Security Council

Distr.: General
9 June 2010

Resolution 1929 (2010)

**Adopted by the Security Council at its 6335th meeting, on
9 June 2010**

The Security Council,

Recalling the Statement of its President, S/PRST/2006/15, and its resolutions 1696 (2006), 1737 (2006), 1747 (2007), 1803 (2008), 1835 (2008), and 1887 (2009) and *reaffirming* their provisions,

Reaffirming its commitment to the Treaty on the Non-Proliferation of Nuclear Weapons, the need for all States Party to that Treaty to comply fully with all their obligations, and *recalling* the right of States Party, in conformity with Articles I and II of that Treaty, to develop research, production and use of nuclear energy for peaceful purposes without discrimination,

Recalling the resolution of the IAEA Board of Governors (GOV/2006/14), which states that a solution to the Iranian nuclear issue would contribute to global non-proliferation efforts and to realizing the objective of a Middle East free of weapons of mass destruction, including their means of delivery,

Noting with serious concern that, as confirmed by the reports of 27 February 2006 (GOV/2006/15), 8 June 2006 (GOV/2006/38), 31 August 2006 (GOV/2006/53), 14 November 2006 (GOV/2006/64), 22 February 2007 (GOV/2007/8), 23 May 2007 (GOV/2007/122), 30 August 2007 (GOV/2007/48), 15 November 2007 (GOV/2007/58), 22 February 2008 (GOV/2008/4), 26 May 2008 (GOV/2008/115), 15 September 2008 (GOV/2008/38), 19 November 2008 (GOV/2008/59), 19 February 2009 (GOV/2009/8), 5 June 2009 (GOV/2009/35), 28 August 2009 (GOV/2009/55), 16 November 2009 (GOV/2009/74), 18 February 2010 (GOV/2010/10) and 31 May 2010 (GOV/2010/28) of the Director General of the International Atomic Energy Agency (IAEA), Iran has not established full and sustained suspension of all enrichment-related and reprocessing activities and heavy water-related projects as set out in resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008) nor resumed its cooperation with the IAEA under the Additional Protocol, nor cooperated with the IAEA in connection with the remaining issues of concern, which need to be clarified to exclude the possibility of military dimensions of Iran's nuclear programme, nor taken the other steps required by the IAEA Board of Governors, nor complied with the provisions of Security Council

resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008) and which are essential to build confidence, and *deploring* Iran's refusal to take these steps,

Reaffirming that outstanding issues can be best resolved and confidence built in the exclusively peaceful nature of Iran's nuclear programme by Iran responding positively to all the calls which the Council and the IAEA Board of Governors have made on Iran,

Noting with serious concern the role of elements of the Islamic Revolutionary Guard Corps (IRGC, also known as "Army of the Guardians of the Islamic Revolution"), including those specified in Annex D and E of resolution 1737 (2006), Annex I of resolution 1747 (2007) and Annex II of this resolution, in Iran's proliferation sensitive nuclear activities and the development of nuclear weapon delivery systems,

Noting with serious concern that Iran has constructed an enrichment facility at Qom in breach of its obligations to suspend all enrichment-related activities, and that Iran failed to notify it to the IAEA until September 2009, which is inconsistent with its obligations under the Subsidiary Arrangements to its Safeguards Agreement,

Also noting the resolution of the IAEA Board of Governors (GOV/2009/82), which urges Iran to suspend immediately construction at Qom, and to clarify the facility's purpose, chronology of design and construction, and calls upon Iran to confirm, as requested by the IAEA, that it has not taken a decision to construct, or authorize construction of, any other nuclear facility which has as yet not been declared to the IAEA,

Noting with serious concern that Iran has enriched uranium to 20 per cent, and did so without notifying the IAEA with sufficient time for it to adjust the existing safeguards procedures,

Noting with concern that Iran has taken issue with the IAEA's right to verify design information which had been provided by Iran pursuant to the modified Code 3.1, and *emphasizing* that in accordance with Article 39 of Iran's Safeguards Agreement Code 3.1 cannot be modified nor suspended unilaterally and that the IAEA's right to verify design information provided to it is a continuing right, which is not dependent on the stage of construction of, or the presence of nuclear material at, a facility,

Reiterating its determination to reinforce the authority of the IAEA, strongly supporting the role of the IAEA Board of Governors, and *commending* the IAEA for its efforts to resolve outstanding issues relating to Iran's nuclear programme,

Expressing the conviction that the suspension set out in paragraph 2 of resolution 1737 (2006) as well as full, verified Iranian compliance with the requirements set out by the IAEA Board of Governors would contribute to a diplomatic, negotiated solution that guarantees Iran's nuclear programme is for exclusively peaceful purposes,

Emphasizing the importance of political and diplomatic efforts to find a negotiated solution guaranteeing that Iran's nuclear programme is exclusively for peaceful purposes and *noting* in this regard the efforts of Turkey and Brazil towards an agreement with Iran on the Tehran Research Reactor that could serve as a confidence-building measure,

Emphasizing also, however, in the context of these efforts, the importance of Iran addressing the core issues related to its nuclear programme,

Stressing that China, France, Germany, the Russian Federation, the United Kingdom and the United States are willing to take further concrete measures on exploring an overall strategy of resolving the Iranian nuclear issue through negotiation on the basis of their June 2006 proposals (S/2006/521) and their June 2008 proposals (INFCIRC/730), and *noting* the confirmation by these countries that once the confidence of the international community in the exclusively peaceful nature of Iran's nuclear programme is restored it will be treated in the same manner as that of any Non-Nuclear Weapon State Party to the Treaty on the Non-Proliferation of Nuclear Weapons,

Welcoming the guidance issued by the Financial Action Task Force (FATF) to assist States in implementing their financial obligations under resolutions 1737 (2006) and 1803 (2008), and *recalling* in particular the need to exercise vigilance over transactions involving Iranian banks, including the Central Bank of Iran, so as to prevent such transactions contributing to proliferation-sensitive nuclear activities, or to the development of nuclear weapon delivery systems,

Recognizing that access to diverse, reliable energy is critical for sustainable growth and development, while noting the potential connection between Iran's revenues derived from its energy sector and the funding of Iran's proliferation-sensitive nuclear activities, and *further noting* that chemical process equipment and materials required for the petrochemical industry have much in common with those required for certain sensitive nuclear fuel cycle activities,

Having regard to States' rights and obligations relating to international trade,

Recalling that the law of the sea, as reflected in the United Nations Convention on the Law of the Sea (1982), sets out the legal framework applicable to ocean activities,

Calling for the ratification of the Comprehensive Nuclear-Test-Ban Treaty by Iran at an early date,

Determined to give effect to its decisions by adopting appropriate measures to persuade Iran to comply with resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008) and with the requirements of the IAEA, and also to constrain Iran's development of sensitive technologies in support of its nuclear and missile programmes, until such time as the Security Council determines that the objectives of these resolutions have been met,

Concerned by the proliferation risks presented by the Iranian nuclear programme and mindful of its primary responsibility under the Charter of the United Nations for the maintenance of international peace and security,

Stressing that nothing in this resolution compels States to take measures or actions exceeding the scope of this resolution, including the use of force or the threat of force,

Acting under Article 41 of Chapter VII of the Charter of the United Nations,

1. *Affirms* that Iran has so far failed to meet the requirements of the IAEA Board of Governors and to comply with resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008);

2. *Affirms* that Iran shall without further delay take the steps required by the IAEA Board of Governors in its resolutions GOV/2006/14 and GOV/2009/82, which are essential to build confidence in the exclusively peaceful purpose of its nuclear programme, to resolve outstanding questions and to address the serious concerns raised by the construction of an enrichment facility at Qom in breach of its obligations to suspend all enrichment-related activities, and, in this context, *further affirms* its decision that Iran shall without delay take the steps required in paragraph 2 of resolution 1737 (2006);

3. *Reaffirms* that Iran shall cooperate fully with the IAEA on all outstanding issues, particularly those which give rise to concerns about the possible military dimensions of the Iranian nuclear programme, including by providing access without delay to all sites, equipment, persons and documents requested by the IAEA, and *stresses* the importance of ensuring that the IAEA have all necessary resources and authority for the fulfilment of its work in Iran;

4. *Requests* the Director General of the IAEA to communicate to the Security Council all his reports on the application of safeguards in Iran;

5. *Decides* that Iran shall without delay comply fully and without qualification with its IAEA Safeguards Agreement, including through the application of modified Code 3.1 of the Subsidiary Arrangement to its Safeguards Agreement, *calls upon* Iran to act strictly in accordance with the provisions of the Additional Protocol to its IAEA Safeguards Agreement that it signed on 18 December 2003, *calls upon* Iran to ratify promptly the Additional Protocol, and *reaffirms* that, in accordance with Articles 24 and 39 of Iran's Safeguards Agreement, Iran's Safeguards Agreement and its Subsidiary Arrangement, including modified Code 3.1, cannot be amended or changed unilaterally by Iran, and *notes* that there is no mechanism in the Agreement for the suspension of any of the provisions in the Subsidiary Arrangement;

6. *Reaffirms* that, in accordance with Iran's obligations under previous resolutions to suspend all reprocessing, heavy water-related and enrichment-related activities, Iran shall not begin construction on any new uranium-enrichment, reprocessing, or heavy water-related facility and shall discontinue any ongoing construction of any uranium-enrichment, reprocessing, or heavy water-related facility;

7. *Decides* that Iran shall not acquire an interest in any commercial activity in another State involving uranium mining, production or use of nuclear materials and technology as listed in INFCIRC/254/Rev.9/Part 1, in particular uranium-enrichment and reprocessing activities, all heavy-water activities or technology-related to ballistic missiles capable of delivering nuclear weapons, and *further decides* that all States shall prohibit such investment in territories under their jurisdiction by Iran, its nationals, and entities incorporated in Iran or subject to its jurisdiction, or by persons or entities acting on their behalf or at their direction, or by entities owned or controlled by them;

8. *Decides* that all States shall prevent the direct or indirect supply, sale or transfer to Iran, from or through their territories or by their nationals or individuals subject to their jurisdiction, or using their flag vessels or aircraft, and whether or not originating in their territories, of any battle tanks, armoured combat vehicles, large calibre artillery systems, combat aircraft, attack helicopters, warships, missiles or

missile systems as defined for the purpose of the United Nations Register of Conventional Arms, or related materiel, including spare parts, or items as determined by the Security Council or the Committee established pursuant to resolution 1737 (2006) (“the Committee”), *decides* further that all States shall prevent the provision to Iran by their nationals or from or through their territories of technical training, financial resources or services, advice, other services or assistance related to the supply, sale, transfer, provision, manufacture, maintenance or use of such arms and related materiel, and, in this context, *calls upon* all States to exercise vigilance and restraint over the supply, sale, transfer, provision, manufacture and use of all other arms and related materiel;

9. *Decides* that Iran shall not undertake any activity related to ballistic missiles capable of delivering nuclear weapons, including launches using ballistic missile technology, and that States shall take all necessary measures to prevent the transfer of technology or technical assistance to Iran related to such activities;

10. *Decides* that all States shall take the necessary measures to prevent the entry into or transit through their territories of individuals designated in Annex C, D and E of resolution 1737 (2006), Annex I of resolution 1747 (2007), Annex I of resolution 1803 (2008) and Annexes I and II of this resolution, or by the Security Council or the Committee pursuant to paragraph 10 of resolution 1737 (2006), except where such entry or transit is for activities directly related to the provision to Iran of items in subparagraphs 3(b)(i) and (ii) of resolution 1737 (2006) in accordance with paragraph 3 of resolution 1737 (2006), *underlines* that nothing in this paragraph shall oblige a State to refuse its own nationals entry into its territory, and *decides* that the measures imposed in this paragraph shall not apply when the Committee determines on a case-by-case basis that such travel is justified on the grounds of humanitarian need, including religious obligations, or where the Committee concludes that an exemption would otherwise further the objectives of this resolution, including where Article XV of the IAEA Statute is engaged;

Security Council

Distr.: General
9 June 2010

Resolution 1929 (2010)

**Adopted by the Security Council at its 6335th meeting, on
9 June 2010**

The Security Council,

Recalling the Statement of its President, S/PRST/2006/15, and its resolutions 1696 (2006), 1737 (2006), 1747 (2007), 1803 (2008), 1835 (2008), and 1887 (2009) and *reaffirming* their provisions,

Reaffirming its commitment to the Treaty on the Non-Proliferation of Nuclear Weapons, the need for all States Party to that Treaty to comply fully with all their obligations, and *recalling* the right of States Party, in conformity with Articles I and II of that Treaty, to develop research, production and use of nuclear energy for peaceful purposes without discrimination,

Recalling the resolution of the IAEA Board of Governors (GOV/2006/14), which states that a solution to the Iranian nuclear issue would contribute to global non-proliferation efforts and to realizing the objective of a Middle East free of weapons of mass destruction, including their means of delivery,

Noting with serious concern that, as confirmed by the reports of 27 February 2006 (GOV/2006/15), 8 June 2006 (GOV/2006/38), 31 August 2006 (GOV/2006/53), 14 November 2006 (GOV/2006/64), 22 February 2007 (GOV/2007/8), 23 May 2007 (GOV/2007/122), 30 August 2007 (GOV/2007/48), 15 November 2007 (GOV/2007/58), 22 February 2008 (GOV/2008/4), 26 May 2008 (GOV/2008/115), 15 September 2008 (GOV/2008/38), 19 November 2008 (GOV/2008/59), 19 February 2009 (GOV/2009/8), 5 June 2009 (GOV/2009/35), 28 August 2009 (GOV/2009/55), 16 November 2009 (GOV/2009/74), 18 February 2010 (GOV/2010/10) and 31 May 2010 (GOV/2010/28) of the Director General of the International Atomic Energy Agency (IAEA), Iran has not established full and sustained suspension of all enrichment-related and reprocessing activities and heavy water-related projects as set out in resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008) nor resumed its cooperation with the IAEA under the Additional Protocol, nor cooperated with the IAEA in connection with the remaining issues of concern, which need to be clarified to exclude the possibility of military dimensions of Iran's nuclear programme, nor taken the other steps required by the IAEA Board of Governors, nor complied with the provisions of Security Council

resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008) and which are essential to build confidence, and *deploring* Iran's refusal to take these steps,

Reaffirming that outstanding issues can be best resolved and confidence built in the exclusively peaceful nature of Iran's nuclear programme by Iran responding positively to all the calls which the Council and the IAEA Board of Governors have made on Iran,

Noting with serious concern the role of elements of the Islamic Revolutionary Guard Corps (IRGC, also known as "Army of the Guardians of the Islamic Revolution"), including those specified in Annex D and E of resolution 1737 (2006), Annex I of resolution 1747 (2007) and Annex II of this resolution, in Iran's proliferation sensitive nuclear activities and the development of nuclear weapon delivery systems,

Noting with serious concern that Iran has constructed an enrichment facility at Qom in breach of its obligations to suspend all enrichment-related activities, and that Iran failed to notify it to the IAEA until September 2009, which is inconsistent with its obligations under the Subsidiary Arrangements to its Safeguards Agreement,

Also noting the resolution of the IAEA Board of Governors (GOV/2009/82), which urges Iran to suspend immediately construction at Qom, and to clarify the facility's purpose, chronology of design and construction, and calls upon Iran to confirm, as requested by the IAEA, that it has not taken a decision to construct, or authorize construction of, any other nuclear facility which has as yet not been declared to the IAEA,

Noting with serious concern that Iran has enriched uranium to 20 per cent, and did so without notifying the IAEA with sufficient time for it to adjust the existing safeguards procedures,

Noting with concern that Iran has taken issue with the IAEA's right to verify design information which had been provided by Iran pursuant to the modified Code 3.1, and *emphasizing* that in accordance with Article 39 of Iran's Safeguards Agreement Code 3.1 cannot be modified nor suspended unilaterally and that the IAEA's right to verify design information provided to it is a continuing right, which is not dependent on the stage of construction of, or the presence of nuclear material at, a facility,

Reiterating its determination to reinforce the authority of the IAEA, strongly supporting the role of the IAEA Board of Governors, and *commending* the IAEA for its efforts to resolve outstanding issues relating to Iran's nuclear programme,

Expressing the conviction that the suspension set out in paragraph 2 of resolution 1737 (2006) as well as full, verified Iranian compliance with the requirements set out by the IAEA Board of Governors would contribute to a diplomatic, negotiated solution that guarantees Iran's nuclear programme is for exclusively peaceful purposes,

Emphasizing the importance of political and diplomatic efforts to find a negotiated solution guaranteeing that Iran's nuclear programme is exclusively for peaceful purposes and *noting* in this regard the efforts of Turkey and Brazil towards an agreement with Iran on the Tehran Research Reactor that could serve as a confidence-building measure,

Emphasizing also, however, in the context of these efforts, the importance of Iran addressing the core issues related to its nuclear programme,

Stressing that China, France, Germany, the Russian Federation, the United Kingdom and the United States are willing to take further concrete measures on exploring an overall strategy of resolving the Iranian nuclear issue through negotiation on the basis of their June 2006 proposals (S/2006/521) and their June 2008 proposals (INFCIRC/730), and *noting* the confirmation by these countries that once the confidence of the international community in the exclusively peaceful nature of Iran's nuclear programme is restored it will be treated in the same manner as that of any Non-Nuclear Weapon State Party to the Treaty on the Non-Proliferation of Nuclear Weapons,

Welcoming the guidance issued by the Financial Action Task Force (FATF) to assist States in implementing their financial obligations under resolutions 1737 (2006) and 1803 (2008), and *recalling* in particular the need to exercise vigilance over transactions involving Iranian banks, including the Central Bank of Iran, so as to prevent such transactions contributing to proliferation-sensitive nuclear activities, or to the development of nuclear weapon delivery systems,

Recognizing that access to diverse, reliable energy is critical for sustainable growth and development, while noting the potential connection between Iran's revenues derived from its energy sector and the funding of Iran's proliferation-sensitive nuclear activities, and *further noting* that chemical process equipment and materials required for the petrochemical industry have much in common with those required for certain sensitive nuclear fuel cycle activities,

Having regard to States' rights and obligations relating to international trade,

Recalling that the law of the sea, as reflected in the United Nations Convention on the Law of the Sea (1982), sets out the legal framework applicable to ocean activities,

Calling for the ratification of the Comprehensive Nuclear-Test-Ban Treaty by Iran at an early date,

Determined to give effect to its decisions by adopting appropriate measures to persuade Iran to comply with resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008) and with the requirements of the IAEA, and also to constrain Iran's development of sensitive technologies in support of its nuclear and missile programmes, until such time as the Security Council determines that the objectives of these resolutions have been met,

Concerned by the proliferation risks presented by the Iranian nuclear programme and mindful of its primary responsibility under the Charter of the United Nations for the maintenance of international peace and security,

Stressing that nothing in this resolution compels States to take measures or actions exceeding the scope of this resolution, including the use of force or the threat of force,

Acting under Article 41 of Chapter VII of the Charter of the United Nations,

1. *Affirms* that Iran has so far failed to meet the requirements of the IAEA Board of Governors and to comply with resolutions 1696 (2006), 1737 (2006), 1747 (2007) and 1803 (2008);

2. *Affirms* that Iran shall without further delay take the steps required by the IAEA Board of Governors in its resolutions GOV/2006/14 and GOV/2009/82, which are essential to build confidence in the exclusively peaceful purpose of its nuclear programme, to resolve outstanding questions and to address the serious concerns raised by the construction of an enrichment facility at Qom in breach of its obligations to suspend all enrichment-related activities, and, in this context, *further affirms* its decision that Iran shall without delay take the steps required in paragraph 2 of resolution 1737 (2006);

3. *Reaffirms* that Iran shall cooperate fully with the IAEA on all outstanding issues, particularly those which give rise to concerns about the possible military dimensions of the Iranian nuclear programme, including by providing access without delay to all sites, equipment, persons and documents requested by the IAEA, and *stresses* the importance of ensuring that the IAEA have all necessary resources and authority for the fulfilment of its work in Iran;

4. *Requests* the Director General of the IAEA to communicate to the Security Council all his reports on the application of safeguards in Iran;

5. *Decides* that Iran shall without delay comply fully and without qualification with its IAEA Safeguards Agreement, including through the application of modified Code 3.1 of the Subsidiary Arrangement to its Safeguards Agreement, *calls upon* Iran to act strictly in accordance with the provisions of the Additional Protocol to its IAEA Safeguards Agreement that it signed on 18 December 2003, *calls upon* Iran to ratify promptly the Additional Protocol, and *reaffirms* that, in accordance with Articles 24 and 39 of Iran's Safeguards Agreement, Iran's Safeguards Agreement and its Subsidiary Arrangement, including modified Code 3.1, cannot be amended or changed unilaterally by Iran, and *notes* that there is no mechanism in the Agreement for the suspension of any of the provisions in the Subsidiary Arrangement;

6. *Reaffirms* that, in accordance with Iran's obligations under previous resolutions to suspend all reprocessing, heavy water-related and enrichment-related activities, Iran shall not begin construction on any new uranium-enrichment, reprocessing, or heavy water-related facility and shall discontinue any ongoing construction of any uranium-enrichment, reprocessing, or heavy water-related facility;

7. *Decides* that Iran shall not acquire an interest in any commercial activity in another State involving uranium mining, production or use of nuclear materials and technology as listed in INFCIRC/254/Rev.9/Part 1, in particular uranium-enrichment and reprocessing activities, all heavy-water activities or technology-related to ballistic missiles capable of delivering nuclear weapons, and *further decides* that all States shall prohibit such investment in territories under their jurisdiction by Iran, its nationals, and entities incorporated in Iran or subject to its jurisdiction, or by persons or entities acting on their behalf or at their direction, or by entities owned or controlled by them;

8. *Decides* that all States shall prevent the direct or indirect supply, sale or transfer to Iran, from or through their territories or by their nationals or individuals subject to their jurisdiction, or using their flag vessels or aircraft, and whether or not originating in their territories, of any battle tanks, armoured combat vehicles, large calibre artillery systems, combat aircraft, attack helicopters, warships, missiles or

missile systems as defined for the purpose of the United Nations Register of Conventional Arms, or related materiel, including spare parts, or items as determined by the Security Council or the Committee established pursuant to resolution 1737 (2006) (“the Committee”), *decides* further that all States shall prevent the provision to Iran by their nationals or from or through their territories of technical training, financial resources or services, advice, other services or assistance related to the supply, sale, transfer, provision, manufacture, maintenance or use of such arms and related materiel, and, in this context, *calls upon* all States to exercise vigilance and restraint over the supply, sale, transfer, provision, manufacture and use of all other arms and related materiel;

9. *Decides* that Iran shall not undertake any activity related to ballistic missiles capable of delivering nuclear weapons, including launches using ballistic missile technology, and that States shall take all necessary measures to prevent the transfer of technology or technical assistance to Iran related to such activities;

10. *Decides* that all States shall take the necessary measures to prevent the entry into or transit through their territories of individuals designated in Annex C, D and E of resolution 1737 (2006), Annex I of resolution 1747 (2007), Annex I of resolution 1803 (2008) and Annexes I and II of this resolution, or by the Security Council or the Committee pursuant to paragraph 10 of resolution 1737 (2006), except where such entry or transit is for activities directly related to the provision to Iran of items in subparagraphs 3(b)(i) and (ii) of resolution 1737 (2006) in accordance with paragraph 3 of resolution 1737 (2006), *underlines* that nothing in this paragraph shall oblige a State to refuse its own nationals entry into its territory, and *decides* that the measures imposed in this paragraph shall not apply when the Committee determines on a case-by-case basis that such travel is justified on the grounds of humanitarian need, including religious obligations, or where the Committee concludes that an exemption would otherwise further the objectives of this resolution, including where Article XV of the IAEA Statute is engaged;

11. *Decides* that the measures specified in paragraphs 12, 13, 14 and 15 of resolution 1737 (2006) shall apply also to the individuals and entities listed in Annex I of this resolution and to any individuals or entities acting on their behalf or at their direction, and to entities owned or controlled by them, including through illicit means, and to any individuals and entities determined by the Council or the Committee to have assisted designated individuals or entities in evading sanctions of, or in violating the provisions of, resolutions 1737 (2006), 1747 (2007), 1803 (2008) or this resolution;

12. *Decides* that the measures specified in paragraphs 12, 13, 14 and 15 of resolution 1737 (2006) shall apply also to the Islamic Revolutionary Guard Corps (IRGC, also known as “Army of the Guardians of the Islamic Revolution”) individuals and entities specified in Annex II, and to any individuals or entities acting on their behalf or at their direction, and to entities owned or controlled by them, including through illicit means, and *calls upon* all States to exercise vigilance over those transactions involving the IRGC that could contribute to Iran’s proliferation-sensitive nuclear activities or the development of nuclear weapon delivery systems;

13. *Decides* that for the purposes of the measures specified in paragraphs 3, 4, 5, 6 and 7 of resolution 1737 (2006), the list of items in S/2006/814 shall be superseded by the list of items in INFCIRC/254/Rev.9/Part 1 and

INFCIRC/254/Rev.7/Part 2, and any further items if the State determines that they could contribute to enrichment-related, reprocessing or heavy water-related activities or to the development of nuclear weapon delivery systems, and further *decides* that for the purposes of the measures specified in paragraphs 3, 4, 5, 6 and 7 of resolution 1737 (2006), the list of items contained in S/2006/815 shall be superseded by the list of items contained in S/2010/263;

14. *Calls upon* all States to inspect, in accordance with their national authorities and legislation and consistent with international law, in particular the law of the sea and relevant international civil aviation agreements, all cargo to and from Iran, in their territory, including seaports and airports, if the State concerned has information that provides reasonable grounds to believe the cargo contains items the supply, sale, transfer, or export of which is prohibited by paragraphs 3, 4 or 7 of resolution 1737 (2006), paragraph 5 of resolution 1747 (2007), paragraph 8 of resolution 1803 (2008) or paragraphs 8 or 9 of this resolution, for the purpose of ensuring strict implementation of those provisions;

21. *Calls upon* all States, in addition to implementing their obligations pursuant to resolutions 1737 (2006), 1747 (2007), 1803 (2008) and this resolution, to prevent the provision of financial services, including insurance or re-insurance, or the transfer to, through, or from their territory, or to or by their nationals or entities organized under their laws (including branches abroad), or persons or financial institutions in their territory, of any financial or other assets or resources if they have information that provides reasonable grounds to believe that such services, assets or resources could contribute to Iran's proliferation-sensitive nuclear activities, or the development of nuclear weapon delivery systems, including by freezing any financial or other assets or resources on their territories or that hereafter come within their territories, or that are subject to their jurisdiction or that hereafter become subject to their jurisdiction, that are related to such programmes or activities and applying enhanced monitoring to prevent all such transactions in accordance with their national authorities and legislation;

22. *Decides* that all States shall require their nationals, persons subject to their jurisdiction and firms incorporated in their territory or subject to their jurisdiction to exercise vigilance when doing business with entities incorporated in Iran or subject to Iran's jurisdiction, including those of the IRGC and IRISL, and any individuals or entities acting on their behalf or at their direction, and entities owned or controlled by them, including through illicit means, if they have information that provides reasonable grounds to believe that such business could contribute to Iran's proliferation-sensitive nuclear activities or the development of nuclear weapon delivery systems or to violations of resolutions 1737 (2006), 1747 (2007), 1803 (2008) or this resolution;

23. *Calls upon* States to take appropriate measures that prohibit in their territories the opening of new branches, subsidiaries, or representative offices of Iranian banks, and also that prohibit Iranian banks from establishing new joint ventures, taking an ownership interest in or establishing or maintaining correspondent relationships with banks in their jurisdiction to prevent the provision

of financial services if they have information that provides reasonable grounds to believe that these activities could contribute to Iran's proliferation-sensitive nuclear activities or the development of nuclear weapon delivery systems;

24. *Calls upon* States to take appropriate measures that prohibit financial institutions within their territories or under their jurisdiction from opening representative offices or subsidiaries or banking accounts in Iran if they have information that provides reasonable grounds to believe that such financial services could contribute to Iran's proliferation-sensitive nuclear activities or the development of nuclear weapon delivery systems;

25. *Deplores* the violations of the prohibitions of paragraph 5 of resolution 1747 (2007) that have been reported to the Committee since the adoption of resolution 1747 (2007), and *commends* States that have taken action to respond to these violations and report them to the Committee;

26. *Directs* the Committee to respond effectively to violations of the measures decided in resolutions 1737 (2006), 1747 (2007), 1803 (2008) and this resolution, and *recalls* that the Committee may designate individuals and entities who have assisted designated persons or entities in evading sanctions of, or in violating the provisions of, these resolutions;

27. *Decides* that the Committee shall intensify its efforts to promote the full implementation of resolutions 1737 (2006), 1747 (2007), 1803 (2008) and this resolution, including through a work programme covering compliance, investigations, outreach, dialogue, assistance and cooperation, to be submitted to the Council within forty-five days of the adoption of this resolution;

28. *Decides* that the mandate of the Committee as set out in paragraph 18 of resolution 1737 (2006), as amended by paragraph 14 of resolution 1803 (2008), shall also apply to the measures decided in this resolution, including to receive reports from States submitted pursuant to paragraph 17 above;

29. *Requests* the Secretary-General to create for an initial period of one year, in consultation with the Committee, a group of up to eight experts ("Panel of Experts"), under the direction of the Committee, to carry out the following tasks: (a) assist the Committee in carrying out its mandate as specified in paragraph 18 of resolution 1737 (2006) and paragraph 28 of this resolution; (b) gather, examine and analyse information from States, relevant United Nations bodies and other interested parties regarding the implementation of the measures decided in resolutions 1737 (2006), 1747 (2007), 1803 (2008) and this resolution, in particular incidents of non-compliance; (c) make recommendations on actions the Council, or the Committee or State, may consider to improve implementation of the relevant measures; and (d) provide to the Council an interim report on its work no later than 90 days after the Panel's appointment, and a final report to the Council no later than 30 days prior to the termination of its mandate with its findings and recommendations;
