Choice of Method.

12. (1) The calculation of the solvency at the level of the group of the authorised insurance undertakings and authorised reinsurance undertakings referred to in regulation 3(2)(a), shall be carried out:

(a) in accordance with the technical principles in regulations 13 to 26; and

(b) in accordance with method 1, unless the group supervisor has determined under Article 220(2) of the Solvency II Directive that method 2 or a combination of method 1 and method 2 shall be applied.

(4) Where the competent authority is one of the authorities responsible for the supervision of an individual insurance or reinsurance undertaking in a group and is not the group supervisor, and is of the opinion that the responsibility of the parent undertaking owning a share of the capital is strictly limited to that share of the capital, the group supervisor may nevertheless allow for the solvency deficit of the subsidiary undertaking to be taken into account on a proportional basis.

(5) Where the competent authority is the group supervisor of a group, and in the opinion of a European regulatory authority concerned the responsibility of the parent undertaking owning a share of the capital is strictly limited to that share of the capital, the competent authority may nevertheless allow for the solvency deficit of the subsidiary undertaking to be taken into account on a proportional basis.

(6) Where the competent authority is the group supervisor of a group, the authority shall, after consulting the European regulatory authority concerned and the group itself, determine the proportional share which shall be taken into account in the calculation of group solvency, in any of the following cases:

(a) where there are no capital ties between some of the undertakings in a group;

(c) where a European regulatory authority has determined that an undertaking is a parent undertaking of another because, in the opinion of that regulatory authority, it effectively exercises a dominant influence over that other undertaking.

Elimination of double use of eligible own funds.

14. (1) The own funds eligible for the Solvency Capital Requirement shall not be taken into account more than once among the different insurance or reinsurance undertakings, in a group, in the calculation of the group solvency.

(2) For the purposes of sub-regulation (1), when calculating the group solvency and where method 1 and method 2 do not provide for it, the following amounts shall be excluded:

(6) The sum of the own funds referred to in sub-regulations (3) to (5), shall not exceed the Solvency Capital Requirement of the related insurance or reinsurance undertaking.

(7) Any eligible own funds of a related insurance or reinsurance undertaking of the participating insurance or reinsurance undertaking for which the group solvency is calculated that are subject to prior authorisation from the competent authority or the relevant European regulatory authority in accordance with Article 90 of the Solvency II Directive, shall be included in the calculation only in so far as they have been duly authorised by the competent authority or the relevant European regulatory authority, responsible for the supervision of that related undertaking.

(4) Any eligible own funds of an intermediate insurance holding company or intermediate mixed financial holding company, which would require prior authorisation from the competent authority or the European regulatory authority concerned, in accordance with Article 90 of the Solvency II Directive if they were held by an authorised insurance undertaking, an authorised reinsurance undertaking, a European insurance undertaking or a European reinsurance undertaking, may be

(c) ensure that its decision in relation to a third country is not contradicting any decision taken vis-à-vis that third country previously, except where it is necessary to take into account significant changes to the supervisory regime laid down in Articles 75 to 135 of the Solvency II Directive and to the supervisory regime in the third country.

(5) Where the competent authority is one of the authorities responsible for the supervision of an individual insurance or reinsurance undertaking in a group and is not the group supervisor, and disagrees with the decision taken in accordance with sub-paragraph (2) of Article 227(2) of the Solvency II Directive, the competent authority may refer the matter to EIOPA and request its assistance in accordance with Article 19 of Regulation (EU) No 1094/2010 within three months after notification of the decision by the group supervisor.

(1) In the case referred to in regulation 3(2)(c), the competent authority shall verify whether an authorised insurance undertaking and authorised reinsurance undertaking, the parent undertaking of which has its head office in a third country is subject to supervision, by an overseas regulatory authority which is equivalent to that set out in Articles 212 to 266 of the Solvency II Directive, on the supervision at the level of the group of insurance and reinsurance undertakings referred to in Article 213(a) and (b) of the Solvency II Directive.

(2) Where no delegated act has been adopted in accordance with Articles 260(2), (3) and (5) of the Solvency II Directive, the verification referred to in sub-regulation (1), shall be carried out by the competent authority, which would be the group supervisor if the criteria set out in Article 247(2) of the Solvency II Directive were to apply (the “acting group supervisor”), at the

request of the parent undertaking or of any of the authorised insurance undertakings, authorised reinsurance undertakings, European insurance undertakings or European reinsurance undertakings, or on its own initiative.

(3) Where the competent authority, is the acting group supervisor, the authority:

(3) For the sole purpose of the group solvency calculation, the parent undertaking shall be treated as if it were an insurance or reinsurance undertaking subject to the same conditions as laid down in Articles 87 to 99 of the Solvency II Directive as regards the own funds eligible for the Solvency Capital Requirement, and to either of the following:

(a) a Solvency Capital Requirement determined in accordance with the principles of Article 226 of the Solvency II Directive where the parent undertaking is an insurance holding company or mixed financial holding company; or
