## Directors' report

The directors present their report and the audited financial statements for the year ended 31 December 2019.

### Principal activity

Virtu Finance plc (the "company") is a public liability company and is a wholly owned subsidiary of Virtu Holdings Limited. Its principal activity is to raise financial resources from capital markets to finance operations and capital projects of the Virtu Group of companies.

### Review of the business

During the year under review, the company registered a profit before tax amounting to €13,400 (2018: €7,381). After allowing for taxation, the profit for the year amounted to €8,710 (2018: €4,798).

### Financial Performance

Revenue amounting to €1,088,200 (2018: €1,095,200) is generated from a facility fee and interest charged on loans advanced to Virtu Maritime Limited. Financial costs comprise interest payable on the outstanding bond issue and amortisation of the issue costs thereof amounting to €989,117 (2018: €986,352). Administrative expenses mainly comprise directors' emoluments amounting to €45,000 (2018: €45,000) and legal and professional fees amounting to €40,683 (2018: €56,467).

The directors do not expect any significant changes in the company's activities in the short-term period and expect that the company will continue to register a surplus based on projections for the foreseeable future.

### Financial Position

The company's balance sheet is in the main made up of the 3.75% unsecured bonds in issue of €25 million and a corresponding loan amounting to €24.4 million advanced to Virtu Maritime Limited, the guarantor of this bond. The loan receivable and the bond issued during 2017 are classified in Virtu Finance plc's statement of financial position under non-current assets and non-current liabilities respectively as at 31 December 2019 and 2018. Virtu Finance plc's equity amounted to €514,682 (2018: €505,972).

### Guarantor's performance for 2019 and outlook for 2020

The financial statements of Virtu Maritime Limited, the guarantor of the bonds issued by Virtu Finance plc, show a net asset position of €82.0 million (2018: €90.4 million) for the group and €69.8 million (2018: €69.8 million) for the company as at 31 December 2019, mainly arising from the investment in subsidiaries forming part of the Virtu Maritime Group amounting to €49.6 million (2018: €49.6 million).

Virtu Maritime Limited is the holding company for the subsidiary companies forming part of the Virtu Maritime Group (the "group") and does not itself carry on any trading activities. As such, the principal activities and markets in which the Virtu Maritime Limited group operates correspond to the principal activities and markets of the group companies, whose main activities consist of a fast ferry service between Malta and Sicily, the lease of a ferry in the Strait of Gibraltar, and, as of 2019, the lease of a third ferry between the islands of Trinidad and Tobago, along with other ancillary services related to the fast ferry service.

The new catamaran 'Saint John Paul II' was delivered to Virtu Wavepiercer Limited on 6<sup>th</sup> February 2019 by shipbuilders Incat Tasmania and was awarded the prestigious notation "Significant Ship 2018" by the highly respected Royal Institute of Naval Architects. The 'Saint John Paul II' complies with the International Maritime Organisation HSC Code 2000 Rules as amended, the Malta Flag Statutory Requirements, Italian Port State Rules and EU Directive 1999/35/EC. An Open Day event to visit the vessel was held on the 10<sup>th</sup> March 2019 at which over 12,000 people attended; the vessel commenced operations the following day. The acquisition and commission of the vessel by Virtu Wavepiercer Limited was part-financed through the proceeds of Virtu Finance plc issue of €25,000,000 3.75% Unsecured Bonds 2027.

## **Directors' report** - continued

### **Guarantor's performance for 2019 and outlook for 2020** - continued

The M/V Saint John Paul II, deployed on the Malta – Sicily route which has been operated by Virtu Ferries since 1988, replaced the M/V Jean De La Valette which set sail to Cadiz, Spain on 16 March 2019 for a major dry-docking and refit. The M/V Saint John Paul II can accommodate 900 passengers and 167 cars or 23 trailers, equivalent to 490 truck lane metres thereby increasing the capacity on the Malta-Sicily route.

In 2020 M/V Saint John Paul II went on to win the coveted High Speed Ferry award in Cruise and Ferry Review's Ship of the Year awards. The Ship of the Year award was created to recognise passenger ships that showcase innovative new green technologies, impressive interior and exterior designs and unique onboard amenities and guest experiences.

On 16 May 2019 Virtu Fast Ferries Limited, a company forming part of the Virtu Maritime Group signed a BIMCO ROPAXTIME charter party agreement with the Trinidad & Tobago State-owned company, the National Infrastructure Development Company Limited, for the charter of the High-speed passenger/cargo roll-on/roll-off catamaran, the M/V Jean De La Valette.

The M/V Jean De La Valette, which throughout the charter will be operated by the Group, is deployed by the Government of Trinidad & Tobago on the domestic route connecting the main island of Trinidad to the sister island of Tobago. The charter was awarded after an international call by the Government of Trinidad & Tobago.

M/V Maria Dolores joined the Group's fleet in 2006 operating on the Malta-Sicily route. For a few months following the vessel's replacement by M/V Jean de la Valette in 2010, the M/V Maria Dolores made several rescue voyages evacuating thousands of expatriates of various nationalities and Libyan nationals from Libya to Malta and Tunisia. As from August 2012 until the disruption in world travel brought about by COVID-19 in March 2020, the M/V Maria Dolores was on time charter to a third party operating a Morocco-Spain route. Currently the vessel is safely moored in Malta and the Group is in communication with interested third party operators with a view to charter the vessel in due course.

Fuel prices are currently at manageable levels and a fuel surcharge mechanism remains in place, should the need arise. However, world fuel prices remain volatile and to this end, the Group hedged 75% of expected consumption for 2020.

### **Outlook for 2020**

Despite the emergence of the COVID-19 pandemic, the directors do not expect any significant changes in the company's activities in the short-term period and are confident that the company will be able to honour its obligations as and when they fall due, and is expected to register a surplus based on its projections for the foreseeable future. This expectation takes into account a detailed assessment prepared by the directors for baseline scenarios adopting prudent assumptions surrounding the operations of the guarantor. The assumptions factor in the expectation of significant changes in the group's level of operations over the short-term, but still indicate that the guarantor will be able to honour its obligations as and when they fall due. As from January 2021, operations of the guarantor are assumed to return to close to normal levels. The directors concur with the going concern assumption for preparation of these financial statements and do not envisage any material uncertainty in this regard. Reference should also be made to Note 1.1 and Note 17 to these financial statements.

## **Directors' report** - continued

### **Financial risk management**

The company's activities expose it to a variety of financial risks, including credit risk and liquidity risk. Reference should be made to Note 2 to these financial statements for a detailed review of how the company addresses such risks.

### **Results and dividends**

The financial results are set out in the statement of comprehensive income on page 19. The directors do not recommend the payment of a dividend. Retained profits carried forward at the reporting date amounted to €14,682 (2018: €5,972).

### **Directors**

The directors of the company who held office during the year were:

Charles Borg – Non-Executive, Independent Chairman  
Matthew Portelli – Executive Director  
Roderick Chalmers – Non-Executive, Independent Director  
Stephanie Attard Montalto – Executive Director  
Stefan Bonello Ghio – Non-Executive Director

The Board meets on a regular basis to discuss financial performance, financial position and other matters.

### **Statement of directors' responsibilities for the financial statements**

The directors are required by the Companies Act, 1995 to prepare financial statements which give a true and fair view of the state of affairs of the company as at the end of each reporting period and of the profit or loss for that period.

In preparing the financial statements, the directors are responsible for:

- ensuring that the financial statements have been drawn up in accordance with International Financial Reporting Standards as adopted by the EU;
- selecting and applying appropriate accounting policies;
- making accounting estimates that are reasonable in the circumstances;
- ensuring that the financial statements are prepared on the going concern basis unless it is inappropriate to presume that the company will continue in business as a going concern.

The directors are also responsible for designing, implementing and maintaining internal control relevant to the preparation and the fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, and that comply with the Companies Act, 1995. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements of Virtu Finance plc for the year ended 31 December 2019 may be made available on the company's website. The directors are responsible for the maintenance and integrity of the Annual Report on the website in view of their responsibility for the controls over, and the security of, the website. Access to information published on the company's website is available in other countries and jurisdictions, where legislation governing the preparation and dissemination of financial statements may differ from requirements or practice in Malta.

### **Auditors**

PricewaterhouseCoopers have indicated their willingness to continue in office and a resolution for their re-appointment will be proposed at the Annual General Meeting.

## **Directors' report - continued**

### **Statement of directors' responsibilities for the financial statements - continued**

#### **Disclosure in terms of the Listing Rules**

##### **Going concern statement pursuant to Listing Rule 5.62**

After making enquiries and having taken into consideration the future plans of the company (note 1.1), the directors have reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason, it continues to adopt the going concern basis in the preparation of the financial statements.

##### **Principal risks and uncertainties faced by the company**

The company's main objective, as a finance company for the Virtu Maritime Group of companies, is to raise funds, mainly from the capital market, to finance the operations and capital projects of the Virtu Maritime Group. In this context, the company's ability to recover loans issued to its fellow subsidiary is dependent on the performance of the companies within the group to which amounts have been advanced by the company.

The group's business activities mostly comprise a fast ferry service between Malta and Sicily, the lease of a ferry in the Strait of Gibraltar, and other ancillary services related to the fast ferry service. The group is therefore susceptible to negative local economic developments and overseas trends related to preference for commercial transport and tourists to travel by ferry.

Within this context, the directors have evaluated the risks faced by the various companies to which funds have been advanced and continue to monitor closely the impact of events as they take place in the local and global economy and how these impact the ability of the various companies within the group so as to honour their financial commitments. On the basis of this analysis, the directors are of the view that all amounts receivable by the company are recoverable.

In case of default by group companies to repay loans to Virtu Maritime Limited, Virtu Maritime Limited guarantees to pay all amounts of principal and interest due by the issuer to the bondholders which remains unpaid by the issuer.

A detailed review of the risk management policies employed by the company is included in Note 2 of these financial statements.

##### **Pursuant to Listing Rule 5.64**

##### **Appointment and Replacement of Directors**

Directors are appointed during the company's Annual General Meeting for periods of one year, at the end of which term they may stand again for re-election.

##### **Board Member Powers**

The powers of the Board members are contained in Articles 54-69 of the company's Articles of Association.

No disclosures are being made pursuant to listing Rules 5.64.3, 5.64.4, 5.64.5, 5.64.6, 5.64.7 and 5.64.10 as these are not applicable to the company.

**Directors' report - continued**

**Disclosure in terms of the Listing Rules - continued**

**Contracts with Board Members and Employees**

The company has no contract with any of its Board members that include a severance payment clause. The company had no employees during the year ended 31 December 2019 and 2018 and non-executive directors were paid €45,000 (2018: €45,000) for services rendered during the year. Each director received an annual remuneration of €15,000 (2018: €15,000). The directors receive no further monetary and non-monetary benefits from the company.

**Pursuant to Listing Rule 5.70.1**

In the normal course of the company's business, during 2017 the company advanced by way of loan, an amount of €24,400,000 to Virtu Maritime Limited, the parent company of the Virtu Maritime Group, the guarantor of the bond in issue by the company. Details of such contract is set out in note 4 to these financial statements. No further advances were made to group entities during 2018 and 2019.

**Pursuant to Listing Rule 5.68**

**Statement by the Directors on the Financial Statements and Other Information included in the Annual Report**

The directors declare that to the best of their knowledge, the financial statements included in the Annual Report are prepared in accordance with the requirements of International Financial Reporting Standards as adopted by the EU and give a true and fair view of the assets, liabilities, financial position and profit of the company and that this report includes a fair review of the development and performance of the business and position of the company, together with a description of the principal risks and uncertainties that it faces.

## **Corporate Governance - Statement of Compliance**

### **Introduction**

The Listing Rules issued by the Listing Authority of the Malta Financial Services Authority, require listed companies to observe The Code of Principles of Good Corporate Governance (the "Code"). Although the adoption of the Code is not obligatory, Listed Companies are required to include, in their Annual Report, a Directors' Statement of Compliance which deals with the extent to which the company has adopted the Code of Principles of Good Corporate Governance and the effective measures that the company has taken to ensure compliance with the Code, accompanied by a report of the auditors thereon.

### **Compliance**

Since its incorporation, the company's principal activity was to raise funds mainly from the capital market to finance the operations and capital projects of the Virtu Maritime Group.

In deciding on the most appropriate manner in which to implement the Principles, the Board of Virtu Finance plc (the "Board") has taken cognisance of its size, which inevitably impacts on the structures required to implement the Principles without diluting the effectiveness thereof. The company does not have any employees. Accordingly, some of the provisions of the Code are not applicable whilst others are applicable to a limited extent.

### **Roles and responsibilities**

The Board of Directors is responsible for devising a strategy, setting policies and the management of the company. It is also responsible for reviewing internal control procedures, financial performance and business risks facing the company. The Board is also responsible for decisions relating to the redemption of the Bond and for monitoring that its operations are in conformity with the Prospectus and all relevant rules and regulations.

Throughout the year under review, the Board regularly reviewed management performance. The company has in place systems whereby the directors obtain timely information from the Virtu Maritime Group of companies Chairman, not only at meetings of the Board but at regular intervals or when the need arises.

### **Complement of the Board of Directors**

The Board is composed of two executive and three non-executive directors, as listed below. The directors are the same as those at the date of incorporation of the company.

#### **Executive Directors**

Matthew Portelli  
Stephanie Attard Montalto

#### **Non-Executive Directors**

Charles Borg  
Roderick Chalmers  
Stefan Bonello Ghio

## Corporate Governance - Statement of Compliance - continued

### Non-Executive Directors - continued

Charles Borg, Stefan Bonello Ghio and Roderick Chalmers hold non-executive positions with Virtu Maritime Limited, being a subsidiary of Virtu Holdings Limited and the Guarantor of Virtu Finance plc. Matthew Portelli and Stephanie Attard Montalto are executive directors on Virtu Holdings Ltd and on other subsidiary companies of Virtu Holdings Limited. For the purpose of the provisions of the Code, the Board considers Charles Borg and Roderick Chalmers as independent.

Directors are appointed during the company's Annual General Meeting for periods of one year, at the end of which term they may stand again for re-election. The Articles of Association of the company clearly set out the procedures to be followed for the appointment of directors.

### Internal Control

The Board is responsible for the company's system of internal controls and for reviewing its effectiveness. Such a system is designed to achieve business objectives and to manage rather than to eliminate the risk of failure to achieve business objectives and can only provide reasonable assurance against material error, losses or fraud.

Systems and procedures are in place for the company to control, report, monitor and assess risks and their financial implications, and to take timely corrective actions where necessary. Regular financial budgets and strategic plans are prepared, and performance against these plans is actively monitored and reported to the directors on a regular basis.

The approval of credit to customers is made by the Group Financial Controller, in strict adherence to a Board-approved limit. Proposals falling outside the limit are referred, together with the supporting documentation and the Financial Controller's recommendations, to the Board. The Board also approves, after review and recommendation by the Audit Committee, the transfer of funds and other amounts payable to companies within the same group and ensures that these are subject to terms and conditions which are on an arm's length basis.

### Directors' Attendance at Board Meetings

The Board believes that it has systems in place to fully comply with the principles of the Code. Directors meet regularly, mainly to review the financial performance of the company and to review internal control processes. Board members are notified of forthcoming meetings by the company Secretary with the issue of an agenda and supporting Board papers, which are circulated well in advance of the meeting. All the directors have access to independent professional advice at the company's expense should they so require.

The Board met formally five times during the year under review. The number of board meetings attended by directors for the year ended 31 December 2019 is as follows:

<b>Members</b>	<b>Attended</b>
Matthew Portelli	5
Stephanie Attard Montalto	5
Roderick Chalmers	5
Charles Borg	5
Stefan Bonello Ghio	5

## **Corporate Governance - Statement of Compliance** - continued

### **Committees**

The directors believe that, due to the company's size and operation, the remuneration, evaluation and nominations committees that are suggested in the Code are not required, and that the function of these can efficiently be undertaken by the Board itself. However, the Board on an annual basis undertakes a review of the remuneration paid to the directors and carries out an evaluation of their performance and that of the Audit Committee. The shareholders approve the remuneration paid to the directors at the annual general meeting.

### **Audit Committee**

The Board established an Audit Committee (the "Committee") and has formally set out Terms of Reference as outlined in the Principles laid out in the Listing Rules. The purpose of the Committee is to protect the interest of the company's shareholders, bond holders, and assist the directors in conducting their role effectively. The Audit Committee also monitors the financial reporting process, the effectiveness of internal control and the audit of the annual financial statements. Additionally, it is responsible for monitoring the performance of the entities borrowing funds from the company, to ensure that budgets are achieved and if not, that corrective action is taken as necessary. It also scrutinises and supervises related party transactions for materiality and ensures that these are carried out at arm's length basis. By a letter dated 30<sup>th</sup> October 2017, the Listing Authority considered the Terms of Reference as having sufficient safeguards to ensure the independence of the Audit Committee.

### **The Members of the Audit Committee are:**

Roderick Chalmers - Chairman of the Audit Committee, Non-Executive, Independent Director  
Charles Borg - Non-Executive, Independent Director  
Stefan Bonello Ghio - Non-Executive Director

Mr Roderick Chalmers and Mr Stefan Bonello Ghio are Certified Public Accountants, whilst Mr Charles Borg holds a banking degree and a Masters degree in financial legislation.

The Committee met four times during the year ended 31 December 2019.

### **Remuneration Statement**

In terms of the company's Memorandum and Articles of Association, it is the shareholders of the company in the General Meeting who determine the maximum annual aggregate remuneration of the directors. The aggregate amount approved and paid to directors for this purpose during the year was €45,000.

None of the directors is employed or has a service contract with the company.

No part of the remuneration paid to the directors is performance based. None of the directors, in their capacity as a Director of the company, is entitled to profit sharing, share options or pension benefits.

**Corporate Governance - Statement of Compliance - continued**

**Relations with bondholders and the market**

The company publishes interim and annual financial statements and, when required, company announcements. The Board feels these provide the market with adequate information about its activities.

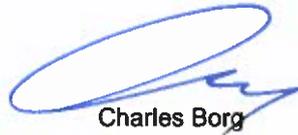

**Conflicts of Interest**

On joining the Board and regularly thereafter, directors and officers of the company are informed and reminded of their obligations on dealing in securities of the company within the parameters of law and Listing Rules. The company has also set reporting procedures in line with the Listing Rules, Code of Principles, and internal code of dealing.

Signed on behalf of the Board of Directors on 28 April 2020 by:

Roderick Chalmers  
Chairman of the Audit Committee

Charles Borg  
Chairman of the Board

## *Independent auditor's report*

To the Shareholders of Virtu Finance plc

### *Report on the audit of the financial statements*

---

#### *Our opinion*

In our opinion:

- Virtu Finance plc's financial statements give a true and fair view of the company's financial position as at 31 December 2019, and of the company's financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards ('IFRSs') as adopted by the EU; and
- The financial statements have been prepared in accordance with the requirements of the Maltese Companies Act (Cap. 386).

Our opinion is consistent with our additional report to the Audit Committee.

#### **What we have audited**

Virtu Finance plc's financial statements, set out on pages 18 to 37, comprise:

- the statement of financial position as at 31 December 2019;
- the statement of comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

---

#### *Basis for opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## *Independent auditor's report - continued*

To the Shareholders of Virtu Finance plc

### **Independence**

We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements of the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) that are relevant to our audit of the financial statements in Malta. We have fulfilled our other ethical responsibilities in accordance with these codes.

To the best of our knowledge and belief, we declare that non-audit services that we have provided to the company are in accordance with the applicable law and regulations in Malta and that we have not provided non-audit services that are prohibited under Article 18A of the Accountancy Profession Act (Cap. 281).

The non-audit services that we have provided to the company, in the period from 1 January 2019 to 31 December 2019, are disclosed in Note 12 to the financial statements.

---

### *Emphasis of matter*

We draw attention to note 1.1 to these financial statements that refers to the uncertainties associated with COVID-19. This matter is considered to be of fundamental importance to the users' understanding of the financial statements due to its nature and significance. Our opinion is not modified in respect of this matter.

---

### *Our audit approach*

#### **Overview**

Overall materiality: €252,000, which represents 1% of total assets.

---

Recoverability of group balances

---

## *Independent auditor's report - continued*

To the Shareholders of Virtu Finance plc

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we considered where the directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which the company operates.

### **Materiality**

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall materiality for the financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

<i><b>Overall materiality</b></i>	€252,000
<i><b>How we determined it</b></i>	1% of total assets
<i><b>Rationale for the materiality benchmark applied</b></i>	We chose total assets as the benchmark because, in our view, it is an appropriate measure for an entity which does not operate and that includes significant balances of assets and liabilities. We chose 1% which is within the range of quantitative materiality thresholds that we consider acceptable.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above €12,580 as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

## Independent auditor's report - continued

To the Shareholders of Virtu Finance plc

### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the Key audit matter
<p><i>Recoverability of group balances</i></p> <p>Loans and receivables include funds advanced to Virtu Maritime Limited for the financing of the acquisition of a Fast Ferry by one of the subsidiaries of the Group. The loan bears interest at 4.05% and is repayable over the period to 2027 to enable Virtu Finance plc to repay the bond issued during 2017 which was obtained to finance the loan to the Group. Virtu Maritime Limited acts as the guarantor for the said bond.</p> <p>Loan balances due to the company from the Virtu Maritime Limited as at 31 December 2019 amounted to €24.4m. Management assesses recoverability of the loan by reference to the expected future cash flows of the Virtu Maritime Group.</p> <p>The loans are the principal asset of the company, which is why we have given additional attention to this area.</p> <p>Refer to Note 4 in these financial statements for further details covering loans recoverable from group companies.</p>	<p>We have agreed the terms surrounding the loans to supporting loan agreements.</p> <p>We evaluated the suitability and appropriateness of the methodology of the cash flow model of the Virtu Maritime Group to assess the recoverability of the loan.</p> <p>We checked the calculations used in the model for accuracy and the key inputs in the model were agreed to approved sources.</p> <p>Management's cash flow forecasts used in the model were assessed by:</p> <ul style="list-style-type: none"><li>- testing that the forecasts agreed to the most recent business plan which had been approved by the Board of Directors of the Virtu Maritime Group; and</li><li>- considering current year Group's performance against the plan and the reasons for any deviation also through discussion with management.</li></ul> <p>We also challenged the revenue growth assumptions and developments in the world economy after year-end, specifically the impact that the COVID-19 pandemic may have on the assumptions.</p> <p>Based on evidence and explanations obtained, we concur with management's view with respect to the reasonability of conclusions surrounding recoverability of this loan.</p> <p>The appropriateness of disclosures made in the financial statements in relation to loans and receivables from group companies was also reviewed.</p>

## *Independent auditor's report - continued*

To the Shareholders of Virtu Finance plc

---

### *Other information*

The directors are responsible for the other information. The other information comprises of the Directors' report (but does not include the financial statements and our auditor's report thereon).

Our opinion on the financial statements does not cover the other information, including the directors' report.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the directors' report, we also considered whether the directors' report includes the disclosures required by Article 177 of the Maltese Companies Act (Cap. 386).

Based on the work we have performed, in our opinion:

- The information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with the Maltese Companies Act (Cap. 386).

In addition, in light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we are required to report if we have identified material misstatements in the directors' report and other information that we obtained prior to the date of this auditor's report. We have nothing to report in this regard.

---

### *Responsibilities of the directors and those charged with governance for the financial statements*

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs as adopted by the EU and the requirements of the Maltese Companies Act (Cap. 386), and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the company's financial reporting process.

## *Independent auditor's report - continued*

To the Shareholders of Virtu Finance plc

---

### *Auditor's responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern. In particular, it is difficult to evaluate all of the potential implications that COVID-19 will have on the company's business and the overall economy.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## *Independent auditor's report - continued*

To the Shareholders of Virtu Finance plc

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### *Report on other legal and regulatory requirements*

#### *Report on the statement of compliance with the Principles of Good Corporate Governance*

The Listing Rules issued by the Malta Listing Authority require the directors to prepare and include in their Annual Report a Statement of Compliance providing an explanation of the extent to which they have adopted the Code of Principles of Good Corporate Governance and the effective measures that they have taken to ensure compliance throughout the accounting period with those Principles.

The Listing Rules also require the auditor to include a report on the Statement of Compliance prepared by the directors.

We read the Statement of Compliance and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements included in the Annual Report. Our responsibilities do not extend to considering whether this statement is consistent with any other information included in the Annual Report.

We are not required to, and we do not, consider whether the Board's statements on internal control included in the Statement of Compliance cover all risks and controls, or form an opinion on the effectiveness of the company's corporate governance procedures or its risk and control procedures.

In our opinion, the Statement of Compliance set out on pages 6 to 9 has been properly prepared in accordance with the requirements of the Listing Rules issued by the Malta Listing Authority.

## *Independent auditor's report - continued*

To the Shareholders of Virtu Finance plc

---

### *Other matters on which we are required to report by exception*

We also have responsibilities:

- under the Maltese Companies Act (Cap. 386) to report to you if, in our opinion:
  - Adequate accounting records have not been kept, or that returns adequate for our audit have not been received from branches not visited by us.
  - The financial statements are not in agreement with the accounting records and returns.
  - We have not received all the information and explanations we require for our audit.
- under the Listing Rules to review the statement made by the directors that the business is a going concern together with supporting assumptions or qualifications as necessary.

We have nothing to report to you in respect of these responsibilities.

---

### *Appointment*

We were first appointed as auditors of the company for the period ended 31 December 2017. Our appointment has been renewed annually by shareholder resolution representing a total period of uninterrupted engagement appointment of 3 years. The company became listed on a regulated market on 7 December 2017.

## Notes to the financial statements

### 1. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the year presented, unless otherwise stated.

#### 1.1 Basis of preparation

These financial statements have been prepared in accordance with the requirements of International Financial Reporting Standards (IFRSs) as adopted by the EU and with the requirements of the Maltese Companies Act, 1995. The financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRSs as adopted by the EU requires the use of certain accounting estimates. It also requires directors to exercise their judgment in the process of applying the company's accounting policies (see Note 3 – Critical accounting estimates and judgments).

#### *Standards, interpretations and amendments to published standards effective in 2019*

In 2019, the company adopted new standards, amendments and interpretations to existing standards that are mandatory for the company's accounting period beginning on 1 January 2019. The adoption of these revisions to the requirements of IFRSs as adopted by the EU did not result in substantial changes to the company's accounting policies impacting the company's financial performance and position.

#### *Standards, interpretations and amendments to published standards that are not yet effective*

Certain new standards, amendments and interpretations to existing standards have been published by the date of authorisation for issue of these financial statements that are mandatory for the company's accounting periods beginning after 1 January 2019. The company has not early adopted these revisions to the requirements of IFRSs as adopted by the EU and the company's directors are of the opinion that, with the exception of the below pronouncements, there are no requirements that will have a possible significant impact on the company's financial statements in the period of initial application.

#### *Going concern*

The company's principal activity is to act as a finance company for the Virtu Maritime Group of companies and to effectively and efficiently manage the financing requirements of the Group's new fast ferry. In this context, the company's ability to recover loans issued to its fellow subsidiary is dependent on the performance of the companies within the Group to which amounts have been advanced by the company.

2020 saw the spread of the Coronavirus COVID-19 from the epicentre of the outbreak in Wuhan, China to the rest of the world leading to the World Health Organisation (WHO) declaring the disease a pandemic on 11 March 2020. This coincided with the lockdown imposed by the Italian Government on all regions in Italy, including Sicily, and restrictions on travel to and from Italy and Sicily imposed by the Government of Malta. Shortly thereafter, Malta-Sicily ferry operations were restricted to the carriage of freight and authorised repatriations. On 12 March 2020, following the national lockdown in Spain, the operations of M/V Maria Dolores on the route between Tarifa, Spain and Tangier Ville, Morocco were suspended. As a result, following discussions with the charterer of the vessel, the charter party agreement previously in place was terminated on 17 March 2020 and the vessel sailed to Malta. The vessel is now safely moored alongside deep-water quay. The Virtu Maritime Group is in receipt of enquiries from third party operators potentially interested in chartering the vessel and discussions have commenced with a view to her resuming operation at the opportune moment.

**1. Summary of significant accounting policies - continued**

**1.1 Basis of preparation - continued**

*Going concern - continued*

On the other hand, the charterer of the high-speed passenger/cargo roll-on/roll-off catamaran ferry M/V Jean De La Valette, operating on the domestic route connecting the main island of Trinidad to the sister island of Tobago has exercised the option to extend the term of its charter party agreement by a further six months through to the end of 2020.

The Virtu Maritime Group has since the outbreak of the pandemic given, and will continue to give, priority to the health and safety of all of its passengers and crew, and has abided by and will continue to abide by all directives issued by the competent authorities in the interest of the general public. Furthermore, to the best of its abilities, the Group remains dedicated to providing an ongoing transportation services for the delivery of vital food and other essentials to our nation.

As the Group confronts the unprecedented challenges brought about by the global pandemic, it has taken all available measures to contain and manage the financial impact on the Group. Companies within the Group have applied for such fiscal assistance as is available under the programmes announced by government, and, as a precautionary cash conservation measure, the Group has applied for a temporary capital moratorium on bank loans. Other operational efficiency and cost containment initiatives have also been implemented. Based on its assessment of the current position and the mitigation measures being taken, the Virtu Maritime Board believes that the Group and the Company have adequate resources to continue in operation for the foreseeable future.

After making due enquiry and using the best judgment available at the time of approving these financial statements, an impact assessment has been carried out by the Virtu Maritime Board, including a review of a baseline scenario entailing prudent assumptions for assessing both profitability and liquidity. The respective assumptions factor in reduced levels of operation for the Malta-Sicily line and certain assumptions concerning the rates, timing and duration of charters relating to the M/V Maria Dolores and the M/V Jean de La Valette. The projections also take into account bank facilities currently available to the Group. Based on this review and the measures taken as indicated above, the Board expects that the Group will be able to sustain its operations over the next twelve months, and to meet its obligations as and when they fall due. Accordingly, for these reasons the Virtu Maritime Board has concluded that there is no material uncertainty and it remains appropriate to adopt the going concern basis in the preparation of the Virtu Maritime Group financial statements.

In preparing these financial statements the directors of the Virtu Finance Plc have made reference to the impact assessment referred to above. Based on the foregoing, the directors believe that there is no material uncertainty around going concern and thus that it remains appropriate to prepare these financial statements on a going concern basis.

**1.2 Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments has been identified as the board of directors that makes strategic decisions. The board of directors considers the company to be made up of one segment, which is raising financial resources from capital markets to finance the group's working capital and other capital projects. The company's main revenue and expenses are generated in Malta and Sicily and revenue is mainly earned from other companies forming part of the Virtu Maritime Group of companies.

## 1. Summary of significant accounting policies - continued

### 1.3 Foreign currency translation

#### Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The euro is the company's functional and presentation currency.

### 1.4 Financial assets

The comparative information provided continues to be accounted for in accordance with the company's previous years accounting policy.

#### Classification

The company classifies its financial assets as financial assets measured at amortised cost. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. The company classifies its financial assets as at amortised cost only if both the following criteria are met:

- The asset is held within a business model whose objective is to collect the contractual cash flows, and;
- The contractual terms give rise to cash flows that are solely payments of principal and interest.

#### *Assessment whether contractual cash flows are solely payments of principal and interest*

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

#### Recognition and measurement

Regular way purchases and sales of financial assets are recognised on the trade date, which is the date on which the company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the company has transferred substantially all the risks and rewards of ownership.

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset.

Interest income on debt instruments measured at amortised cost from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition of these instruments is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as a separate line item in the statement of comprehensive income.

**1. Summary of significant accounting policies - continued**

**1.4 Financial assets - continued**

**Impairment**

The company assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The company's financial assets are subject to the expected credit loss model.

*Expected credit loss model*

The company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the company considers reasonable and supportable information that is relevant and available without undue cost or effort. The company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due, and it considers a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the company in full, without recourse by the company to actions such as realising security (if any is held); or the financial asset is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the company is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls. ECLs are discounted at the effective interest rate of the financial asset.

**1. Summary of significant accounting policies - continued**

**1.4 Financial assets - continued**

**Impairment - continued**

*Expected credit loss model - continued*

At each reporting date, the company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data such as significant financial difficulty of the borrower or issuer, or a breach of contract such as a default or being more than 90 days past due.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

*Simplified approach model*

For trade receivables, the company applies the simplified approach required by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

The expected loss rates are based on the payment profiles of sales over a period of 12 months before 31 December 2019 or 1 January 2019, respectively, and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the liability of the customers to settle the receivable. Trade receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, among others, the probability of insolvency or significant financial difficulties of the debtor. Impaired debts are derecognised when they are assessed as uncollectible.

**1.5 Trade and other receivables**

Trade receivables comprise amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Details about the company's impairment policies and the calculation of loss allowance are provided in Note 1.4.

**1.6 Current and deferred tax**

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

**1. Summary of significant accounting policies - continued**

**1.6 Current and deferred tax - continued**

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

**1.7 Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares are shown in equity as a deduction, net of tax, from the proceeds.

**1.8 Financial liabilities**

The company recognises a financial liability in its statement of financial position when it becomes a party to the contractual provisions of the instrument. The company's financial liabilities are classified as financial liabilities which are not at fair value through profit or loss (classified as 'Other liabilities'). These financial liabilities are recognised initially at fair value, being the fair value of consideration received, net of transaction costs that are directly attributable to the acquisition or the issue of the financial liability. These liabilities are subsequently measured at amortised cost. The company derecognises a financial liability from its statement of financial position when the obligation specified in the contract or arrangement is discharged, is cancelled or expires.

**1.9 Borrowings**

Borrowings are recognised initially at the fair value of proceeds received, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method. Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period.

Issue costs incurred in connection with the issue of the bonds include professional fees, publicity, printing, listing, registration, underwriting, management fees, selling costs and other miscellaneous costs.

**1. Summary of significant accounting policies - continued**

**1.10 Trade and other payables**

Trade payables comprise obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

**1.11 Provisions**

Provisions for legal claims are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

**1.12 Revenue recognition**

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the company's activities. The company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and when specific criteria have been met for each of the company's activities as described below.

*(a) Interest income*

Interest income is recognised for all interest-bearing instruments using the effective interest method.

*(b) Management fee income*

Management fee income is recognised in the period to which such management services relate.

*(c) Dividend income*

Dividend income is recognised when the right to receive payment is established.

**1.13 Dividend distribution**

Dividend distribution to the company's shareholders is recognised as a liability in the company's financial statements in the period in which the dividends are approved by the company's shareholders.

**1.14 Earnings per share**

The company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the period.

## 2. Financial risk management

### 2.1 Financial risk factors

The company constitutes a financing special purpose vehicle whose bonds are matched by equivalent amounts due from, and guaranteed by, Virtu Maritime Limited (a fellow subsidiary). The company's principal risk exposures relate to credit risk and liquidity risk. The company is not exposed to currency risk and the directors deem interest rate risk exposure to be minimal due to matching of its interest costs on borrowings with finance income from its loans and receivables referred to above.

#### (a) Credit risk

Credit risk arises from loans receivable from Virtu Maritime Limited (Note 4).

The company measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management consider both historical analysis and forward-looking information in determining any expected credit loss.

The company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date, as summarised below. The company's exposures to credit risk as at the end of the reporting periods are analysed as follows:

Financial assets measured at amortised cost	2019	2018
	€	€
Loans receivable from fellow subsidiary (Note 4)	24,400,000	24,400,000
Other receivables from group companies (Note 5)	738,074	687,705
Cash and cash equivalents (Note 6)	7,906	89,486
	<b>25,145,980</b>	<b>25,177,191</b>

The maximum exposure to credit risk at the end of the reporting period in respect of the financial assets mentioned above is equivalent to their carrying amount as disclosed in the respective notes to the financial statements. The company does not hold collateral as security on its loans receivable.

The company applies the low credit risk simplification for all instruments that are externally rated at a rating of BBB- (or equivalent) or better; and the ECL provision for these instruments is accordingly measured at an amount equivalent to the 12-month ECLs. The company thus applies the simplification for its bank deposits.

As disclosed in Note 4, Virtu Maritime Limited has issued corporate guarantees with respect to the company's bonds. These borrowings have been loaned to Virtu Maritime Limited through the issue of the company's loans and receivables. Credit risk with respect to this receivable is limited since there were no indications that Virtu Maritime Group is unable to meet its obligations. The company applies the credit risk management policies described above; no losses have historically been incurred on any of the company's balances, and management has determined that there has not been a significant increase in credit risk since origination. The ECL provision for this instrument is accordingly also measured at an amount equivalent to the 12-month ECLs.

The company's management has also determined that the macroeconomic situation of the Group and the duration of the receivable is not changing, accordingly even after considering the macroeconomic overlay onto the expectations of credit losses, the resulting impairment allowance is immaterial to the company's financial position and results.

## 2. Financial risk management - continued

### 2.1 Financial risk factors - continued

#### (a) Credit risk - continued

At 31 December 2019, cash and cash equivalents are held with a local financial institution with a credit rating of BBB- (2018: BBB), and balances are callable on demand or within a maximum period of one week. Management consider the probability of default to be close to zero as the counterparty has a strong capacity to meet its contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month ECL as any such impairment would be wholly insignificant to the company.

#### (b) Liquidity risk

The company is exposed to liquidity risk arising primarily from its ability to satisfy liability commitments depending on cash inflows receivable in turn from the Virtu Maritime Group.

Management monitors liquidity risk by means of cash flow forecasts on the basis of expected cash flows over a twelve month period to ensure that no additional financing facilities are expected to be required over the coming year. This process is performed through a rigorous assessment of detailed cash flow projections of the fellow subsidiary where matching of cash inflows and outflows arising from expected maturities of financial instruments are assessed on an annual basis.

The carrying amounts of the company's assets and liabilities are analysed into relevant maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date in the respective notes to the financial statements.

The company is exposed to liquidity risk in relation to meeting future obligations associated with its financial liabilities, which comprise principally interest-bearing borrowings and trade and other payables (refer to Notes 8 and 9). Prudent liquidity risk management includes maintaining sufficient cash to ensure the availability of an adequate amount of funding to meet the company's obligations and ensuring that alternative funding is available when the bonds are due for repayment.

The following table analyses the company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the tables below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Carrying amount €	Contractual cash flows €	Due within one year €	Between 1 and 5 Years €	Over 5 years €
<b>31 December 2019</b>					
Unsecured bond	24,510,624	32,500,000	937,500	3,750,000	27,812,500
Trade and other payables	136,499	136,499	136,499	-	-

**2. Financial risk management - continued**

**2.2 Capital risk management**

The company's bonds are guaranteed by Virtu Maritime Limited (a fellow subsidiary). Related finance costs are also guaranteed by this fellow subsidiary. The capital management of the company therefore consists of a process of regularly monitoring the financial position of the guarantor (Note 2.1).

**2.3 Fair values of financial instruments**

At 31 December 2019 the carrying amounts of receivables (net of impairment provisions if any) and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the company for similar financial instruments.

As at the end of the reporting period, the fair values of financial assets and liabilities, approximate the carrying amounts shown in the statement of financial position.

The fair value of non-current financial instruments for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the company for similar financial instruments. The fair value of the company's non-current trade and other payables at the end of the reporting period is not significantly different from the carrying amounts.

**3. Critical accounting estimates and judgments**

Estimates and judgments are continually evaluated and based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. In the opinion of the directors, the accounting estimates and judgments made in the course of preparing these financial statements are not difficult, subjective or complex to a degree which would warrant their description as critical in terms of the requirements of IAS 1.

**4. Loans and receivables**

	2019	2018
	€	€
<b>Non-current</b>		
Loan to fellow subsidiary	24,400,000	24,400,000

Loans receivable reflect the transfer of funds to Virtu Maritime Limited (a fellow subsidiary), generated by the company from the issue of bonds (Note 8).

The proceeds from the issue of the bond are loaned to Virtu Maritime Limited to be advanced to Virtu Wavepiercer Limited, solely for purposes of the part-financing of the acquisition of the vessel acquired by the latter company. The loan to subsidiary is repayable over the period to 2027, bears interest at 4.05% payable on the 1 September of each year.

Virtue Maritime Limited acts as a guarantor for the bond issue of the company.

**5. Trade and other receivables**

	2019 €	2018 €
<b>Current</b>		
Amounts due by parent	738,074	534,430
Amounts due by fellow subsidiary	-	153,275
Prepayments	19,882	4,702
	757,956	692,407

Amounts due by parent and fellow subsidiary are unsecured, interest free and repayable on demand.

**6. Cash and cash equivalents**

For the purposes of the statement of cash flows, cash and cash equivalents comprise the following:

	2019 €	2018 €
Cash at bank and other intermediaries	7,906	89,486
	7,906	89,486

**7. Share capital**

	2019 €	2018 €
<b>Authorised</b>		
500,000 ordinary shares of €1 each	500,000	500,000
<b>Issued and fully paid</b>		
500,000 ordinary shares of €1 each	500,000	500,000

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the company. All shares rank equally with regard to the company's residual assets.

**8. Borrowings**

Issue costs	<b>(594,802)</b>	(594,802)
Amortisation for the year	<b>105,426</b>	53,809
Closing net book amount	<b>(489,376)</b>	(540,993)
Amortised cost and closing carrying amount	<b>24,510,624</b>	24,459,007

This note provides information about the contractual terms of the company's borrowings. For more information about the company's exposure to interest rate and liquidity risk, refer to Note 2.

By virtue of an offering memorandum dated 30 October 2017, the company issued €25,000,000 bonds with a face value of €100 each. Interest on the 3.75% 2027 Bonds is payable annually in arrears, on 30 November of each year. The bonds are redeemable at par and are due for redemption on 30 November 2027. The bonds are guaranteed by Virtu Maritime Limited, which has bound itself jointly and severally liable for the repayment of the bonds and interest thereon, pursuant to and subject to the terms and conditions in the offering memorandum. The bonds were admitted on the Official List of the Malta Stock Exchange on 7 December 2017. The quoted market price as at 31 December 2019 for the bonds was €104.60 (2018: €103.25).

**9. Trade and other payables**

	2019 €	2018 €
<b>Current</b>		
Interest payable on bonds	<b>79,623</b>	79,623
Other payables	<b>24,839</b>	120,548
Accruals	<b>32,037</b>	14,160
	<b>136,499</b>	214,331

Other payables are unsecured, interest free and repayable on demand.

**10. Interest and other related income**

	2019 €	2018 €
Interest on loans due from fellow subsidiary	988,200	988,200
Facility fee due from fellow subsidiary	100,000	107,000
	1,088,200	1,095,200

During the year all revenue was derived from the company's fellow subsidiary.

**11. Interest payable and similar charges**

	2019 €	2018 €
Interest payable on bonds	937,500	937,500

Finance costs	79,623	79,623
Changes in working capital:		
Trade and other receivables	(65,549)	(1,491)
Trade and other payables	(157,455)	(44,247)
Cash (used in)/generated from operations	(78,364)	90,118

## 17. Events after the reporting period

In view of the current situation brought about by the COVID-19 pandemic, the company assessed the potential non-fulfilment of its obligations under the relative loan agreement by the borrower, Virtu Maritime Limited.

As set out in detail in note 1.1 above, the borrower has taken all available measures to protect the long-term sustainability of its operations, and it has been concluded by management that the borrower is well-positioned to honour its financial obligations to the company as and when they fall due over the next 12 months and in the foreseeable future.

Accordingly, the directors do not envisage any material uncertainty and the company is expected to have sufficient funds to meet its own financial obligations as and when they fall due.

The Board shall continue to attentively monitor ongoing developments and remains committed to take all appropriate steps to mitigate any potential negative impact that might arise as consequence of the pandemic. To this effect the board of directors have concluded that the borrower company group will have adequate resources, including, if required, access to existing bank facilities to enable it to continue in operation over the foreseeable future as a going concern.

## 18. Related parties

The companies forming part of the Virtu Group of Companies are considered by the directors to be related parties as these companies are ultimately owned by the Virtu Holdings Ltd.

The company is a subsidiary of Virtu Holdings Limited, the ultimate parent company of the Virtu Group. The registered office of both companies is situated at Virtu, Ta' Xbiex Terrace Ta' Xbiex Malta.

The main related party with whom transactions are entered into is Virtu Maritime Limited, the guarantor of the borrowings (Note 8).

The following are the principal transactions that were carried out with related parties:

	2019	2018
	€	€
<b>Income from goods and services</b>		
Finance income from fellow subsidiary (Note 10)	<b>988,200</b>	988,200
Facility fee from fellow subsidiary (Note 10)	<b>100,000</b>	107,000

Key management personnel compensation, consisting of directors' remuneration, has been disclosed in Note 13 to the financial statements.

Year end balances arising from related party transactions are disclosed in Notes 4 and 5 to the financial statements.

**19. Statutory information**
