost of capital. To maintain or adjust its capital structure, the Tumas Group may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

Total capital employed is measured by reference to the amounts reflected in the financial statements where the hotel and ancillary assets are stated at re-valued amounts that are regularly assessed and updated. Equity includes a portion of revaluation surplus on property not yet released dating back to 1994 when property inventory was reclassified from non-current assets. No account is taken of any further fair value accretion appertaining to trading property inventory since that date. No account is taken of the fair value surplus (net of deferred tax) that may appertain to the carrying amount of investment property.

Structural borrowings include all interest bearing borrowings, less cash and cash equivalents, which includes the bond redemption fund for the Floating Rate Note (the "FRN") bond (in the books of the Guarantor). Borrowings include loans from Tumas Investments p.l.c. whose unsecured bonds and bank borrowings are secured and guaranteed by the Guarantor.

The following table sets out the capitalisation and indebtedness of the Guarantor as at 31st December 2008 and the forecast position as at 31st December 2009 after reflecting the issue of the Bonds and the allocation of the proceeds to the Guarantor.

7. INFORMATION ON THE ISSUER AND THE GUARANTOR

7.1 History and development of the Issuer and the Guarantor

7.1.1 The Issuer

The Issuer, as well as the Guarantor, are fully-owned subsidiary companies of Tumas Group Company Limited. The Tumas Group has expanded significantly since its founding in the mid 1960's by the late Chev. Thomas Fenech and is today one of the largest private business groups in the Maltese Islands, comprising various enterprises active primarily in the hospitality, leisure, tourism, property, automotive and port operations sectors. The Group employs a total full-time equivalent staff complement of circa 1,400 employees.

Tumas Investments p.l.c. was incorporated on the 17th November 2000 as a public limited company, registered in terms of the Companies Act (Chapter 386 of the Laws of Malta) with company registration number C27296 and is domiciled in Malta, having its registered office at Level 3, Portomaso Business Tower, Portomaso, St. Julian's. The Issuer, which was set up and established to act as a finance company, has an authorised and issued share capital of €232,937.30, divided into 100,000 ordinary shares of €2.329373 each, fully paid up.

In November 2000 the Company issued the equivalent of €9,783,368.27 6.7% secured notes which were privately placed with institutional investors and subsequently admitted to the Official List of the Malta Stock Exchange. The proceeds of the secured notes issue were advanced to SDC pursuant to and under the terms of a loan agreement dated the 22nd November 2000. These notes were redeemed, as scheduled, in 2006.

Subsequently, in July 2002 the Company issued to the public in Malta the equivalent of €16,306,329 6.7% bonds due 2010 - 2012 having a nominal value of the equivalent of €232.94 each and issued at par. The bonds are guaranteed by SDC and will, unless previously purchased and cancelled, be redeemed by the Company on the 9th July 2012, but the Company may elect, at its discretion, to redeem the bonds in the said bond issue in whole or in part, prior to their final redemption date on the 9th July 2010 or on the 9th July 2011. Interest on the bonds falls due and payable semi-annually in arrears on the 9th January and the 9th July of each year, with the first interest payment having become due and having been duly paid on the 9th January 2003 and every 6 months thereafter. The proceeds from the bonds were advanced by the Company to SDC for general funding purposes of the Portomaso development project.

The bonds issued by the Company in July 2002 constitute general, direct, unconditional, unsecured and unsubordinated obligations of the Company and the Guarantor and rank *pari passu*, without any priority or preference, with all other present and future unsecured and unsubordinated obligations of the Company and the Guarantor.

Under the terms of the 2002 bond issue, the Company and the Guarantor with respect to their respective assets, undertook for as long as any principal or interest under the bonds or any of the bonds is to remain outstanding, not to create or permit to subsist any Security Interest (as defined in Section 5.4.3 of the Securities Note forming part of this Prospectus), other than a Permitted Security Interest (as defined in Section 5.4.3 of the Securities Note), upon the whole or any part of their assets, including future assets, or revenues to secure any Relevant

Indebtedness (as defined in Section 5.4.3 of the Securities Note) of the Company or the Guarantor unless at the same time or prior thereto the Company's indebtedness under the bonds is secured equally and rateably therewith, and the instrument creating such Security Interest so provides.

The issue of the Bonds falls within the objects of the Issuer, which continues and will continue to play a pivotal role in the further development of the SDC Group. The Issuer is intended to serve as a vehicle through which the Group will continue to finance the management and administration of Portomaso and other projects that may be undertaken under the aegis of Spinola Development Company Limited and its subsidiary companies and/or refinance existing credit facilities, enabling the SDC Group to exploit its potential and seize new opportunities arising in the market.

7.1.2 The Guarantor

SDC, which was incorporated on the 10th May 1966 and was acquired by the Tumas Group in 1986, is a limited liability company incorporated and registered in Malta with company registration number C331, having its registered office at Level 3, Portomaso Business Tower, Portomaso, St. Julian's. SDC was set up with an authorised and issued share capital of the equivalent of €1,164,686.70, divided into ordinary shares of the equivalent of €2.329373 each, fully paid up.

Today, following a number of share capital increases over the years, SDC has an authorised share capital of €13,652,805, divided into shares of a nominal value of €1 each. The issued share capital of SDC is of €13,652,805 divided into 1,164,687 ordinary 'A' shares of €1 each, 6,988,119 ordinary 'B' shares of €1 each and 5,499,999 redeemable preference shares of €1 each which have been fully paid and subscribed.

SDC is the issuer of an FRN secured bond issued in 2004 and maturing between 2009 - 2011 for an amount of €12,811,553.69, the purpose of which was to part finance the development at Portomaso. As at 31st December 2008, the balance outstanding on this bond amounted to €5,823,432.54. Additionally SDC was the guarantor on a private placement amounting to €9,783,368.27 issued at 6.7% in 2000 to part finance the development of the Portomaso Business Tower. This was subsequently listed on the Malta Stock Exchange in 2002 and redeemed in 2006.

The business of SDC has to date principally comprised the continuous development, management and operation of the Portomaso project. SDC is the owner of the site on which the Portomaso project is built, which site was acquired from the Government of Malta on a temporary emphyteusis for 150 years which commenced on the 19th May 1964 and was occupied by the Malta Hilton International hotel up to February 1996 when the hotel was demolished to make way for the extensive redevelopment of the area. On the 28th December 2005, SDC subsequently acquired from the Government of Malta the temporary directum dominium up to the year 2114 and the freehold thereafter of the site on which the Portomaso project is built.

SDC owns 100% of the share capital of Portomaso Leasing Company Limited and of Halland Developments Company Limited.

Portomaso Leasing Company Limited was incorporated on the 30th January 2004 and is a limited liability company registered in Malta with company registration number C33110, having its registered office at Level 3, Portomaso Business Tower, Portomaso, St. Julian's. The operations of Portomaso Leasing Company Limited form an integral part of the management and administration of the Portomaso project. The company focuses on leasing of the long-term commercial and office components of the project.

The Guarantor has, by means of an unlimited and unrestricted guarantee of the 4th June 2009, undertaken to guarantee all the obligations of the Bond Issue in the event of the Issuer defaulting on any of its obligations in terms of this Prospectus. The said guarantee constitutes an unconditional commitment on the part of the Guarantor to ensure that the obligations of the Issuer to repay the Bond and/or any interest thereon if and when called upon so to do. There is no conditionality whatsoever on the application of the guarantee in the event of any default on the part of the Issuer and the Guarantor has no power of veto in relation to changes to the Bondholders' rights.

7.2 Investments since last published financial statements

Halland Developments Company Limited was incorporated on the 14th May 2009 and is a limited liability company registered in Malta with company registration number C46810, having its registered office at Level 3, Portomaso Business Tower, Portomaso, St. Julian's. The company was set up with an authorised share capital of €1,500, of which €1,165 has been issued, fully paid up.

On the 4th June 2009, Halland Developments Company Limited acquired the freehold title of the Halland site and adjoining land from St. Andrews Hotels Limited, another fully-owned subsidiary of the Tumas Group. The consideration for the transfer was €9,000,000, and was determined on the basis of a professional valuation drawn up by DeMicoli and Associates (set out in Annex C). The purchase price of the property, which is intended for redevelopment into a residential project, is to be settled by the SDC Group on behalf of Halland Developments Company Limited over a 3 year period, to be met from SDC's operating cash flows.

8. BUSINESS OVERVIEW AND TREND INFORMATION

8.1 The Issuer

As already explained, the Company, Tumas Investments p.l.c., is a fully-owned subsidiary of the Tumas Group and has been set up to act as a financing company.

Accordingly, its business is limited to the raising of capital for the financing of capital projects and the loaning of such capital to SDC, the collection of interest from SDC and the settlement, in turn, of interest payable on capital raised from third parties, typically via the issue of listed bonds.

8.2 Reasons for the Issue and use of proceeds

The net proceeds of the Bond Issue amounting to approximately €19,500,000, or approximately €24,500,000 in the event of the exercise of the Over-allotment Option, will be advanced, pursuant to a loan agreement, by the Company to SDC and will be applied by this latter company for:

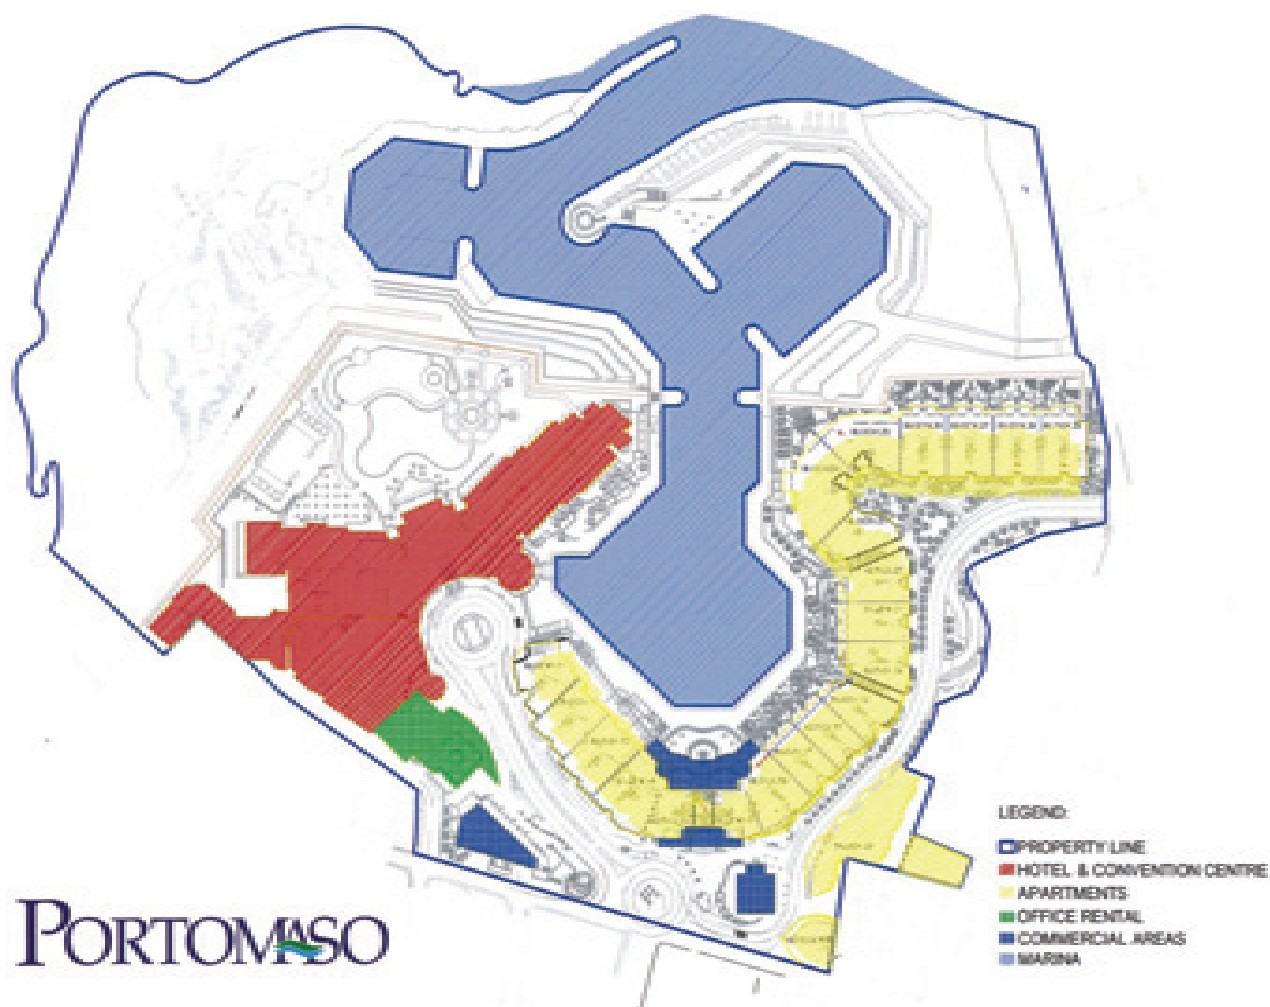

- the re-financing of existing borrowings in the region of €15,000,000 to €20,000,000 depending on whether the Over-allotment Option is exercised, and
- its general financing needs.

8.3 The Portomaso project

The Portomaso project was launched by SDC in 1996 and constituted the largest private sector real estate development hitherto undertaken in the Maltese Islands.

The project is a unique waterfront development enjoying a very central position on Malta's north eastern shore. It is situated in the heart of St. Julian's, Malta's popular commercial and leisure district, less than five minutes walk away from the picturesque Spinola Bay and just off the island's main roads system.

Portomaso comprises a variety of complementary elements imaginatively blended together to create a balanced overall development. The project is constructed around a sheltered excavated marina that extends the natural waterfront of the site and serves to enhance the environment of all the constituent components. These comprise the Hilton Malta hotel (including the convention centre), residential apartments, the business tower, commercial areas, catering outlets, extensive underground car parking facilities and the marina itself. The highly commended award for Marina Developments Worldwide was awarded by International Homes Magazine for three consecutive years branding Portomaso "The best waterfront address on the island". Another award was received from the British Association of Landscaping Industries (BALI) for best landscaping.

Construction of the project as originally conceived was largely completed in 2004, with subsequent works consisting mainly of finishes to apartments in line with buyer specifications and of a 110 room extension to the Hilton Malta hotel that was completed in spring 2008.

In late 2007, SDC commenced construction work on a new residential wing which will come to form an integral part of the Portomaso project and which is expected to be largely completed and delivered to buyers in the course of 2010 and 2011.

SDC is also contemplating the development of a strip of land on the east shore of the site, and has applied for the relevant development permits. This further development is still in its initial planning stage, and its potential contribution towards the success of the project has at this stage been excluded from SDC's business and financial plans.

Project costs (€' 000)

Note: The 2009 estimated numbers disclosed in the above table, and in other paragraphs and tables in this Prospectus, are derived from the 2009 forecast results and financial position which are included in this document in Annex B, Part 2.

The overall land, construction and financing expenditure on the project is expected to total circa €224,000,000. This amount includes the construction costs yet to be incurred to complete the project, estimated by the directors of SDC at €17,800,000, and which will be met from the operating cash flows of the company and from bank loan facilities already in place. Given the very advanced stage of completion of the project, the experience gained throughout its development and the routine nature of most of the remaining works, the directors of SDC consider that the risks of any material cost overruns and delays up to project completion stage will be contained within the contingency allowances built into the company's estimates.

There has been no material adverse change in the prospects of the Issuer since the date of its last published audited financial statements.

Hilton Malta

The Hilton Malta is one of the foremost operating units within the overall project.

The 404 room five-star hotel welcomed its first guests in February 2000 and has established itself as a leader in its market category. The hotel complex includes modern conference facilities, a state-of-the-art health centre, theme restaurants, banquet halls, a large indoor pool area, a number of outside pools and a beach club.

The hotel was designed and developed in co-operation with Hilton International, which had for many years operated the previous hotel, since demolished, to make space for the project. Hilton International have entered into an operating agreement with SDC to market and manage the hotel, and the adjacent conference centre, as an integral part of its world-wide chain. The operating agreement is based on standard industry norms and provides for a remuneration package that is based on performance. The agreement has an initial term of 15 years, ending in 2015, and is subject to further renewals of successive periods of 5 years each, up to a maximum overall term of 40 years.

The hotel has returned a strong performance in its operations to date, making it one of the most successful five-star hotels in Malta. Its profitability has grown consistently since inception, with the exception of late 2005, 2006 and 2007, which were inevitably impacted by the building of the hotel extension, but which delivered satisfactory results nevertheless. The extension was completed last year and 2009 will accordingly constitute the first full year of the enlarged hotel.

The leading position occupied by the Hilton Malta in the local five-star hotel sector is amply illustrated by the following statistics relating to 2008:

Hilton Malta benchmarked against other five-star hotels in Malta

GOP	Gross operating profit
GOP%	GOP as a percentage of turnover
Overheads/Turnover	Overheads as a proportion of turnover
Payroll/Turnover	Payroll as a proportion of turnover
revPOR	Revenue per occupied room
revPAR	Revenue per available room
AARR	Average achieved room rate

Note: The above information obtained from the Deloitte MHRA survey 2008 and the Hilton Malta has been accurately reproduced and, as far as the Issuer is aware and is able to ascertain from the information published, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Residential apartments

The Portomaso project includes a total of 444 apartments, including the wing which is still in the course of construction. Up to the 31st December 2008, 353 apartments had been sold, for a total consideration of €150,000,000.

The remaining 91 apartments that had yet to be sold at 31st December 2008 included 51 apartments that are currently subject to promise of sale agreements. The majority of these apartments are located within the new wing, and comprise relatively smaller units in the context of the project as a whole. Payments on account received by SDC on these agreements up to the 31st December 2008 total €5,500,000.

The total unsold stock of 91 apartments has an expected sales value estimated at €44,000,000, comprising the following:

Number of apartments	Status	Estimated or agreed value €'000
51	Subject of a promise of sale agreement	18,468
40	Held for sale	25,581
<u>91</u>		<u>44,049</u>

For the purpose of the above analysis, apartments that are already subject to promise of sale agreements have been valued at the amounts contracted therefor. The other remaining apartments have been stated at the directors' expectations of their selling prices, based upon prices attained in recent comparable sales within the project.

Commercial and office developments

The commercial and office developments within the Portomaso project comprise the following:

	Lettable area (sm)
Offices situated within the Portomaso Business Tower	3,627
Commercial spaces including the Arkadia Supermarket, Café Portomaso, the Casino at Portomaso, Luxe Pavilion, Club 'Twenty-Two' and various other retail and catering outlets	9,639
Public car park	1,200 spaces
Portomaso marina	120 berths

Occupancy within the Portomaso Business Tower and within the various commercial elements comprising the project has, as expected, increased substantially as the project matured and major development works ceased. Portomaso is, today, a hive of activity to the common benefit of all its tenants. Ancillary revenue, particularly from car parking, has also increased in step with this enhanced use.

Financial position and gearing of the project

The principal assets of SDC and its subsidiary companies as at 31st December 2008 comprised:

- The Hilton Malta hotel and conference centre and the various office and commercial elements described above, which in 2009 are expected to yield an EBITDA (earnings before interest, tax, depreciation and amortisation) of €8,000,000;

- Unsold apartments having an estimated value of €44,000,000, from which one has to deduct estimated costs to completion of €17,800,000, deposits already received of €5,500,000 and estimated costs of disposal of circa 5% (€2,200,000);
- The directum dominium up to 2114 and the subsequent freehold thereafter of the entire Portomaso site.

The total borrowings of SDC and its subsidiary companies as at 31st December 2008 amounted to €59,331,000, comprising the following:

	Balance 2008	Scheduled repayment			
		by 2009	by 2010	between 2011 & 2013	beyond 2013
	€'000	€'000	€'000	€'000	€'000
Bank borrowings	24,881	2,593	7,852	10,073	4,362
FRN secured bonds	5,818	583	1,165	4,071	-
Loans from Tumas Investments p.l.c.	26,089	-	-	18,053	8,036
Loans from other fellow subsidiaries	2,543	-	-	2,543	-
	59,331	3,176	9,017	34,740	12,398

The financial objective of the SDC Group is that of maintaining a healthy balance between ongoing debt and equity, such that gearing is retained at a level of circa 25% to 30% of the market value of long-term commercial assets, including the hotel. The objective is that of optimising the cost of capital and maximising shareholder returns. SDC Group is, accordingly, aiming to reduce long-term borrowings to circa €30,000,000 to €35,000,000 in the years ahead.

The attainment of the company's financial objective will, accordingly, necessitate the regular refinancing of a portion of its existing long-term debt with bullet loans or bonds that facilitate balance sheet stability. This Bond Issue is being made primarily to help attain this objective.

8.4 Portomaso project - trading prospects

The continued success of the Portomaso project moving ahead depends in large part on the prevailing economic conditions impacting its ongoing operations. In other respects, the project is now in its final stages of construction and, accordingly, a variety of business risks relating to real estate development no longer apply to Portomaso to any material extent.

The Hilton Malta is currently the single largest long-term component of the project. As with any hotel establishment, the Hilton Malta is exposed to risks associated with the incoming travel industry. The hotel also enjoys significant business traveller patronage.

The immediate outlook facing the hotel industry is not a positive one, given the economic downturn being experienced on a global scale, including the main overseas markets that impact Malta. SDC's expectations for the hotel moving ahead, including the profit forecast for 2009, necessarily reflect this. The hotel's resilience in the face of this downturn has been enhanced by the recent extension, which in other circumstances would have been expected to lead to materially higher

profitability and by measures taken to control costs. While the current market uncertainty makes it more difficult than the norm to forecast future performance, the directors are at this stage confident that the hotel's 2009 results will not be inferior to those recorded in 2008.

SDC GROUP EBITDA (€'000)

Excluding outright sale of apartments and offices

Looking at the longer term, the directors remain confident that the hotel's leading position within the local market, and its international branding, will both serve to maintain and improve profitability.

Where commercial property is concerned, the SDC Group draws comfort from the high occupancy levels currently prevalent within Portomaso and from the quality of the counterparties with whom SDC and Portomaso Leasing Company Limited are dealing. As in any large property development, Portomaso experienced a fairly significant turnover of tenants in its initial years, particularly on retail and catering units. This process of change has over the years resulted in the cessation of weaker tenants, and in their replacement by new operators who have better adapted to the particular features of the project. Anchor units such as Arkadia Supermarket, Café Portomaso, the Casino at Portomaso and Club 'Twenty-Two', amongst many others, are now very well established and constitute a stable core.

Full occupancy has been attained within the Portomaso Business Tower, which remains a prestigious and unique business address. The tower houses a wide variety of tenants, but the major part of its occupants are linked, in different manners, to Malta's financial services industry. While this industry is also likely to be adversely effected by the current economic

downturn, it remains a focal point of Malta's future development, and this augurs well for the continued success of the tower. The directors are encouraged as well by the steady stream of requests received for office accommodation within the tower.

While the sale of residential apartments has to date accounted for the major part of the project's income, the significance of this segment is today much reduced. As explained earlier in this section, apartments and car parking spaces for sale as at 31st December 2008 are estimated to have a realisable value of €44,000,000. SDC's future sales expectations recognise that 51 apartments having a value of €18,500,000 are already subject to promise of sale agreements and that the currently adverse economic scenario may result in the other remaining sales to completion materialising at a slower pace than has hitherto been the case.

8.5 Other projects

It is the intention of the Tumas Group to use SDC and its subsidiary companies for other real estate developments, going beyond Portomaso.

The first such project is likely to entail the redevelopment of the Halland site, situated at Ibragg, Swieqi.

The Halland was initially constructed as an aparthotel but has since been overtaken by further development that has converted its environs into what is predominantly a residential area. The building is covered by the North Harbours Local Plan approved by the Malta Environment and Planning Authority ("MEPA") in July 2006. This policy encourages the redevelopment of this property for residential use, and permits such redevelopment to the height delineated by the existing structure (as detailed in Maps SW2 and SW4 of the local plan).

Further details of the property and of its redevelopment potential are contained in the valuation report by DeMicoli & Associates set out at Annex C. The existing developed site occupied by the Halland Hotel, built to retain its existing height, would accommodate a development of circa 9,000 square meters of saleable residential volume.

The directors are confident on the outlook for this project, given the location and unobstructed views offered by the Halland site. Design work on the project is at an advanced stage, and applications for the appropriate permits are planned to be lodged with the MEPA in the coming months. The hotel will accordingly cease operations in the course of the current year, such that the redevelopment of the site could commence in 2010 or 2011, depending on market conditions.

The SDC Group will be looking at other initiatives that could be exploited by better leveraging its long-term property holdings. For instance, the Tumas Group owns a second hotel property that is operated by Hilton International, located in Evian, France. Once the operations of this property mature further, it may consider expanding its overseas hotel holdings, alone or in partnership with others, and for this purpose may at that stage concentrate the ownership of such properties within SDC.

The initiatives detailed above represent, respectively, a long-term project at a very early stage of gestation and a potential opportunity that, while receiving due consideration, is still a tentative one at this stage. Accordingly, the financial plans of the SDC Group are not dependent on either of these potential initiatives coming to fruition. They serve to illustrate, nevertheless, the general financing needs and the potential sources of additional revenue that the SDC Group may have, in future years, going beyond the Portomaso project.

9. ORGANISATIONAL STRUCTURE

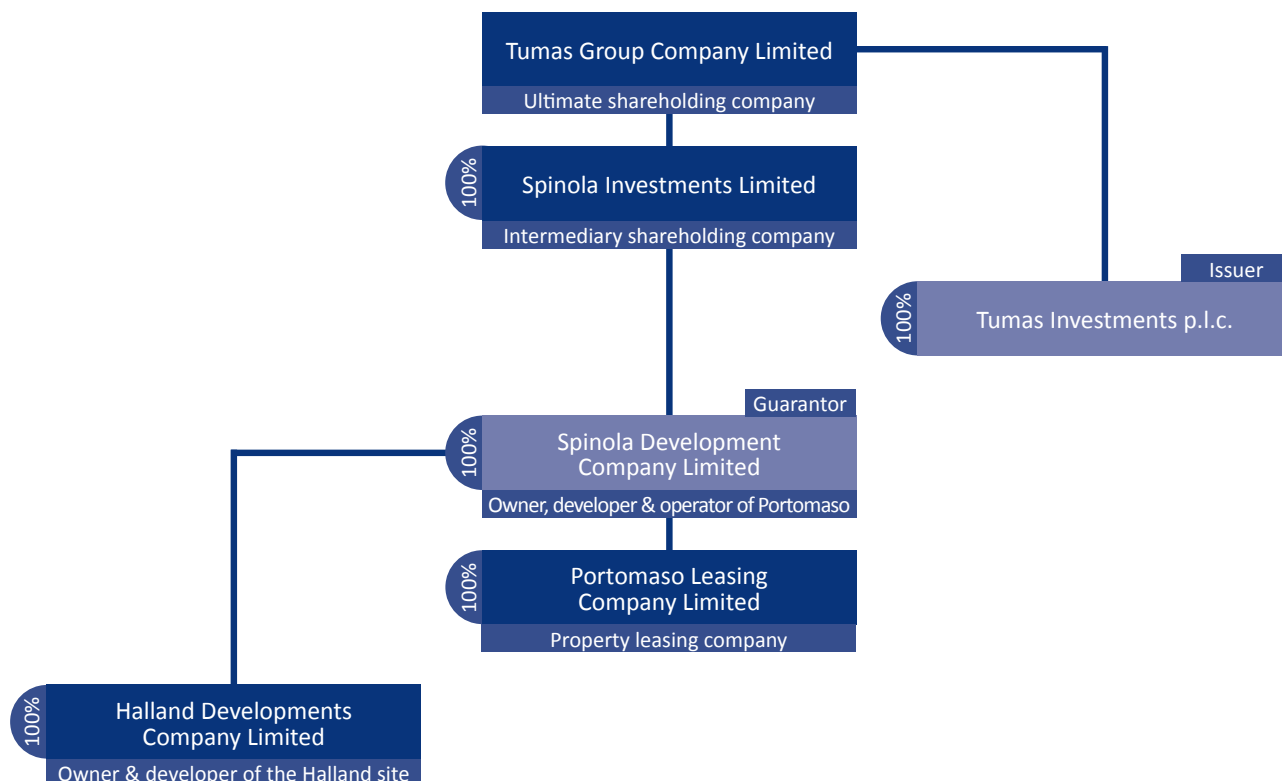

The Tumas Group has expanded significantly since its founding in the mid 1960's by the late Chev. Thomas Fenech. It is today one of the largest private business groups in the Maltese Islands and comprises various enterprises active primarily in the hospitality, leisure, tourism, property development and leasing, port operations and automotive sectors.

The Group attained revenue of €89,316,000 in 2007. Its latest audited consolidated financial statements, which are for the year ended 31st December 2007, disclose net assets of €75,000,000 and a pre-tax profit of €3,500,000. The Group employs a total full-time equivalent staff complement of 1,400 employees.

Tumas Investments p.l.c. does not have any substantial assets and is essentially a special purpose vehicle set up to act as a financing company. Its role is limited to the financing of SDC's operations and it is, accordingly, fully dependent on the cash flows of SDC, the Guarantor of this Bond. The Issuer has no dependence on other parts of the Tumas Group.

The business of the SDC Group is structured so as to limit its financial dependence on the other components of the Tumas Group. At the date of approval of this Prospectus, such financial dependencies were in the main limited to the rental of offices occupied by the Tumas Group and the casino premises situated within the complex.

The organisational structure of the Tumas Group, relevant to the Issuer and the Guarantor (which are fully-owned subsidiary companies of Tumas Group Company Limited), is illustrated in the diagram below as at the date of this Prospectus:

- **Tumas Investments p.l.c.**, the Issuer of the Bond, is a special purpose vehicle set up to solely finance the operations of the SDC Group.
- The **SDC Group** comprises:
 - **Spinola Development Company Limited**, the Guarantor of the Bond Issue, whose primary purpose is that of developing the Portomaso Complex and operating the different operational segments within the development;
 - **Portomaso Leasing Company Limited**, a fully-owned subsidiary of the Guarantor which was set up in 2004 to act as a property leasing vehicle for commercial properties within the Portomaso complex;
 - **Halland Developments Company Limited**, a fully-owned subsidiary of the Guarantor incorporated in 2009 set up to acquire and develop the Halland site in Ibragg, Malta.

The board strongly believes that the Principles are in the best interest of the shareholders because they commit the directors, management and the employees of the Issuer to internationally recognised high standards of corporate governance. Neither this Securities Note nor any other part of the Prospectus or any other information supplied in connection with the Bonds:

- (a) is intended to provide the basis of any credit or other evaluation; or,
- (b) should be considered as a recommendation by the Issuer or the Sponsor that any recipient of this Prospectus or any other information supplied in connection with this Prospectus should purchase any Bond.

Prospective investors should be aware of the potential risks in investing in such companies and should make the decision to invest only after careful consideration of all the information contained in the Prospectus as a whole and consultation with their own independent financial advisers.

The Listing Authority accepts no responsibility for and makes no representations as to the contents, accuracy or completeness of this Securities Note and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this Securities Note.

1. RISK FACTORS

This document contains forward-looking statements. Such forecasts and projections do not bind the Issuer or the Guarantor with respect to future results and no assurance can be given that future results or expectations covered by such forward-looking statements will be achieved. These statements by their nature involve substantial risks and uncertainties, a few of which are beyond the Issuer's and Guarantor's control.

The value of investments can go up or down and past performance is not necessarily indicative of future performance. The nominal value of the Bonds will be repayable in full upon maturity. An investment in the Bonds involves certain risks, including those described below. Prospective investors should carefully consider, with the help of their own independent financial and other professional advisers (including tax, accounting, credit, legal and regulatory advisers) the following risk factors and other investment considerations as well as all the other information contained in this Prospectus before deciding to make an investment in the Bonds. The sequence in which the risks below are listed is not intended to be indicative of any order of priority or the extent of their consequences.

1.1 General

Potential investors in the Bonds must determine the suitability of that investment in the light of their own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Bonds, including Bonds with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iii) understand thoroughly the terms of the Bonds and be familiar with the behaviour of any relevant indices and financial markets; and,
- (iv) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect his/her investment and his/her ability to bear the applicable risks.

1.2 Considerations relating to the Bonds

An investment in the Bonds involves certain risks including, but not limited to those described below:

- **Trading and liquidity**
There is currently no trading record in respect of the Bonds as there has never been a public market for the Bonds prior to the offering contained in this Prospectus. Application has been made to the Listing Authority for the admissibility of the Bonds to listing and to the Malta Stock Exchange for the Bonds to be listed and traded on its Official List. There can be no assurance, however, that an active secondary market for the Bonds will develop or, if it develops, that it will continue, nor can there be any assurance that an investor will be able to re-sell his

Bonds at or above the Bond Issue Price, or at all. A public trading market having the desired characteristics of depth, liquidity and orderliness depends on a number of factors including the presence in the market place of willing buyers and sellers of the Issuer's Bonds at any given time, which presence is dependent upon the individual decisions of investors over which the Issuer has no control. Many other factors over which the Issuer has no control may affect the trading market for, and trading value of, the Bonds. These factors include the time remaining to the maturity of the Bonds, the outstanding amount of the Bonds and the level, direction and volatility of market interest rates, generally. No prediction can be made about the effect which any future public offerings of the Issuer's securities or any takeover or merger activity involving the Issuer will have on the market price of the Bonds prevailing from time to time.

- **Early redemption**
The Issuer has the option to redeem the Bonds, in whole or in part, at any time during the Designated Optional Redemption Period, together with any accrued and unpaid interest until the time of redemption. This optional redemption feature may condition the market value of the Bonds.
- **Changes in laws and regulations**
The Bonds are based on the requirements of the Listing Rules of the Listing Authority, the Companies Act and the Commission Regulation EC No. 809/2004 of the 29th April 2004 implementing Directive 2003/71/EC of the European Parliament and of the Council in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in law or administrative practice after the date of this Prospectus.
- **Security**
The Bonds shall constitute unsecured and unsubordinated obligations of the Issuer and will rank *pari passu* without any priority or preference with all other present and future unsecured obligations of the Issuer, other than subordinated obligations, if any.
- **Amendments to the Terms and Conditions of the Bond Issue**
The Terms and Conditions relating to the Bonds contain provisions in Section 5.11 of this Securities Note for calling meetings of Bondholders in the event that the Issuer wishes to amend any of the Terms and Conditions of the Bond Issue. These provisions permit defined majorities to bind all Bondholders, including Bondholders who did not attend and vote at the relevant meeting and Bondholders who vote in a manner contrary to the majority.
- **Credit rating**
The Issuer has not sought the credit rating of an independent rating agency and there has been no assessment by any independent rating agency of the Bonds.
- **Interest rate risk**
Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds.

- **Prior ranking charges**

The Issuer may incur further borrowings or indebtedness and may create or permit to subsist other security interests upon the whole or any part of its present or future undertakings, assets or revenues (including uncalled capital).

2. DEFINITIONS

Words and expressions used in this Securities Note shall, except where the context otherwise requires, bear the same meaning as defined in the Registration Document forming part of this Prospectus.

3. PERSONS RESPONSIBLE

Each and all of the directors of the Issuer whose names appear under the heading “Administrative, management and supervisory bodies” in Section 11.1 of the Registration Document forming part of this Prospectus accept responsibility for the information contained herein, save for the information specifically relating to the Guarantor, for which the directors of the Guarantor whose names appear in Section 11.2 of the Registration Document are responsible. To the best of the knowledge and belief of the directors of the Issuer and the Guarantor, who have taken all reasonable care to ensure that such is the case, the information contained in this Securities Note is in accordance with the facts and does not omit anything likely to affect the import of such information. The directors of the Issuer and the Guarantor hereby accept responsibility accordingly.

The net proceeds of the Bond Issue amounting to approximately €19,500,000, or approximately €24,500,000 in the event of the exercise of the Over-allotment Option, will be advanced, pursuant to a loan agreement, by the Company to SDC and will be applied by this latter company for:

5.1.8 The Bond shall be offered and issued to the general public and Preferred Applicants during the Issue Period. Authorised Intermediaries may do so for their own account or for the account of their customers and shall, in addition, be entitled to distribute any portion of the Bonds subscribed for and allotted upon commencement of trading.

5.1.9 The Issuer hereby reserves the right to enter into conditional subscription agreements (the "Subscription Agreement/s") prior to the commencement of the Issue Period up to an amount not exceeding sixty per cent (60%) of the maximum aggregate amount of €25,000,000 (the "Placed Portion") with a number of Authorised Intermediaries for the subscription of the Bonds by Preferred Applicants and investors.

5.1.9.1 The Placed Portion will be subject to the following conditions:

- (a) Applications by investors in a single name for an aggregate investment amount of less than €10,000 shall not be eligible for the Placed Portion and shall not be accepted;
- (b) Preferred Applicants shall be entitled to subscribe in the Placed Portion subject to a minimum amount of €2,000. Applications received from Preferred Applicants shall be met in full for the first €5,000 for each Preferred Applicant.

5.1.9.2 Upon completion and submission of the Subscription Agreements, the Issuer will be conditionally bound to issue, and each Authorised Intermediary will bind itself to subscribe to, a number of Bonds, subject to the Bonds being admitted to the Official List of the Malta Stock Exchange. Each Subscription Agreement will become binding on both the Issuer and the Authorised Intermediary upon delivery, subject to the Issuer having received all subscription proceeds in cleared funds on delivery of the Subscription Agreement.

5.1.10 The Issuer will determine and announce the allocation policy for the Bonds within five (5) business days of the closing of the Issue Period. It is expected that allotment advices will be dispatched to Bondholders by the Central Securities Depository within five (5) business days of the date of the announcement of the allocation policy.

5.1.11 Subject to anticipation of dates detailed under the heading "Expected timetable of principal events" (Section 4.2 of this Securities Note), in the event of over-subscription, the Bonds will be listed on the Official List of the Malta Stock Exchange on the 27th July 2009 and such date shall constitute the date of issue, allotment as well as Listing of the Bonds. Dealing shall commence on the following trading day.

5.1.12 Should any Application not be accepted, or be accepted for fewer Bonds than those applied for, the monies or the balance of the amount paid but not allocated will be returned by the Issuer without interest by direct credit into the Applicant's bank account as indicated by the Applicant in the Application Form within five (5) business days from the date of final allocation. The Issuer will not be responsible for any loss or delays in transmission of the refunds.

5.1.13 There are no special rights attached to the Bonds other than the right of the Bondholders to payment of capital and interest (as detailed below) and in accordance with the ranking specified at Section 5.4.

5.2 Form, denomination and title

The Bonds will be issued in fully registered form, without interest coupons, in denominations of any integral multiple of €100 provided that on subscription the Bonds will be issued for a minimum of €2,000. The nominal value of the Bonds is being established to facilitate the trading therein and the exchange in definitive Bonds in accordance with the provisions of these Terms and Conditions. The Bonds, and transfer thereof, shall be registered as provided under Section 5.3 "Registration, replacement, transfer and exchange" below.

5.3 Registration, replacement, transfer and exchange

5.3.1 The Issuer will not issue certificates representing the Bonds to the Bondholders since the Bonds will be represented in uncertificated form by the appropriate entry in the Issuer's electronic register of Bondholders maintained on behalf of the Issuer at the Central Securities Depository (CSD) of the Malta Stock Exchange, Garrison Chapel, Castille Place, Valletta. There will be entered into such electronic register the names, addresses, ID Card number (in the case of natural persons), Registration Numbers (in the case of companies), MSE A/C numbers of the Bondholders and the number of Bonds held by them respectively and a copy of such register will, at all reasonable times during business hours, be available for inspection by the Bondholders at the registered office of the Issuer. The CSD will issue, upon request by any Bondholder, a statement of holdings to such Bondholder evidencing his/her entitlement to Bonds held in the register kept by the CSD. The entry in such register shall, in the absence of manifest error, be conclusive evidence of the interests of Bondholders.

5.3.2 A Bond may be transferred or transmitted only in whole in multiples of €100 by the Bondholder in accordance with the bye-laws of the Malta Stock Exchange and any applicable laws, rules or regulations governing the transfer of the Bonds, from time to time. If Bonds are transferred or transmitted in part, the transferee thereof will not be registered as a Bondholder.

5.3.3 Any person becoming entitled to a Bond in consequence of the death or bankruptcy of a Bondholder may, upon such evidence being produced as may, from time to time, properly be required by the Issuer or the MSE, elect either to be registered himself as holder of the Bond or to have some person nominated by him registered as the transferee thereof. If the person so becoming entitled shall elect to be registered himself, he shall deliver or send to the Issuer a notice in writing signed by him stating that he so elects. If he shall elect to have another person registered he shall testify his election by transferring the Bond, or procuring the transfer of the Bond, in favour of that person. Provided always that if a Bond is transmitted or transferred in furtherance of this paragraph 5.3.3, a person will not be registered as a Bondholder unless such transmission or transfer is made in multiples of €100.

- 5.3.4** All transfers and transmissions are subject in all cases to any pledge (duly constituted in terms of law) of the Bonds and to any applicable laws and regulations.
- 5.3.5** The cost and expenses of affecting any registration of transfer or transmission in the Bonds shall be at the charge of the Bondholder or at the charge of such person as the rules and bye-laws of the MSE may, from time to time, determine.
- 5.3.6** The Issuer will not register the transfer or transmission of Bonds for a period of fifteen (15) business days preceding the due date for any payment of interest on the Bonds or the due date for redemption.

5.4 Status of the Bonds and negative pledge

- 5.4.1** The Bonds shall constitute the general, direct, unconditional, unsubordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and with other outstanding unsecured obligations of the Issuer, other than subordinated obligations, if any.
- 5.4.2** The Issuer and Guarantor with respect to their respective assets undertake, for as long as any principal or interest under the Bonds or any of the Bonds remains outstanding, not to create or permit to subsist any Security Interest (as defined below), other than a Permitted Security Interest (as defined below), upon the whole or any part of their respective present or future assets or revenues to secure any Relevant Indebtedness (as defined below) of the Issuer and Guarantor unless the Issuer and Guarantor, in the case of the creation of a Security Interest, before or at the same time and, in any other case, promptly, take any and all action necessary to ensure that:
- (i) all amounts payable by them under the Bonds are secured by a Security Interest equally and rateably with the Relevant Indebtedness in question being so secured; or
 - (ii) such other Security Interest is approved by a resolution duly passed by the Bondholders.
- 5.4.3** For the purposes of this Section and of Section 5.10 “Events of default” below:

“Relevant Indebtedness” means any indebtedness in respect of:

- (a) monies borrowed;
- (b) any debenture, bond, note, loan stock or other security creating or acknowledging indebtedness;
- (c) any acceptance credit;
- (d) the acquisition cost of any asset to the extent payable before or after the time of acquisition or possession by the party liable where the advance or deferred payment is arranged primarily as a method of raising finance or financing the acquisition of that asset;
- (e) leases entered into primarily as a method of raising finance or financing the acquisition of the asset leased;
- (f) amounts raised under any other transaction having the commercial effect of borrowing or raising of money;
- (g) any guarantee, indemnity or similar assurance in respect of any such indebtedness.

“Security Interest” means any privilege, hypothec, pledge, lien, charge or other encumbrance which grants rights of preference to a creditor over the assets of the debtor.

“Permitted Security Interest” means:

- (a) any Security Interest arising by operation of law;
- (b) any Security Interest securing payment refund obligations under promise of sale agreements relating to immovable property;
- (c) any Security Interest securing any indebtedness of the Issuer and Guarantor created for the sole purpose of financing or raising finance for the redemption of all the Bonds;
- (d) any Security Interest securing any Relevant Indebtedness, including bank loans or overdrafts, in the ordinary course of business;
- (e) any other Security Interest (in addition to those referred to in (a), (b), (c) and (d) above) securing Relevant Indebtedness of the Issuer and Guarantor in an aggregate outstanding amount, from time to time, not exceeding eighty percent (80%) of the amount resulting after taking the Relevant Value and subtracting therefrom (i) the aggregate value of the liabilities of the Issuer and Guarantor secured by Security Interests referred to in (a), (b) (c) and (d) above and (ii) the aggregate principal amount of all bonds still outstanding at the time.

Provided that the aggregate Security Interests referred to in (d) and (e) above do not result in the amount arrived at after taking the Relevant Value and subtracting therefrom the aggregate value of the liabilities of the Issuer and Guarantor secured by Security Interests referred to in (a), (b), (c), (d) and (e) above being less than one hundred and seven per cent (107%) of the aggregate principal amount of all bonds still outstanding.

“Relevant Value” means the value of the assets of the Issuer and Guarantor calculated on the basis of their book value (as reflected in the accounts of the Issuer and Guarantor) adjusted by reference to the open market value of the immovable property of the Issuer and Guarantor respectively as determined by their respective directors on the basis of independent professional advice/valuation procured by them.

5.5 Interest

5.5.1 The Bonds shall bear interest from and including the 15th July 2009 at the rate of 6.25% per annum on the nominal value thereof, payable semi-annually in arrears on the 31st January and 31st July of each year, (each an “Interest Payment Date”), the first Interest Payment Date being on the 31st January 2010. Provided that any Interest Payment Date which falls on a day other than a business day, will be carried over to the next following day that is a business day. Each Bond will cease to bear interest from and including its due date for redemption unless, payment of the principal in respect of the Bond is improperly withheld or refused or unless default is otherwise made in respect of payment, in any of which events interest shall continue to accrue at the rate specified above plus one per cent (1%).

5.5.2 When interest is required to be calculated for any period of less than a full year such interest shall be calculated on the basis of the actual number of days elapsed from and including the most recent Interest Payment Date, or as appropriate, the Issue Date divided by the actual number of days (365 or 366 as the case may be) in the respective year.

5.6 Payments

- 5.6.1** Payment of the principal amount of a Bond will be made by the Issuer in euro to each Bondholder whose name is entered in the register of the Bonds held at the Central Securities Depository with interest accrued to the date fixed for redemption, by means of a direct credit against surrender of the Bonds by the Bondholders at the registered office of the Issuer or at such other place in Malta as may be notified by the Issuer. The Issuer shall not be responsible for any loss or delay in transmission. Upon payment of the Redemption Value the Bonds shall be redeemed and the appropriate entry made in the electronic register of the Bonds at the Central Securities Depository.
- 5.6.2** Payment of any instalment of interest on a Bond will be made by the Issuer in euro to each Bondholder whose name is entered in the register of the Bonds held at the Central Securities Depository at the close of business fifteen (15) business days prior to the Interest Payment Date by means of a direct credit into such bank account as the Bondholder will designate on the Interest Payment Date (provided that if any such day is not a business day such Interest Payment Date will be carried over to the next following day that is a business day). The Bondholder shall be required to make such designation in the Application Form. The Issuer shall not be responsible for any loss or delay in transmission.
- 5.6.3** All payments with respect to the Bonds are subject in all cases to any pledge (duly constituted) of the Bonds and to any applicable fiscal or other laws and regulations. In particular, but without limitation, all payments of principal and interest by or on behalf of the Issuer in respect of the Bonds shall be made net of any amount which the Issuer may be compelled by law to deduct or withhold for or on account of any present or future taxes, duties, assessments or other government charges of whatsoever nature imposed, levied, collected, withheld or assessed by or within the Republic of Malta or any authority thereof or therein having power to tax.
- 5.6.4** No commissions or expenses shall be charged by the Issuer to the Bondholders in respect of payments made in accordance with this Section 5.6. The Issuer shall not be liable for charges, expenses and commissions levied by parties other than the Issuer.

5.7 Redemption and prepayment

The Issuer hereby irrevocably covenants in favour of each Bondholder that:

- (a) The Bonds will be redeemed at par (together with interest accrued to the date fixed for redemption) on the 31st July 2016 by direct credit to the bank account of Bondholders as indicated in the register of the Bonds held at the CSD. In such a case the Issuer shall be discharged of any and all obligations under the Bonds. The Issuer reserves the right to prepay the Bonds prior to the Maturity Date, within the Designated Optional Redemption Period, in whole or in part, together with all interest accrued up to the date of prepayment, by giving not less than thirty (30) days prior written notice to Bondholders of its intention to effect such prepayment specifying the date when such prepayment shall be effected. The notice of prepayment shall be effective only on actual receipt by the Bondholders and once received by such Bondholder shall be irrevocable, and shall oblige the Issuer to make and the Bondholders to accept such prepayment on the date specified in the notice.

- (b) The Issuer will, until the Bonds have been paid, prepaid or redeemed in accordance with the provisions of sub-clause (a) above, pay directly to the Bondholders by direct credit into the account indicated by them in the Application Form interest on such principal amount for the time being outstanding on the Bonds at the rate of six point two five per cent (6.25%) per annum which shall be payable semi-annually in arrears on the 31st January and 31st July of each year. The first of such payments shall be made on the 31st January 2010.
- (c) The Issuer shall be discharged from any payment obligations under this clause upon payment made net of any withholding or other taxes due or which may be due under Maltese Law and which have been paid to the Bondholders.

5.8 Covenants by the Issuer

The Issuer binds itself to ensure that it will, with effect from the end of the financial year ending on 31st December 2011, over the period up to the Maturity Date, build a reserve (the “Bond Redemption Fund”), the value of which will, by the end of such period, be equivalent to at least fifty per cent (50%) of the aggregate outstanding principal amount of the Bonds at the relevant time with a view to funding in part the repayment of capital on the Bonds on the Redemption Date. The Guarantor, will at the request of the Issuer, periodically advance the necessary funds for the build-up of this reserve.

The Reserve will be made up of:

- (a) cash and/or deposits at a local bank licensed by the MFSA; and/or,

5.9 Representations and warranties

5.9.1 The Issuer represents and warrants to the Bondholders, who shall be entitled to rely on such representations and warranties, that:

- (a) it is duly incorporated and validly existing under the laws of Malta and has the power to carry on its business as it is now being conducted and to hold its property and other assets under legal title; and,

5.9.2 The Prospectus contains all relevant material information with respect to the Issuer and the Guarantor and that all information contained therein is in every material respect true and accurate and not misleading and that there are no other facts in relation to the Issuer, their respective businesses and financial position, the omission of which would in the context of issue of the Bonds make any statement in the Prospectus misleading or inaccurate in any material respect.

5.10 Events of default

The Bonds shall become immediately due and repayable at their principal amount together with accrued interest if any of the following events (“Events of default”) shall occur:

- (a) the Issuer shall fail to pay any interest on any Bond when due and such failure shall continue for thirty (30) days after written notice thereof shall have been given to the Issuer by any Bondholder; or,
- (b) the Issuer shall fail duly to perform or shall otherwise be in breach of any other material obligation contained in the Terms and Conditions of the Bonds and such failure shall continue for thirty (30) days after written notice thereof shall have been given to the Issuer by any Bondholder; or,
- (c) an order is made or resolution passed or other action taken for the dissolution, termination of existence, liquidation, winding-up or bankruptcy of the Issuer; or,
- (d) the Issuer stops or suspends payments (whether of principal or interest) with respect to all or any class of its debts or announces an intention to do so or ceases or threatens to cease to carry on its business or a substantial part of its business; or,
- (e) the Issuer is unable, or admits in writing its inability, to pay its debts as they fall due or otherwise becomes insolvent; or
- (f) there shall have been entered against the Issuer a final judgement by a court of competent jurisdiction from which no appeal may be or is taken for the payment of money in excess of €1,250,000 or its equivalent and ninety (90) days shall have passed since the date of entry of such judgement without its having been satisfied or stayed; or
- (g) any default occurs and continues for ninety (90) days under any contract or document relating to any Financial Indebtedness (as defined above) of the Issuer in excess of €1,250,000 or its equivalent at any time.

5.11 Meetings of the Bondholders

- 5.11.1** The Issuer may, at any time, convene a meeting of Bondholders to consider and approve by Extraordinary Resolution any of the following: (i) any matter affecting their interest, including the amendment, modification, waiver, abrogation or substitution of any of the terms or conditions of the Bonds and the rights of the Bondholders, whether or not those rights arise under this Prospectus; (ii) the exchange or substitution of the Bonds by, or the conversion of the Bonds into shares, debentures or other obligations or securities of the Issuer; and (iii) the earlier redemption or roll-over of the Bonds on their Maturity Date.
- 5.11.2** Notice in writing shall be given to Bondholders by the Issuer at least fourteen (14) clear days before the meeting (excluding the day on which the notice is given and the day for which it is given). The notice shall specify the date, time and location of the meeting.
- 5.11.3** The instrument appointing a proxy shall be deposited at least forty-eight (48) hours before the time fixed for the meeting at such place as the Issuer shall designate or approve and, in default, it shall not be valid unless the Chairman of the meeting decides otherwise before the meeting proceeds to business. A proxy need not be a Bondholder.
- 5.11.4** The Chairman of a meeting of Bondholders shall be the Chairman of the board of directors of the Issuer or such other person as the Issuer may nominate in writing from time to time. The Chairman of an adjourned meeting need not be the same person as the Chairman of the original meeting.
- 5.11.5** The following may attend and speak at a meeting of Bondholders: (i) the Chairman of the meeting; (ii) representatives and directors of the Issuer; and (iii) Bondholders and/or their proxies. No other person shall be entitled to attend or speak at a meeting.
- 5.11.6** Bondholders holding in aggregate at least fifty per cent (50%) in nominal value of the Bonds for the time being outstanding (present in person or by proxy) shall constitute a quorum.
- 5.11.7** No business (except when choosing a Chairman in accordance with paragraph 5.11.4 above) shall be transacted at a meeting of Bondholders unless a quorum is present at the commencement of the meeting. If a quorum is not present within thirty (30) minutes from the time initially fixed for the meeting, it shall stand adjourned to such date, time and place as the Chairman may decide. If a quorum is not present within thirty (30) minutes from the time fixed for a meeting so adjourned the meeting shall be dissolved.
- 5.11.8** Each matter submitted to a meeting shall be decided by a show of hands unless a poll is (before or following the result of the show of hands) demanded by the Chairman. Every Bondholder shall be entitled to one (1) vote for each Bond held whether on a show of hands or on a poll. Voting, whether on a show of hands or on a poll, shall be taken in such manner as the Chairman of the meeting shall direct. The voting process shall be managed by the Company Secretary under the supervision and scrutiny of the Auditors of the Issuer.
- 5.11.9** An Extraordinary Resolution shall be binding on all Bondholders, whether or not present at the meeting, and each of them shall be bound to give effect to it accordingly. The Issuer shall give notice of the passing of an Extraordinary Resolution to Bondholders within fourteen (14) days but failure to do so shall not invalidate the resolution.

5.11.10 The Chairman shall have the power to decide upon any other procedural issues that may arise in connection with meetings of Bondholders.

In this clause 5.11, unless the context otherwise requires:

- (a) “Extraordinary Resolution” means a resolution proposed by the Issuer and passed at a meeting duly convened and held in accordance with the provisions of this paragraph by a majority of at least seventy-five per cent (75%) in nominal value of the Bondholders present at that meeting in person or by proxy;
- (b) Reference to a meeting is to a meeting of Bondholders and includes any adjournment thereof.

5.12 Further issues

The Issuer may, from time to time, without the consent of the Bondholders, create and issue further Bonds, debentures, bonds, or any other debt securities either having the same terms and conditions as the Bonds in all respects and so that such further issue shall be consolidated and form a single series with the Bonds or otherwise upon such terms and conditions as the Issuer may determine. Any further debt securities so issued may rank *pari passu* in all respects with the Bonds but shall not rank ahead of the Bonds. The Issuer shall not issue any other debt instrument for a period of twelve (12) months following the date of this Prospectus.

5.13 Bonds held jointly

In respect of a Bond held jointly by several persons (including husband and wife), the joint holders shall nominate one (1) of their number as their representative and his/her name will be entered in the register with such designation. The person whose name shall be inserted in the field entitled “Applicant” on the Application Form, or the first named in the register of Bondholders shall, for all intents and purposes, be deemed to be such nominated person by all those joint holders whose names appear in the field entitled “Additional Applicants” in the Application Form or joint holders in the register, as the case may be. Such person shall, for all intents and purposes, be deemed to be the registered holder of the Bond/s so held.

5.14 Taxation

5.14.1 General

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation which may be applicable to them in respect of the Bonds, including their acquisition, holding and disposal as well as any income/gains derived therefrom or made on their disposal. The following is a summary of the anticipated tax treatment applicable to holders of the Bonds in so far as taxation in Malta is concerned. This information does not constitute legal or tax advice and does not purport to be exhaustive.

The information below is based on an interpretation of tax law and practice relative to the applicable legislation, as known to the Issuer at the date of the Prospectus, in respect of a subject on which no official guidelines exist.

Investors are reminded that tax law and practice and their interpretation, as well as the levels of tax on the subject-matter referred to in the preceding paragraph, may change from time to time.

This information is being given solely for the general information of investors; the precise implications for investors will depend, among other things, on their particular circumstances and on the classification of the Bonds from a Maltese tax perspective, and professional advice in this respect should be sought accordingly.

5.14.2 Malta tax on interest

Since interest is payable in respect of a bond which is the subject of a public issue, unless the Bondholder does not fall within the definition of “recipient” in terms of Article 41(c)(i) of the Income Tax Act, (Chapter 123 of the Laws of Malta), interest shall be paid to such person net of a final withholding tax, currently at the rate of ten per cent (10%) of the gross amount of the interest where the Bondholder is a collective investment scheme which is a prescribed fund, or at a rate of fifteen per cent (15%) of the said gross amount in other cases.

Bondholders that do not fall within the definition of a “recipient” do not qualify for the said rates and should seek advice on the taxation of such income as special rules may apply.

This withholding tax is considered as a final tax and a Maltese resident Bondholder need not declare the interest so received on his income tax return. No person shall be charged to further tax in respect of such income. However, tax withheld shall in no case be available to any person for a credit against that person’s tax liability or for a refund as the case may be.

In the case of a valid election made by an eligible Bondholder to receive the interest due without the deduction of final tax, interest will be paid gross and such person will be obliged to declare the interest so received in his income tax return and be subject to tax on it at the standard rates applicable to that person at that time. Additionally, in this latter case the Issuer and/or Trustee will advise the Inland Revenue on an annual basis in respect of all interest paid gross and of the identity of all such recipients unless the recipient is a non-resident of Malta. Any such election made by a resident Bondholder at the time of the application may be subsequently changed by giving notice in writing to the Issuer and/or Trustee. Such election or revocation will be effective within the time limit set out in the Income Tax Act.

In terms of Article 12(1)(c) of the Income Tax Act, Bondholders who are not resident in Malta satisfying the applicable conditions set out in the Income Tax Act are not taxable in Malta on the interest received and should receive interest gross, subject to the requisite declaration/evidence being provided to the Issuer and/or the Trustee in terms of law.

5.14.3 European Union Savings Directive

Persons who are not resident in Malta should note that payment of interest to individuals and certain entities residing in another EU Member State or in certain other states who have concluded an appropriate agreement in this regard is reported on an annual basis to the Malta Commissioner of Inland Revenue who in turn exchanges the information with the competent authorities of the Member State where the recipient of the interest is resident. This exchange of information takes place in terms of Council Directive 2003/48/EC.

5.14.4 Malta tax on capital gains on transfer of the Bonds

On the assumption that the Bonds would not fall within the definition of “securities” in terms of Article 5 of the Income Tax Act, that is, *“shares and stocks and such like instrument that participate in any way in the profits of the company and whose return is not limited to a fixed rate of return”* and that such bonds are held by the Bondholder as a capital asset, no tax should be chargeable in respect of a capital gain arising on the transfer of the Bonds.

5.14.5 Duty on documents and transfers

No Maltese duty on documents and transfers should be chargeable on the issue of the Bonds.

Moreover, in terms of Article 50(2) of the Financial Markets Act, (Chapter 345 of the Laws of Malta) as long as the Bonds constitute financial instruments of a quoted company on a regulated market, as is the Malta Stock Exchange, redemptions and transfers of the Bonds should be exempt from Maltese duty on documents and transfers.

5.15 Yield

For Bonds issued at the Bond Issue Price, the gross yield calculated on the basis of the Interest, the Bond Issue Price and the Redemption Value of the Bonds at maturity is six point two five per cent (6.25%) per annum.

5.16 Authorisations, approvals and Issue Date

The issue of the Bonds has been authorised by means of a resolution of the board of directors adopted on the 2nd June 2009. The Prospectus has been authorised by means of a resolution of the board of directors adopted on the 2nd June 2009.

The Listing Authority has authorised the Bonds to be admitted to Listing by virtue of a letter dated the 5th June 2009.

Application has been made to the Malta Stock Exchange for the Bonds to be issued pursuant to this Prospectus to be listed and traded on the Official List of the Malta Stock Exchange and for dealings to commence once the Bonds are authorised as Admissible to Listing by the Listing Authority.

The Issue Date of the Bonds is the 27th July 2009.

5.17 Bonds held subject to usufruct

In respect of a Bond held subject to usufruct, the name of the bare owner and the usufructuary shall be entered in the register. The usufructuary shall, for all intents and purposes, be deemed vis-a-vis the Issuer to be the holder of the Bond/s so held and shall have the right to receive interest on the Bond/s and to vote at meetings of the Bondholders but shall not, during the continuance of the Bond/s, have the right to dispose of the Bond/s so held without the consent of the bare owner.

5.18 Governing law and jurisdiction

5.18.1 The Bonds are governed by and shall be construed in accordance with Maltese law.

5.18.2 Any legal action, suit or proceedings against the Issuer arising out of or in connection with the Bonds shall be brought exclusively before the Maltese Courts.

5.19 Notices

Notices will be mailed to Bondholders at their registered addresses and shall be deemed to have been served at the expiration of twenty-four (24) hours after the letter containing the notice is posted, and in proving such service it shall be sufficient to prove that a prepaid letter containing such notice was properly addressed to such Bondholders at their registered address and posted.

5.20 Listing

The Bonds, upon issue and subscription, shall be admitted to the Official List of the Malta Stock Exchange. Accordingly all these terms and conditions shall be read in conjunction with the Listing Rules of the Listing Authority and with the Bye-Laws of the Malta Stock Exchange, applicable from time to time.

6. TERMS AND CONDITIONS OF THE ISSUE

In the case of joint Applications, reference to the Applicant in these terms and conditions is a reference to each Applicant, and liability therefor is joint and several.

- (f) warrant that if you sign the Application Form on behalf of another party or on behalf of a corporation or corporate entity or association of persons, you have due authority to do so and such person, corporation, corporate entity, or association of persons will also be bound accordingly, and will be deemed also to have given the confirmations, warranties and undertakings contained in these terms and conditions and undertake to submit a power of attorney or a copy thereof duly certified by a lawyer or notary public if so required by the Registrar; and,

- (p) warrant that, in connection with the Application, you have observed all applicable laws, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with your Application in any territory and that you have not taken any action which will or may result in the Issuer or the Registrar acting in breach of the regulatory or legal requirements of any territory in connection with the Bond Issue or your Application; and,

6.7

No person receiving a copy of the Prospectus in any territory other than Malta may treat the same as constituting an invitation or offer to him/her nor should he/she in any event use such Application Form, unless, in the relevant territory, such an invitation or offer could lawfully be made to him/her or such Application Form could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside Malta wishing to make any Application to satisfy himself/herself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.

6.8

Such information shall be held and controlled by the Malta Stock Exchange in terms of the Data Protection Act (Chapter 440 of the Laws of Malta) for the purposes, and within the terms of, the Malta Stock Exchange’s Data Protection Policy as published from time to time.

6.9

6.13

Subject to all other terms and conditions set out in the Prospectus, the Issuer reserves the right to revoke the Issue at any time before the closing of the Issue Period. The circumstances in which such revocation might occur are expected to be exceptional, for example where a significant change in market conditions occurs.

Summary of significant assumptions and accounting policies

1. Introduction

The forecast financial statements of Tumas Investments p.l.c. (the “Issuer”) for the financial year ending 31st December 2009 have been prepared to provide financial information for the purposes of inclusion in the Prospectus of Tumas Investments p.l.c. dated 10th June 2009. These forecast financial statements, set out on pages 107 to 108, and the assumptions below are the sole responsibility of the directors of the Issuer.

The forecast financial statements for the year ending 31st December 2009 have been based on the following unaudited financial information:

- a) the management accounts of the Issuer for the three months ended 31st March 2009;
- b) the forecast financial information of the Issuer covering the period 1st April 2009 to 31st December 2009.

The prospective financial information is intended to show a possible outcome based on assumptions as to future events, which the directors expect to take place, and on actions the directors expect to take. Events and circumstances frequently do not occur as expected and therefore actual results may differ materially from those included in the prospective financial information. Attention is drawn, in particular, to the risk factors set out in the Prospectus which describe the primary risks associated with the business to which the prospective financial information relates.

The directors have exercised due care and diligence in adopting these assumptions. The forecast financial information was formerly approved on the 10th June 2009 and the stated assumptions reflect the judgements made by the directors at that date. The assumptions that the directors believe are significant to the prospective financial information are set out in Section 3 below.

2. Significant accounting policies

The significant accounting policies of the Issuer are set out in its audited financial statements for the financial year ended 31st December 2008. Where applicable, these accounting policies, in so far as they relate to recognition and measurement criteria, have been consistently applied in the preparation of the forecast financial statements.

3. Basis of preparation and principal assumptions

The principal assumptions relating to the environment in which the Issuer operates, and the factors which are exclusively outside the influence of the directors and which underlie the forecast financial statements are the following:

- there will be no material adverse events originating from market and economic conditions including spending levels, exchange rate movements, employment and job growth, which would endanger the ability of Spinola Development Company Limited to meet its commitments to the Issuer;

- the Issuer will continue to enjoy the confidence of its bankers;
- the basis and rates of taxation will not change materially throughout the period covered by the forecast.

The principal assumptions relating to the environment in which the Issuer operates, and the factors which the directors can influence and which underlie the forecast financial information, are the following:

3.1 Finance income

3.1.1 The Issuer's forecast revenue relates to interest receivable from Spinola Development Company Limited and has been forecast on the basis of the Over-allotment Option being exercised. In the case of floating interest rate loans, the forecast has been based on interest rates applicable at the date of approving the Prospectus.

3.2 Finance costs

3.2.1 Finance costs represent, in the main, the interests due on bonds in issue and on bank loans, and have been forecast at the appropriate contracted rates. In the case of floating interest rate loans, the forecast has been based on interest rates applicable at the date of approving the Prospectus.

3.3 Taxation

3.3.1 Tax is provided at 35% of the chargeable income for the year.

4. Conclusion

The directors of Tumas Investments p.l.c. believe that the assumptions on which the forecasts are based are reasonable. The directors further believe that, in the absence of unforeseen circumstances outside their control, the working capital available to the Issuer will be sufficient for the carrying out of its business.

Dear Sirs,

Independent Accountants' Report on the forecast financial statements of Tumas Investments p.l.c.

We report on the forecast financial statements of Tumas Investments p.l.c. for the financial year ending 31st December 2009, which comprise the forecast income statement, statement of financial position, statement of cash flows, and statement of changes in equity. The forecast financial statements are set out under Annex B of Tumas Investments p.l.c.'s (the "Company") Prospectus dated 10th June 2009 on pages 107 and 108.

This report is required in terms of rule 9.19 of the Listing Rules issued by the Listing Authority of the Malta Financial Services Authority and is given for the purpose of complying with that regulation and for no other purpose.

Director's responsibility for the forecast financial statements

The directors are responsible for the preparation of the forecast financial statements together with the notes and assumptions on which they are based in accordance with the Listing Rules issued by the Listing Authority of the Malta Financial Services Authority and EU Regulation EC 809/2004, as set out on pages 105 to 108.

Accountants' responsibility

Our responsibility is to form an opinion, in terms of the requirements of Listing Rule 9.19 and Annex IV item 9.2 of EU Regulation EC 809/2004, as to whether the forecast financial statements, in so far as the application of the underlying accounting policies and accuracy of calculations are concerned, have been properly compiled on the basis adopted by the directors of the Company.

The forecast financial statements and the assumptions on which they are based relate to the future and may be affected by unforeseen events. The variation between forecast and actual results may be material. Consequently, we express no opinion on the validity of the assumptions on which the forecast financial statements are based nor on how closely the results actually achieved will compare with the forecast financial statements.

Basis for opinion

We have examined the basis of compilation and the accounting policies of the accompanying forecast financial statements of the Company for the year ending 31st December 2009 in accordance with the International Standard on Assurance Engagements 3000 - Assurance Engagements Other than Audits or Reviews of Historical Financial Information. Our work included an evaluation of the procedures undertaken by the directors in compiling the forecast financial statements and the consistency of the forecast financial statements with the accounting policies adopted by the Company.

We have planned and performed our work so as to obtain all the information and the explanations which we considered necessary in order to provide us with reasonable assurance that the forecast financial statements, in so far as the accounting policies and calculations are concerned, have been properly compiled on the basis stated.

TABLE OF CONTENT - FORECAST CONSOLIDATED FINANCIAL INFORMATION OF THE GUARANTOR

Summary of significant assumptions and accounting policies	113 - 116
Forecast Consolidated Income Statement	117
Forecast Consolidated Statement of Financial Position	118
Forecast Consolidated Statement of Cash Flows	119
Forecast Consolidated Statement of Changes in Equity	120
Accountants' Report	121 - 122

Summary of significant assumptions and accounting policies

1. Introduction

The consolidated forecast financial statements of Spinola Development Company Limited (the “Guarantor”) and its subsidiary companies for the financial year ending 31st December 2009 have been prepared to provide financial information for the purposes of inclusion in the Prospectus of Tumas Investments p.l.c. dated 10th June 2009. These consolidated forecast financial statements, set out on pages 117 to 120, and the assumptions below are the sole responsibility of the directors of the Guarantor.

The consolidated forecast financial statements for the year ending 31st December 2009 have been based on the following unaudited financial information:

- a) the management accounts of the Guarantor and its group undertakings for the three months ended 31st March 2009;
- b) the forecast financial information of the Guarantor and its group undertakings covering the period 1st April 2009 to 31st December 2009.

The prospective financial information is intended to show a possible outcome based on assumptions as to future events, which the directors expect to take place, and on actions the directors expect to take. Events and circumstances frequently do not occur as expected and therefore actual results may differ materially from those included in the prospective financial information. Attention is drawn, in particular, to the risk factors set out in the Prospectus which describe the primary risks associated with the business to which the prospective financial information relates.

The directors have exercised due care and diligence in adopting these assumptions. The consolidated forecast financial information was formerly approved on the 10th June 2009 and the stated assumptions reflect the judgements made by the directors at that date. The assumptions that the directors believe are significant to the prospective financial information are set out in Section 3 below.

2. Significant accounting policies

The significant accounting policies of the Guarantor are set out in its audited consolidated financial statements for the financial year ended 31st December 2008. Where applicable, these accounting policies, in so far as they relate to recognition and measurement criteria, have been consistently applied in the preparation of the consolidated forecast financial statements.

3. Basis of preparation and principal assumptions

The principal assumptions relating to the environment in which the Guarantor operates, and the factors which are exclusively outside the influence of the directors and which underlie the consolidated forecast financial statements are the following:

- there will be no material adverse events originating from market and economic conditions including spending levels, exchange rate movements, employment and job growth, beyond those already reflected in the forecasts;
- the Guarantor will continue to enjoy the confidence of its suppliers and bankers;
- there will be no material cost overruns on budgeted capital expenditure;
- the basis and rates of taxation will not change materially throughout the period covered by the forecast.

The principal assumptions relating to the environment in which the Guarantor operates, and the factors which the directors can influence and which underlie the forecast financial information, are the following:

3.1 Revenues

3.1.1 The revenues of the Guarantor relates principally to income receivable from the Hilton Malta, the sale of apartments, office and retail rentals, the car park and the marina.

3.1.2 The revenue forecast on the Hilton Malta has been based on management budgets, flexed to reflect bookings in hand and other available sources of information relevant to forming an understanding of the likely outcome of the current financial year. Key assumptions on which the forecast for the full year is based include the total available room nights, which reflect an increase of 9% over 2008; and the average revenue per available room, which is a function both of occupancy and yield, and which is projected to reduce by 10% when compared to 2008.

3.1.3 The second major item of revenue relates to the sale of a number of residential units which have been or will be handed over to the purchasers during 2009. Revenue earned from these long-term contracts is recognised upon the delivery of the contracted items and is included in the financial statements as revenue. Total revenue for 2009 is forecast at €5,600,000, comprising a total of six units (of which four have already been contracted as at the date of the Prospectus).

3.1.4 The revenue forecasts in respect of office, retail and marina rentals are based on existing tenant agreements. Car parking revenues have been forecast largely on the basis of the income experienced in previous years.

3.2 Cost of sales

3.2.1 Cost of sales includes direct costs incurred and the indirect cost allocations during the year. Depreciation costs on the hotel are accounted for as an operational cost.

3.2.2 Direct costs within the hotel operation have been forecast on the basis of normal levels of expenditure adjusted, where applicable, to reflect the level and type of occupancy forecast for 2009.

3.2.3 Direct costs incurred in relation to the property development are accounted for as part of the development costs until project completion and classified in the financial statements as inventories. Direct costs incurred in developing the residential apartments and related car parking spaces are transferred from inventories to the income statement on sale.

3.2.4 Direct costs comprise the cost of land together with other costs incurred during its subsequent development including:

- the costs incurred on development works, demolition, site clearance, excavation, construction and finishing works;
- the cost of various design and other studies conducted in connection with the project together with architect fees, project management costs, legal expenses and marketing costs; and
- any borrowing costs, net of any interest receivable attributable to the development phases of the project.

3.2.5 Indirect costs include inter alia pre-project costs, depreciation, administrative and finance overheads. The amount transferred to cost of sales is based on the direct costs incurred in that year.

3.2.6 Depreciation is calculated on the straight-line method to allocate the cost of the assets to their residual values over their estimated useful lives. The depreciation charge is based on the Guarantor's fixed asset base adjusted for forecast additions and disposals during the year and on the following depreciation rates:

	%
Buildings	2 - 14
Mechanical and electrical equipment	5 - 25
Furniture, fixtures and operational equipment	7 - 50

Freehold land and land held on perpetual emphyteusis are not depreciated.

3.3 Administrative expenses

3.3.1 Administrative expenses consist primarily of payroll, advertising, professional fees, certain depreciation costs and other general overheads and expenses.

3.4 Financial expenses

3.4.1 Interest on borrowings outstanding in the period covered by the forecast, including the interests due on the amounts due to the Issuer, have been computed on the basis of contracted rates. In the case of floating interest rate loans, the forecast has been based on interest rates applicable at the date of approving the Prospectus.

3.5 Taxation

3.5.1 Tax is provided at 35% of the chargeable income for the year.

3.5.2 Deferred tax is provided using the liability method for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes.

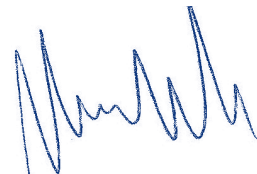

4. Conclusion

The directors of Spinola Development Company Limited believe that the assumptions on which the forecasts are based are reasonable. The directors further believe that, in the absence of unforeseen circumstances outside their control, the working capital available to the Guarantor will be sufficient for the carrying out of its business.

Dear Sirs,

Independent Accountants' Report on the forecast consolidated financial statements of Spinola Development Company Limited

We report on the forecast consolidated financial statements for the financial year ending 31st December 2009 of Spinola Development Company Limited (the "Guarantor") and its subsidiary companies, which comprise the forecast consolidated income statement, statement of financial position, statement of cash flows, and statement of changes in equity. The forecast consolidated financial statements are set out under Annex B of Tumas Investments p.l.c.'s (the "Company") Prospectus dated 10th June 2009 on pages 117 to 120.

This report is required in terms of rule 9.19 of the Listing Rules issued by the Listing Authority of the Malta Financial Services Authority and is given for the purpose of complying with that regulation and for no other purpose.

Director's responsibility for the forecast consolidated financial statements

The directors of the Guarantor are responsible for the preparation of the forecast consolidated financial statements together with the notes and assumptions on which they are based in accordance with the Listing Rules issued by the Listing Authority of the Malta Financial Services Authority and EU Regulation EC 809/2004, as set out on pages 113 to 120.

Accountants' responsibility

Our responsibility is to form an opinion, in terms of the requirements of Listing Rule 9.19 and Annex IV item 9.2 of EU Regulation EC 809/2004, as to whether the forecast consolidated financial statements, in so far as the application of the underlying accounting policies and accuracy of calculations are concerned, have been properly compiled on the basis adopted by the directors of the Guarantor.

The forecast consolidated financial statements and the assumptions on which they are based relate to the future and may be affected by unforeseen events. The variation between forecast and actual results may be material. Consequently, we express no opinion on the validity of the assumptions on which the forecast consolidated financial statements are based nor on how closely the results actually achieved will compare with the forecast consolidated financial statements.

Basis for opinion

We have examined the basis of compilation and the accounting policies of the accompanying forecast consolidated financial statements of the Guarantor for the year ending 31st December 2009 in accordance with the International Standard on Assurance Engagements 3000 - Assurance Engagements Other than Audits or Reviews of Historical Financial Information. Our work included an evaluation of the procedures undertaken by the directors of the Guarantor in compiling the forecast consolidated financial statements and the consistency of the forecast consolidated financial statements with the accounting policies adopted by the Guarantor.

We have planned and performed our work so as to obtain all the information and the explanations which we considered necessary in order to provide us with reasonable assurance that the forecast consolidated financial statements, in so far as the accounting policies and calculations are concerned, have been properly compiled on the basis stated.

Opinion

In our opinion:

- the forecast consolidated financial statements have been properly compiled on the basis stated; and
- this basis is consistent with the accounting policies normally adopted by the Guarantor.

Further, we emphasise that the forecast consolidated financial statements are not intended to, and do not, provide all the information and disclosures necessary to give a fair presentation of the results of the operations of the Guarantor in accordance with International Financial Reporting Standards as adopted by the EU.

The opinion is solely intended for the purposes of the Prospectus dated 10th June 2009. Readers are cautioned that the forecast financial statements may not be appropriate for any other purpose. We accept no responsibility to any other person in respect of, arising out of, or in connection with our work.

Yours faithfully,

Architect's Valuation of the Halland site belonging to Halland Developments Limited

1. SCOPE OF VALUATION

In accordance with your instructions, the undersigned is hereby carrying out a Valuation of the sites occupied by the Halland Hotel at Tal-Ibragg. A detailed report is submitted hereunder.

It is understood that the purpose of the Valuation Report is in connection with the proposed bond issue, and that a copy of this report will be included with the Prospectus, in accordance with the Listing Rules for Property Companies.

The undersigned is carrying out this valuation as an external valuer in terms of, and with regard given to, the UK Royal Institute of Chartered Surveyors (RICS) Appraisal and Valuation Manual. The valuation is based on direct knowledge of the site, and its potential for residential purposes, as well as such inspections and investigations as are, in the professional judgement of the undersigned, appropriate and possible in the circumstances. The valuation relies on information provided by the directors, and their professional advisers, as far as concerns tenure, privileges, charges and other related matters. The valuation is nevertheless based on the assumption that no harmful and hazardous materials have been used in the construction of the existing property, or have since been incorporated, and that there is no contamination in or from the ground. The undersigned has relied on the floor areas taken from the plans prepared in our offices.

2. BASIS OF VALUATION

In considering the market value of the property, consideration of the definition of "Market Value" of both the Royal Institute of Chartered Surveyors' Appraisal and Valuation Manual, and that of the European Council Directive, was taken.

DeMicoli & Associates
Architects

The latter's definition of "Market Value" is as follows;

Market Value shall mean the price at which the land site could be sold under private contract between a willing buyer and a willing seller in an arm's length transaction on the date of the valuation. It is being assumed that the property is publicly exposed to the market, that market conditions permit orderly disposal and that a normal period, having regard to the nature of the property, is available for the negotiation of the sale.

Furthermore, the Open Market Value is defined as the best price at which an interest in property might reasonably be expected to be sold, on the date of the valuation, assuming:

- (a) a willing seller
- (b) a reasonable period within which to negotiate the sale, taking into account the nature of the property and the state of the market.
- (c) that values remain static during that period
- (d) the property will be freely exposed on the open market

3. LOCATION AND BRIEF DESCRIPTION OF THE PROPERTY

The property is located on high ground at the edge of Tal-Ibragg bordering Madliena, on the topmost side of the valley end (see site plan). It is bounded to the North by the main road, to the West, South and East by other properties belonging to third parties. There is a small winding road dividing the site. The site of the hotel is bounded by this winding road to the West of the road, whilst the rest of the site which is green and not built is to the East of the winding road.

The site covers approximately 7627 square meters of sloping land at the top of the valley side, divided as follows;

- A. area of 4037 s.m. at present occupied by the Halland Hotel
- B. area of 3590 s.m. green area for landscaping purposes

DeMicoli & Associates
Architects

The hotel, which is approximately about 30 years old, is intended to be demolished in order to provide space for residential development. No specific value has therefore been attached to the existing buildings on the site.

Moreover, in attaching a value to the land, a deduction has been made in respect of the expected cost of demolishing the existing structure and of clearing the site.

The site is favourably located on Triq l-Ibragg which connects St. Andrew's and Madliena. The road is reasonably wide, and the site lends itself to a residential development, as it overlooks the valley and will thus offer excellent views from the back of the apartments, especially the higher floors, which will enjoy the better views.

4. ACCESS ROADS TO THE SITE.

The main access to the site is from the existing main road which leads to the main road of Bahar-ic-caghaq in one direction, and to Madliena on the other.

5. TENURE

The site is subject to an annual perpetual ground rent of € 1281.16 (LM 550), otherwise free and unencumbered with all its rights and appurtenances, with vacant possession, free from, privileges, hypothecs, charges, litigation, taxes, levies, easements and/or any other burdens.

(The ground rent is currently being redeemed by the company).

6. LOCAL PLAN.

The site qualifies as building land, and it is designated a Residential Priority Area in the Swieqi South, Tal-Ibragg and St. Andrew's Policy Map no. SW2. In Map no. SW4, Swieqi South Tal-Ibragg and St. Andrew's Building Heights and Urban Design Map, the

DeMicoli & Associates
Architects

building height limitation is “to retain the existing building heights”, which is the potential height being taken into consideration in this valuation.

7. DEVELOPMENT OF THE SITE.

An application for planning permission will soon be submitted to cover the construction of 51 large units. The building height of the block varies and rises to eight storeys, but the maximum height allowable in the proposal will be the same as the existing building according to MEPA policies.

The building existing on the site, the Halland Hotel, was allowed to go up to eight stories on condition that a large area be left green more in line with today’s Floor Area Ratio Policy.

In the proposal, there will be 154 car parking spaces on three levels, having a gross floor area of 6000 s.m..

The development will comprise the following units;

36 three-bedroomed units

9 two-bedroomed units

6 duplex units

for a total of 51 units.

The approximate area of the three-bedroomed unit is 250 to 300 s.m., a two-bedroomed unit has 115 s.m., and the duplex units have 149 s.m. The greater part of the units are therefore large by any standard, and will cater for the higher income bracket. In this respect, the development will be quite unique for Malta. The majority of the apartments have 40.s.m. of terraces, and all the units have very good views to enjoy.

DeMicoli & Associates
Architects

There will be common amenities to be enjoyed by all the residents. These include an internal swimming pool, a fitness centre, a retail area and a reception/lounge space.

The valuation is based on the assumption that the replacement to the existing building will offer a net saleable volume equivalent to the volume of the existing hotel building.

8. SOURCE OF INFORMATION

Information was given to the undersigned by Mr. Ray Sladden, the Finance Director of the Tumas Group.

Other information has been obtained from the drawings being designed by Messrs. DeMicoli & Associates, and from the undersigned's inspections of the site

The professional qualifications of the valuer are

Raymond DeMicoli, I.D. card no. 780252 (M) is a warranted perit no. 105, year of issue 1976, in terms of Section 7(3) of the Architecture and Civil Engineering Professionals (PERITI) Act 1996.

There is no information to be included in this valuation report with regard to listing rules 14.7.1.6, 14.7.1.8, 14.7.1.11, 14.7.1.12, 14.7.7.

VALUATION

After taking into consideration all matters which to our knowledge affect the value of the property under scrutiny, including the locality at the top of a valley, the size of the site, the prevalent local market condition, the potential of the proposal as a residential development, the volume of developable space, the common amenities of the complex, the excellent views enjoyed from all rooms, the car parking provision and all the other

DeMicoli & Associates
Architects

factors which effect the value of the property, we consider that the market value of the site on the open market as of today, based on the present capital value in existing state, net of demolition cost, is in the region of **€ 9,000,000** (nine million Euros).

The Halland property is being valued on the use of the land without attributing any value to the building which in the current state makes it of uneconomic use.

The directors had no interest in any acquisitions or disposals during the two years preceding the valuation. Moreover, as of the date of this valuation, the directors have not decided as to when the development is to commence. It follows that listing rules 14.10.4 and 14.10.5 do not apply at this moment in time, precisely because the commencement date is not known.

10. CONFIDENTIALITY

It is to be noted that this report is being submitted solely for the use of Tumas Investments p.l.c. for listing purposes, and in accordance with the MFSA Listing Rules, and it will form part of the Company's Prospectus. No liability for its use by third parties is accepted.

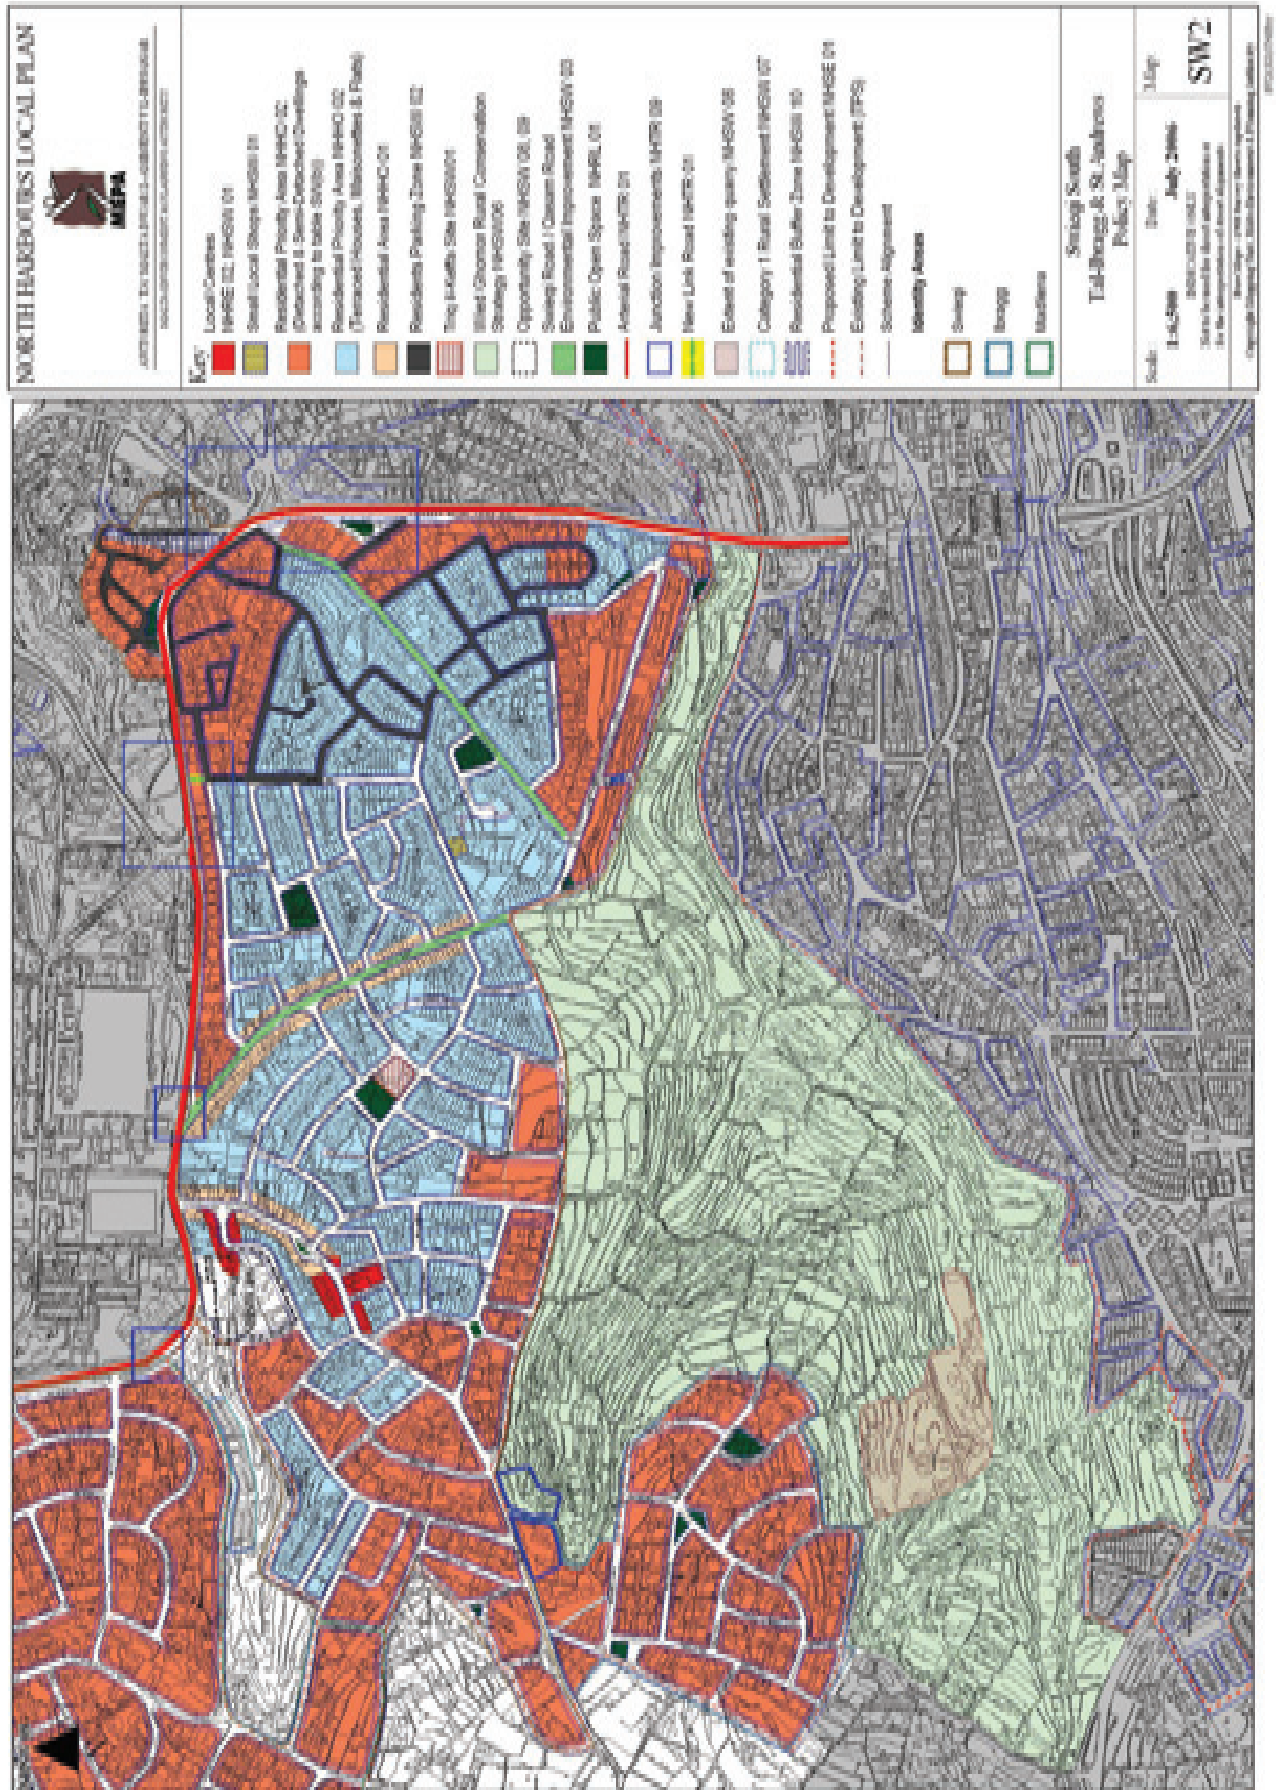

Finally we would like to add that we have taken all reasonable care to ensure that the information is correct, and to the best of our knowledge all of the above is in accordance with the facts as given to us, and contains no omission likely to effect its import.

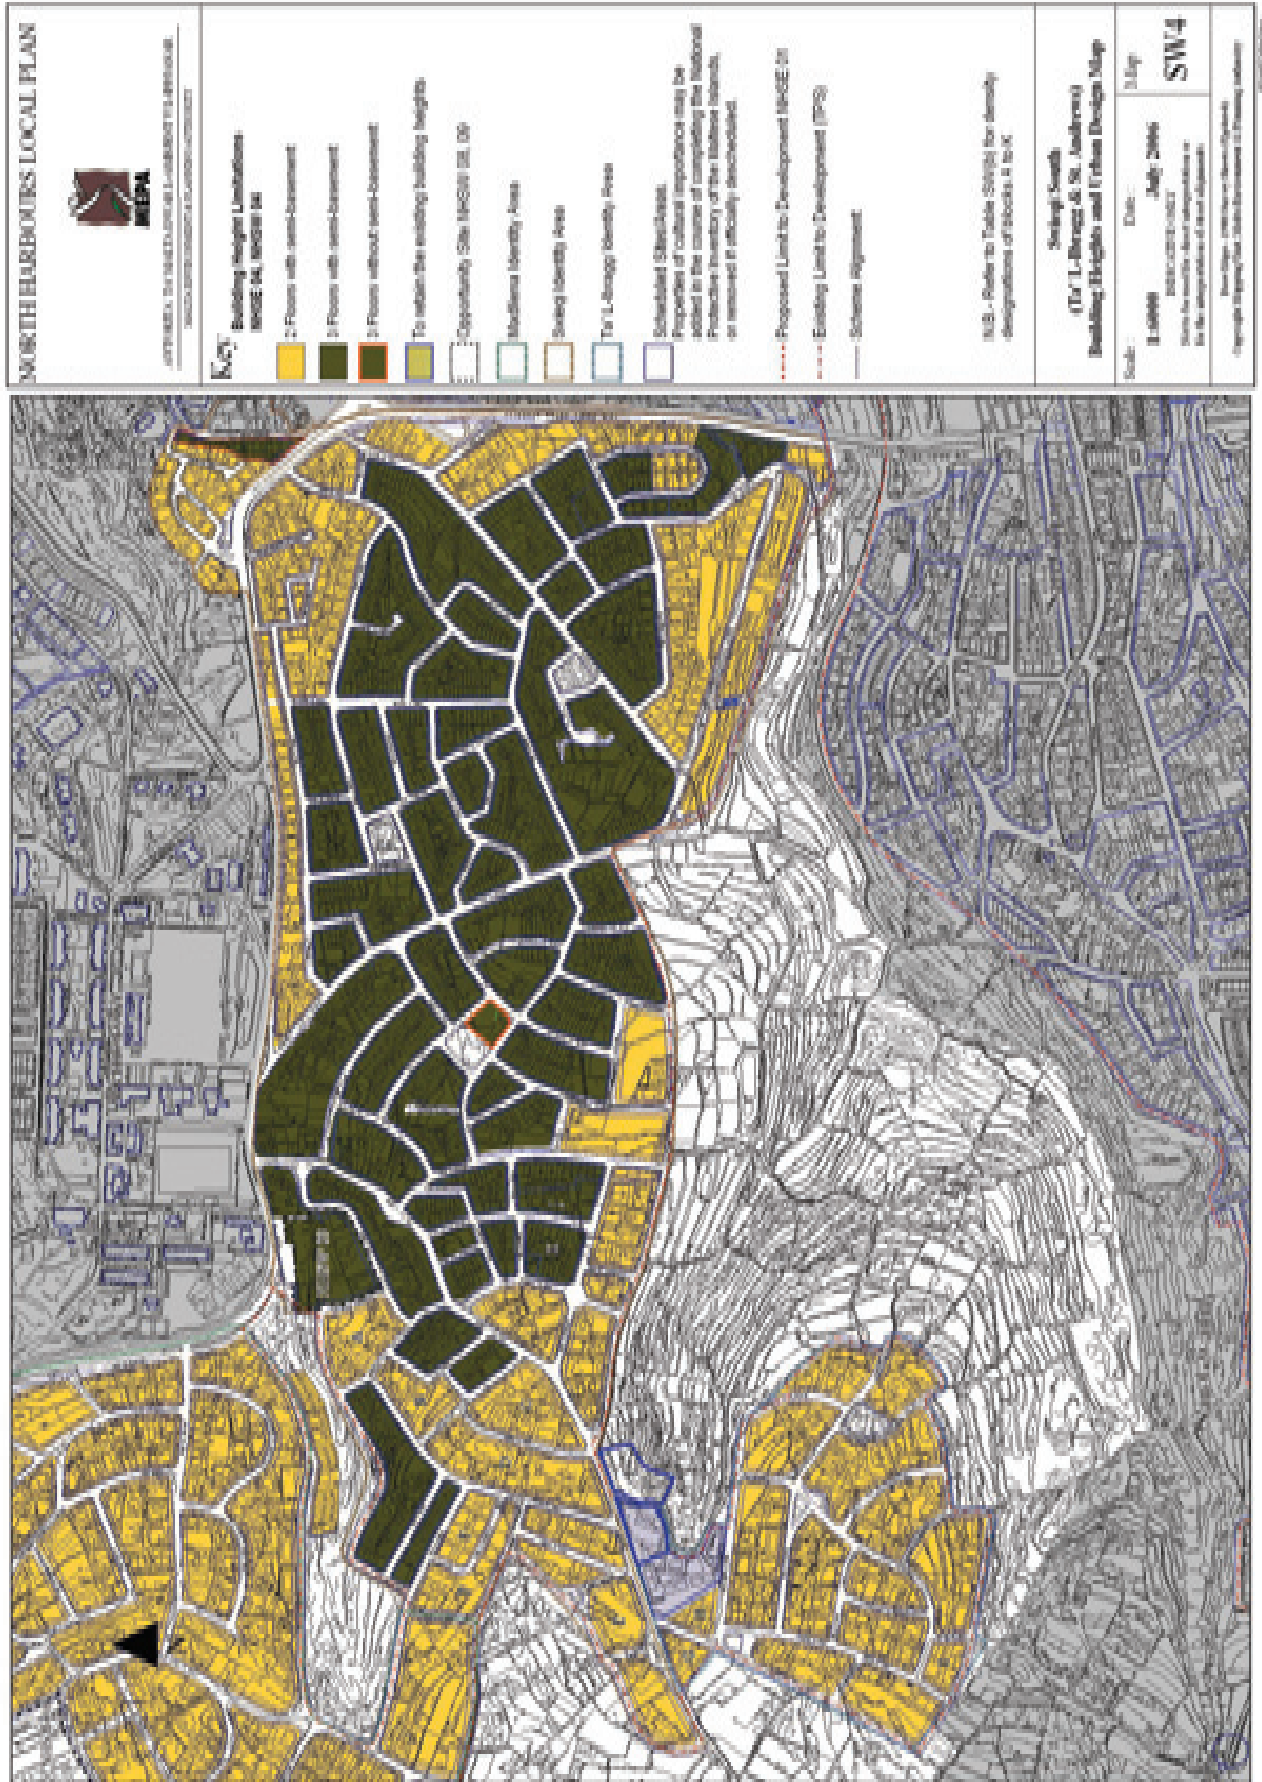

There are no other matters which we consider as relevant for the purposes of the valuation.

14. This application is governed by the Terms and Conditions contained in the Prospectus dated 10th June 2009. Capitalised terms not defined herein, shall unless the context otherwise requires, have the same meaning as that assigned to them in the Prospectus.
