i. **Innovation**
   The Sandbox will provide for a regulatory environment allowing technologically enabled financial innovation - new business models, applications, processes or products - to operate within the financial services market.

ii. **Sustainability**
   Through close dialogue, the MFSA will be monitoring Participants to observe whether their innovations truly offer value to the consumer and the wider financial services sector, whilst ensuring consumer/investor protection, market integrity and financial soundness.

iii. **Certainty**
    The Sandbox will enhance legal certainty within the financial services market as it provides both the Participants and the MFSA with the space to determine the appropriate requirements under the applicable regulatory frameworks.

iv. **Knowledge**
    Through collaboration with Participants, the Authority will have the opportunity to enhance its capacity in assessing the regulatory implications and gaps of such Solutions, and identify the appropriate response, as necessary.
Title 3  Scope and Applicability

R3-3.1  The Sandbox will be applicable to all FinTech Service Providers and FinTech Suppliers:

Provided that the Authority shall also consider other applicants, in terms of R3-4.4.1.5, within the framework of the Sandbox, which do not clearly fall within the scope of any financial services legislation currently in force in Malta.

R3-3.2  For participation in the Sandbox, the Sandbox Applicant shall first satisfy all the following Sandbox eligibility criteria in relation to the Solution. Accordingly, the Sandbox Applicant shall demonstrate, to the satisfaction of the Authority, that:

   i. **Innovation**
      The Solution shall be (i) technology-enabled and (ii) innovative, resulting in new business models, applications, processes or products within the financial services sector;

   ii. **Need**
      There exists a genuine need and objective for testing the Solution within a controlled environment in order to identify any inherent regulatory gaps, challenges and risks;

   iii. **Benefit**
      The Solution shall offer identifiable direct or indirect benefit/s to consumers of financial services and the wider financial services sector; and

   iv. **Readiness**
      The Solution is ready for testing within the Sandbox and that the Applicant shall have adequate resources to operate throughout the duration of the Sandbox.
