INTRODUCTION

The Retirement Pensions Act, 2011

The Retirement Pensions Act, (“the Act”), provides a statutory basis for the regulation in Malta of Retirement Schemes, Retirement Funds and related Service Providers:-

- *Retirement Schemes:* A Retirement Scheme may be an Occupational Retirement Scheme or a Personal Retirement Scheme established for the principal purpose of providing Retirement Benefits.

The Act makes it illegal for a retirement scheme located in Malta to carry on any activity for the provision of Retirement Benefits in or from within Malta, or for any person to accept money or other consideration from a Contributor with respect to a retirement scheme carrying on any activity for the provision of Retirement Benefits in or from within Malta unless such retirement scheme is duly licensed under the Act. The Act also makes it illegal for a retirement scheme formed in accordance with or existing under the laws of Malta to carry on any activity for the provision of Retirement Benefits in or from within a country, territory or other place outside Malta unless it is duly licensed under the Act.

- *Retirement Funds:* Retirement Funds are arrangements established for the principal purpose of holding and investing contributions made to one or more retirement schemes and/or overseas retirement schemes.

The Act makes it illegal for a retirement fund located in Malta to carry on any activity in relation to a retirement scheme and, or overseas retirement scheme, in or from within Malta unless such retirement fund is duly licensed under the Act. The Act also makes it illegal for a retirement fund formed in accordance with or existing under the laws of Malta to carry on any activity in relation to a retirement scheme and, or overseas retirement scheme, in or from within a country, territory or other place outside Malta unless it is duly licensed under the Act.

- *Service Providers:* Service Providers are entities that are licensed under the Act to provide one or more services listed in the Schedule to the Act and, or recognised to provide any one or more services of the back-office administrative activities¹ established by the Pension Rules issued under the Act.

The Act stipulates that a person requires a licence under the Act to provide to a Retirement Scheme and/or Retirement Fund or to a similar or equivalent arrangement overseas, any one or more of the services listed in the Schedule to the Act. The Act also makes it illegal for a body corporate, unincorporated body or association formed in accordance with or existing under the laws of Malta, to provide or hold itself out as providing a service in or from within a country, territory or other place outside Malta unless duly licensed under the Act. The Act also prohibits a person from providing, in or from within Malta, any back-office administrative activities detailed in the Pension Rules for Service Providers unless such a person is recognised by the MFSA to provide such activities.

¹ Reference to back-office administrative activities and back-office administrators will be retained for a transitional period of one year from the date of coming into force of the amendments to the Retirement Pensions Act, in accordance with the Retirement Pensions (Transitional Provisions on Back-Office Administrators) Regulations, 2020.

The MFSA and Pension Rules made by virtue of the Act

Pursuant to article 38(1) of the Act, the administration of the Act shall be vested in the MFSA.

In terms of article 38(2) of the Act, the MFSA may issue Pension Rules as may be required for carrying into effect any of the provisions of the Act. The MFSA may amend or revoke such Pension Rules which shall be binding on licence holders and others as may be specified therein.

In exercise of those powers, the MFSA has made these Pension Rules for Occupational Retirement Schemes.²

Breach of these Pension Rules may give rise to administrative penalties or any other measure against the offending person.

Structure of Pension Rules for Occupational Retirement Schemes

The Pension Rules for Occupational Retirement Schemes are divided into four main parts:

- Part A specifies the nature and licensing process, and criteria applicable to Occupational Retirement Schemes;
- Part B sets out the Standard Licence Conditions for Occupational Retirement Schemes licensed under the Act;
- Part C includes the Appendices and reporting schedules.
- Part D contains Application Forms and related information.

General

Any questions concerning the contents of these Pension Rules for Occupational Retirement Schemes and their practical application should be addressed to the Insurance and Pensions Supervision Unit of the MFSA.

Copies of the Pension Rules for Occupational Retirement Schemes can be downloaded from the MFSA's website (www.mfsa.com.mt).

The Pension Rules for Occupational Retirement Schemes refer to various parts of the Act but do not attempt to reproduce it, and therefore should not be treated as a substitute for reading the Act itself. Where necessary, reference should be made directly to the provisions of the Act. Capitalised words and expressions used here and defined in the Act have the same meaning as in the Act, unless indicated otherwise in the Glossary to the Pension Rules issued under the Act.

² There are separate Rules for Personal Retirement Schemes, Retirement Funds and for Service Providers. These are available from the MFSA website.

PART A

AN OVERVIEW OF THE LICENSING REQUIREMENTS APPLICABLE UNDER THE RETIREMENT PENSIONS ACT, 2011 (“the Act”)

A.1 Overview of an Occupational Retirement Scheme

A.1.1 Definition

1.1.1 In terms of articles 2 of the Act, an Occupational Retirement Scheme means a retirement scheme, irrespective of its legal form, operating on a funded basis, established separately from any Sponsoring Undertaking or trade, for the purposes of providing retirement benefits in the context of an occupational activity on the basis of an agreement or a contract agreed:

(a) individually or collectively between the employer or employers and the employees or their respective representatives; or

(b) with self-employed persons, individually or collectively,

and which carries out activities directly arising therefrom.

1.1.2 Retirement Benefits refer to benefits payable with reference to retirement, or on having reached a particular age, and may involve supplementary benefits paid on disability, death or other circumstances.

1.1.3 Moreover, a scheme or arrangement does not constitute an Occupational Retirement Scheme under the Act, if it provides for:

(a) the payment of Retirement Benefits to five or fewer Members; or

(b) the commencement of payment of Retirement Benefits to a Member on a date that is earlier than that on which such Member has attained the age of fifty, or later than that specified in Pension Rules for Occupational Retirement Schemes, except in those cases where the retirement scheme or arrangement provides that:

(i) the payment is made by reason of the disability or death of a Member; or

(ii) the payment is made to the Member as may be determined by Pension Rules for Occupational Retirement Schemes in the event that the Member is no longer employed by the employer;

Provided that a scheme or arrangement described in paragraph (a) may, by written notice to the MFSA, apply to be considered as an Occupational Retirement Scheme for purposes of the Act and such a scheme shall comply with the provisions of Articles 32 to 35 of the Occupational Pensions Directive.

1.1.4 If there is any doubt as to whether, for the purposes of the Act, a scheme or other arrangement is an Occupational Retirement Scheme within the meaning of the Act, the MFSA should be approached and it shall conclusively determine the matter.

A.1.2 Establishment and Form

- 1.2.1 An Occupational Retirement Scheme may be established in the following forms under Maltese law:
- (a) as an investment company with variable share capital (“SICAV”) under the Companies Act (Chapter 386 of the Laws of Malta);
 - (b) as a trust by trust deed under the Trusts and Trustees Act (Chapter 331 of the Laws of Malta);
 - (c) by contract in terms of the Civil Code (Chapter 16 of the Laws of Malta); or
 - (d) in any other legal form as may be approved by the MFSA.

A.1.3 Nature and Operation

- 1.3.1 An Occupational Retirement Scheme is established with the purpose of collecting contributions made by an employer(s), or by an employer(s) and employees, by employees through an employment relationship, or by an association representing employers, including self-employed persons, and investing these contributions in assets earmarked to provide Retirement Benefits to Members and Beneficiaries thereof. An Occupational Retirement Scheme operates in accordance with a written instrument (known as the “*Scheme Document*”) which lays down the rules stipulating the Retirement Benefits and the conditions under which these are granted. The Scheme Document may be incorporated as part of the Constitutional Document of the Scheme.
- 1.3.2 An Occupational Retirement Scheme may be a *Defined Benefit Scheme* or a *Defined Contribution Scheme*. A Defined Benefit Occupational Retirement Scheme provides fixed or determinable Retirement Benefits and may take different forms (e.g. traditional defined benefit schemes, hybrid schemes etc.). In a Defined Contribution Occupational Retirement Scheme, Retirement Benefits are established by reference to the contributions and the returns or gains that are received on the invested contributions less expenses and any losses in relation thereto. An Occupational Retirement Scheme may also provide cover against Biometrical Risk or investment risks subject to the conditions outlined in the Pension Rules for Occupational Retirement Schemes.
- 1.3.3 An Occupational Retirement Scheme may be established either as a *Closed Scheme* or as an *Open Scheme*. Closed Occupational Retirement Schemes are schemes established at the initiative of a single employer or a group of related employers or an association representing employers and membership of the scheme is limited thereto. Open Occupational Retirement Schemes are schemes usually established at the initiative of a Retirement Scheme or Retirement Scheme Administrator (as applicable), whose membership is open to a number of unrelated employers and self-employed persons acceptable to the Retirement Scheme Administrator.

A.1.4 Governance Arrangements & Related Parties

- 1.4.1 An Occupational Retirement Scheme, irrespective of its legal form, is required to appoint the following:
- (a) a *Retirement Scheme Administrator* – a Service-Provider licensed under the Act who would be responsible for the overall operation, management and administration of the Occupational Retirement Scheme. The Retirement Scheme Administrator is required to carry out duties specified in Part B.1 of the Pensions Rules for Service-Providers issued in terms of the Act.³ The Retirement Scheme Administrator carries out the day-to-day administration duties and may also either carry out the investment management of the assets or provide custody services for the Occupational Retirement Scheme, if it is duly licensed to do so under the Act;
 - (b) an *Auditor* appointed in terms of the article 16 of the Act; and,
 - (c) an *Actuary* (whose appointment is required only in the case of a Defined Benefit Retirement Scheme).
- 1.4.2 An Occupational Retirement Scheme is required to appoint an *Investment Manager and Custodian*, unless one of the functions is carried out by the Retirement Scheme Administrator. The appointment of an *Investment Advisor* is optional.
- 1.4.3 Without prejudice to the provisions of Part IV of the Act relating to governance, the MFSA may consider different structural and governance proposals as long as these arrangements provide appropriate protection for Members and Beneficiaries of the Occupational Retirement Scheme and its assets.

A.1.5 Mandatory Functions

- 1.5.1 An Occupational Retirement Scheme, irrespective of its legal form, is also required to have the following:

(a) *Investment Management Function*

The function relating to the investment management is mandatory. Depending on the structure and nature of the Occupational Retirement Scheme an investment manager, separate from the Retirement Scheme Administrator, may need to be appointed for the investment management of the assets. Separation of the custody and investment management function is compulsory.

(b) *Custody Function*

The function relating to the custody of assets is mandatory. Depending on the structure and nature of the Occupational Retirement Scheme, a custodian separate from the Retirement Scheme Administrator may need to be appointed for the safe-keeping of assets and oversight duties. The Custodian shall also be responsible for monitoring the

³ Please refer to the Rules issued under the Act for Service-Providers for details regarding the licensing / recognition criteria and requirements as well as the operational conditions applicable to Service Providers.

extent to which the Investment Manager is abiding by the investment restrictions of the Scheme laid out in Part 4.2 of the Pension Rules for Occupational Retirement Schemes. Separation of the custody and investment management function is compulsory.

- 1.5.2 In delegating/outsourcing functions to third parties, the *Retirement Scheme Administrator* retains responsibility for the overall operation, management and administration of the Occupational Retirement Scheme and the investment management and custody of the assets of the Retirement Scheme. The Retirement Scheme Administrator is expected to put in place adequate monitoring arrangements to ensure the appointed third parties are carrying out the functions in line with the stipulated requirements.

A.1.6 Key Functions

- 1.6.1 A Retirement Scheme Administrator of an Occupational Retirement Scheme, irrespective of its legal form, is required to have in place the following key functions: a risk-management function, an internal audit function, and where applicable, an actuarial function.

A.1.7 Employee Representation

- 1.7.1 Employee representation in an Occupational Retirement Scheme is optional. The arrangements for the provision of employee representation in an Occupational Retirement Scheme are subject to MFSA's approval and therefore should be discussed in advance with the MFSA.

A.1.8 Funding

- 1.8.1 Occupational Retirement Schemes are funded by the *Contributor(s)*, who may be either:
- (a) solely the Employer; or
 - (b) the Employer and the Employees
 - (c) Employees through an employment relationship; or
 - (d) association representing employers, including self-employed persons.

A.1.9 Technical Provisions

- 1.9.1 A Defined Benefit Occupational Retirement Scheme (and any other type of scheme providing cover against biometrical or investment risks) is required to comply with the technical provisions requirements as set out in the Retirement Pensions (Technical Provisions) Regulations, 2020 and Part B of these Pension Rules for Occupational Retirement Schemes.

A.1.10 Investment of Contributions

- 1.10.1 An Occupational Retirement Scheme is required to invest its Contributions in accordance with the Constitutional Document, Scheme Document and Scheme Particulars (as applicable), and the investment restrictions set out in Part B of the Pension Rules for Occupational Retirement Schemes issued in terms of the Act. An Occupational Retirement Scheme may opt to invest either directly or indirectly on the market.

A.2 Licensing Requirements

A.2.1 Licensing Requirement

2.1.1 In terms of article 4 of the Act, an Occupational Retirement Scheme requires a licence to carry on any activity for the provision of Retirement Benefits. In terms of this article:

(a) no retirement scheme shall carry on any activity for the provision of Retirement Benefits in or from within Malta unless the main administration of such retirement scheme is located in Malta; and

(b) no retirement scheme formed in accordance with or existing under the laws of Malta shall carry on any activity for the provision of Retirement Benefits in or from within a country, territory or other place outside Malta; and

(c) no person shall accept money or other consideration from a Contributor with respect to a retirement scheme carrying on any activity for the provision of Retirement Benefits in or from within Malta unless the main administration of such retirement scheme is located in Malta, and,

unless such scheme is duly licensed under the Act.

2.1.2 Article 4(6) of the Act permits the initial steps for the incorporation or establishment of an Occupational Retirement Scheme to be taken before a licence has been obtained, but a retirement scheme may not deal or carry out any licensable activity before it is licensed.

A.2.2 Requirement of Fitness and Properness

2.2.1 The Retirement Scheme Administrator of an Occupational Retirement Scheme shall ensure that persons who effectively run the Occupational Retirement Scheme and persons who carry out key functions are at all times “fit and proper”. In deciding whether a person is “fit and proper”, a Retirement Scheme Administrator shall be satisfied that the persons:

(a) who effectively runs the Occupational Retirement Scheme, have the qualifications, knowledge and experience which collectively are adequate to enable them to ensure a sound and prudent management of the Occupational Retirement Scheme;

(b) who carry out the actuarial or internal audit key functions have professional qualifications, knowledge and experience that are adequate to properly carry out their key functions;

(c) who carries out other key functions has the qualifications, knowledge and experience adequate to properly carry out their key functions; and

is of good repute and integrity.

2.2.2 Where an Occupational Retirement Scheme outsources a key function in accordance with Section 3.8 of Part B of the Pension Rules for Occupational Retirement Schemes,

such Occupational Retirement Scheme is to apply fit and proper procedures in assessing the entity performing the outsourced key function.

A.2.3 Licensing Criteria

2.3.1 An Occupational Retirement Scheme shall be constituted and structured in line with the requirements set out by the MFSA and shall have a Scheme Document as stipulated in Part B.2.1 of the Pension Rules for Occupational Retirement Schemes. Moreover, the MFSA shall refrain from licensing an Occupational Retirement Scheme unless it is satisfied that:

(a) the Occupational Retirement Scheme is constituted and structured in line with any Pension Rules, as applicable;

(b) the activities of the Occupational Retirement Scheme are limited to retirement benefit related operations and activities arising therefrom;

(c) the Occupational Retirement Scheme and, or the Retirement Scheme Administrator shows evidence that it will comply with and observe the provisions of the Act and any regulations or Pension Rules made thereunder;

(d) the Occupational Retirement Scheme and the Retirement Scheme Administrator are fit and proper to carry out the functions required of them;

(e) where the Scheme is a Defined Benefit Scheme, the Sponsoring Undertaking has the necessary financial resources to meet its obligations;

(f) there is a Scheme Document which contains terms and conditions in line with any Pension Rules;

(g) the Occupational Retirement Scheme and, or the Retirement Scheme Administrator shows evidence that it will be in a position to comply with the system of governance provided for in article 13A of the Act;

(h) the Occupational Retirement Scheme and, or the Retirement Scheme Administrator shows evidence that, where the Sponsoring Undertaking guarantees the payment of the retirement benefits, the employer is committed to regularly financing;

(i) the name of the Occupational Retirement Scheme is one which, in the opinion of the MFSA, is not misleading; and

(j) any aspect of or related to the application does not raise any regulatory concerns.

2.3.2 When carrying out its functions under the Act, the MFSA shall in particular have regard for:

(a) the protection of Members and Beneficiaries;

(b) the promotion of competition and choice; and,

(c) the reputation and suitability of the Occupational Retirement Scheme, the persons responsible thereof, and all other parties connected therewith.

- 2.3.3 The MFSA will consider the nature of the Occupational Retirement Scheme and will need to be satisfied that appropriate governance structures and mechanisms, in particular, the systems of governance provided for in article 13A of the Act, are in place. Sound and prudent management, adequate resources, and a responsible attitude towards Members and Beneficiaries are essential. The business should be well organised and have in place sound administrative and accounting procedures and adequate internal controls.
- 2.3.4 The MFSA will also need to be satisfied that the applicant, the Service Providers, key function holders and the related parties are fit and proper to provide or carry out the indicated activities. The MFSA has the right to refuse a Licence if it does not approve a party involved with the Occupational Retirement Scheme.

A.2.4 Criteria of Fitness and Properness

- 2.4.1 The "fit and proper" test is one which an Occupational Retirement Scheme, the Service Providers, the key function holders and its related parties must satisfy on a continuing basis. Each case is assessed on the basis of the relevant circumstances. The onus of proving that the persons referred to in paragraph 2.3.4 of Part A of the Pension Rules for Occupational Retirement Schemes are fit and proper for the type of position the person holds or will hold, or the key function such person will perform, is on the Occupational Retirement Scheme, its Service Providers and its related parties. It is not the duty of the MFSA to prove the converse before it can refuse or before it intends to suspend or cancel a Licence. The MFSA's approach is cumulative. The MFSA may conclude that an Occupational Retirement Scheme, the key function holders, its Service Providers, and/or its related parties has failed the test on the basis of considering several situations, each of which on its own merit would not lead to that conclusion. An open and honest relationship with the MFSA is thus essential. When arriving at its decision as to whether an Occupational Retirement Scheme, the key function holders, its Service Providers, and its related parties are fit and proper, the MFSA will take account of all material facts whether such facts are disclosed or otherwise. It should be noted that it is an offence to provide information or make statements which are inaccurate, false or misleading.
- 2.4.2 In general terms, there are three criteria which must be all met, to satisfy the "fit and proper" test:
- (a) integrity;
 - (b) competence; and
 - (c) solvency.

Integrity involves the Occupational Retirement Scheme, the key function holders, its Service Providers and its related parties are of good repute, act honestly and in a trustworthy fashion in relation to the Members and Beneficiaries.

Competence means that those persons who effectively run an Occupational Retirement Scheme, persons having other key functions and key function holders of such Occupational Retirement Scheme are able to demonstrate an acceptable amount of knowledge, qualifications, professional expertise and experience directly relevant to the occupational retirement activities with which they are dealing. The MFSA will also look

into the experience and track record of such persons to assess competence. The degree of competence required will depend on the role being performed.

Solvency means ensuring that proper financial control and management of liquidity and capital is applied. The business should have sufficient technical/ financial resources to meet not only the financial demands on the business but also the technical/ financial resources requirements established by the MFSA.

- 2.4.3 Although Occupational Retirement Schemes may vary in nature, the MFSA will apply consistent standards in dealing with different types of Occupational Retirement Schemes. Each application is assessed on its own merits and on the basis of the relevant circumstances.
- 2.4.4 The MFSA shall also accept as evidence for proof of good repute, proof of no previous bankruptcy or both, from nationals of other Member States, the production of an extract from the judicial record of the other Member State. In the absence of a judicial record in the other Member State, the competent authority shall accept an equivalent document, issued by a competent judicial or administrative authority either in the Member State of which the concerned person is a national or in Malta, showing that those requirements have been met.
- 2.4.5 Where there is no competent judicial or administrative authority in the Member State of which the person is a national to issue an equivalent document as referred to in paragraphs 2.4.4, the competent authority shall accept that such person produces in its place a declaration on oath.
- 2.4.6 The competent authority shall also accept as proof of no previous bankruptcy as referred to in paragraph 2.4.4, a declaration made by the national of the other Member State concerned before a competent judicial, professional or trade body in that other Member State.
- 2.4.7 The documents referred to in paragraphs 2.4.4 to 2.4.6 shall be presented within three (3) months from their date of issue.

A.2.5 Application Documents

- 2.5.1 A request for the licensing of an Occupational Retirement Scheme should be made by submitting a duly completed Application in the form set out in Schedule A in Part D to the Pension Rules for Occupational Retirement Schemes, supported by the documents requested in the Application Form. The MFSA may require any additional documents as deemed necessary.

A.2.6 The Licensing Process

- 2.6.1 The Pension Rules for Occupational Retirement Schemes should be read carefully before an Application Form for licensing is submitted. It is recommended that due consideration is given to the applicable legal and regulatory requirements. Applicants may wish to arrange to meet representatives of the MFSA in advance of submitting a formal application for licensing, to describe the background to its application and the way in which it intends to operate. Although guidance will be given on the applicable

regulatory requirements and on the completion of the Application documents, responsibility for the formulation of the proposal and the completion of an Application will remain with the Applicant.

- 2.6.2 When submitting an application, the application pack should be as comprehensive as possible. An application is deemed to have been officially submitted once a full application pack (i.e. Application Form and all relevant supporting documentation) together with the relevant application fee is submitted to the MFSA. In the instance where application documents are submitted in a piecemeal fashion or are incomplete, the processing of an application will not start and will be delayed until receipt of all the relevant documents and fees concerned.
- 2.6.3 The application forms and related Schedules in Part D under these Pension Rules should not be amended in any way. All questions in the application form should be answered and any questions which are not relevant to the application at hand should be marked 'Not Applicable' and not deleted.
- 2.6.4 Following submission, the Application and supporting documentation will be reviewed and comments provided to the Applicant directly or to the Applicant's professional advisors. The MFSA may ask for more information and may make such further enquiries as it considers necessary. The MFSA will only accept comments on issues arising from its review of the application documents, either directly from the Applicant or the professional advisors thereof or from any other person if the latter is so authorised by the Applicant upon evidence of the said authorisation. The 'fit and proper' checks begin at this stage.
- 2.6.5 The MFSA will analyse the submissions and on the basis of this, make a decision regarding the licensing application.
- 2.6.6 As part of this process the Standard Licence Conditions which are to apply are also determined. Some of the Standard Licence Conditions outlined in the Pension Rules for Occupational Retirement Schemes may not be applicable or be amended (where the circumstances justify such treatment) and supplementary conditions applied.
- 2.6.7 Following notification of the MFSA's decision regarding the licensing application, the Applicant will be required to finalise any outstanding matters, such as (in the case of a new entity) its incorporation and capitalisation.
- 2.6.8 Thereafter, licensing will be effected. Where the application is one of a number of related licensing applications, the MFSA will normally require that licensing for all the relevant entities takes place simultaneously. Alternatively, where the MFSA agrees that licensing need not be simultaneous, this will normally be on the condition that business is not commenced until all the necessary licences are in place.
- 2.6.9 The Applicant may also be required to satisfy a number of post-licensing conditions prior to formal commencement of business.

A.2.7 Fee

- 2.7.1 The fees can be found in the Retirement Pensions (Fees) Regulations, 2015. Where applicable, Application Fees are payable on submission of the Application Form and are not refundable. Annual Supervisory Fees are payable on the day the licence is granted and thereafter annually, upon the anniversary of that date. Details of the applicable fees can be downloaded from the MFSA's website.

A.2.8 Variation of a Licence

- 2.8.1 Requests for a variation of a Licence should be submitted to the MFSA in writing, giving details of the variation requested and the reasons.

A.3.1 Pension Rules for Occupational Retirement Schemes licensed under the Act

- 3.1.1 The Standard Licence Conditions which are to be satisfied by Occupational Retirement Schemes licensed under the Act are stipulated in the Act itself, in regulations made from time to time, and in these Pension Rules for Occupational Retirement Schemes issued by the MFSA.
- 3.1.2 The detailed Standard Licence Conditions applicable are set out in Part B of the Pension Rules for Occupational Schemes. While the Standard Licence Conditions should be sufficiently flexible to operate in a range of different situations, they may be supplemented or varied according to the particular nature of the Occupational Retirement Scheme. An Occupational Retirement Scheme licensed under the Act will be notified of the applicable Standard Licence Conditions which are to be applied under the Act or generally. The Standard Licence Conditions will be notified to the applicant prior to final licence.
- 3.1.3 The MFSA has the right, at any time and from time to time, to vary or revoke any Standard Licence condition or impose new Standard Licence Conditions.

A.4.1 Exercise of Cross Border Activities and Cross Border Transfers by Occupational Retirement Schemes

Cross Border Activities

- 4.1.1 An Occupational Retirement Scheme licensed under the Act which qualifies as an Institution for Occupational Retirement Provision in terms of Directive 2016/2341/EC of the European Parliament and of the Council of 14 December 2016 on the activities and supervision of institutions for occupational retirement provision, (IORPs) (recast), also referred to as the "Occupational Pensions Directive", may carry out cross border activity and accept sponsorship in terms of the Retirement Pensions (Cross-Border Activities and Cross-Border Transfers) Regulations, 2020. This means that such an Occupational Retirement Scheme duly licensed under the Act may receive contributions from employers (or "sponsoring undertakings" as defined in the Directive) located in other EU Member States or EEA States and provide benefits to employees of the contributing employers.
- 4.1.2 An Occupational Retirement Scheme which is entitled and wants to operate on a cross-border basis, not resulting from a cross border transfer is required to follow the procedure set out in the Retirement Pensions (Cross-Border Activities and Cross-Border Transfers) Regulations, 2020, comply with requirements stipulated therein, and to submit duly completed Applications in the form set out in Schedule B in Part D to the Pension Rules for Occupational Retirement Schemes, to the MFSA.

B.7.2 Technical Provisions

7.2.1 A Defined Benefit Scheme shall comply with technical, financial and actuarial management requirements as well as requirements regarding the under-provision or over-provision of Technical Funding Requirement as prescribed in regulation 4 of the Retirement Pensions (Technical Provisions) Regulations, 2020.

7.2.2 The calculation of the technical provisions shall be carried out according to the following principles:

(a) the minimum Technical Funding Requirement shall be calculated by a sufficiently prudent actuarial valuation, taking account all commitments for benefits and for contributions in respect to pensions arrangements of the Scheme. It must be sufficient both for pensions and benefits already in payment to Beneficiaries to continue to be paid, and to reflect the commitments which arise out of the Member's accrued pension rights and provide Beneficiaries with an actuarial value of their accrued pensions rights. The economic and actuarial assumptions chosen for the valuation of the liabilities shall also be chosen prudently taking into account, if applicable, of an appropriate margin for adverse deviation;

(b) the minimum Technical Funding Requirement shall be assets that, had the Scheme wound up on the valuation effective date, the assets would have provided for:

- i. benefits in course of payment;
- ii. benefits, other than those referred to in (i), which consist of additional benefits secured or granted under the Scheme on behalf of the Beneficiary concerned by way of additional voluntary contributions or a transfer of rights from another Scheme;
- iii. benefits with at least uniform attribution, other than those referred to in (i) or (ii), payable in respect of reckonable service completed up to the effective date; and
- iv. the estimated expenses of administering the winding up of the Scheme;

(c) where there is no sponsoring employer to underwrite biometrical risks or guarantees on investment performance or a given level of benefits, then the minimum Technical Funding Requirement shall be increased by an amount calculated in accordance with Appendix 10 of Part C of the Pension Rules for Occupational Retirement Schemes;

- (d) in calculating the minimum Technical Funding Requirement the actuary may assume that the liabilities of the Scheme could have been provided on winding up by paying assets of equivalent actuarial value to the above benefits to another Scheme or purchasing of appropriate insurance contracts to provide the same benefits;
- (e) any maximum Technical Funding Requirement which may be prescribed;
- (f) the biometrical tables used for the calculation of technical provisions shall be based on prudent principles, having regard to the main characteristics of the group of Members and the Scheme, in particular the expected changes in the relevant risks;
- (g) the rate of interest used shall be chosen prudently taking into account, if applicable, an appropriate margin for adverse deviation and determined in accordance with any conditions of the MFSA including other provisions of these Pension Rules;
- (h) the maximum prudent rates of interest shall be determined by taking into account:
 - i. the yield on the corresponding assets held by the Scheme and the projected future investment returns; and/or
 - ii. the market yields of high quality government bonds, European Stability Mechanism bonds, European Investment Bank (EIB) bonds, or European Financial Stability Facility bonds; or
 - iii. a combination of (i) and (ii).
- (i) the method and basis of calculation shall in general remain constant from one Scheme Year to the other. However, modifications may be justified due to a change in legal, demographic or economic circumstances underlying the assumptions.

- 7.3.1 A Defined Benefit Scheme shall appoint an actuary approved by the MFSA.
- 7.3.2 The appointment, including the replacement, of an actuary of a Scheme shall be subject to the prior approval of the MFSA.  - (b) an Affiliate of the Retirement Scheme Administrator.
- 7.3.5 The Scheme shall obtain from its actuary a signed letter of engagement defining clearly the extent of the actuary's responsibilities and the terms of his/her appointment. The letter of engagement shall contain at least the information in Appendix 9 in Part C of these Pension Rules for Occupational Retirement Schemes. The Scheme shall confirm in writing to its actuary its agreement to the terms in the letter of engagement.
- 7.3.6 On the appointment or a change in actuary the MFSA shall be provided with the declaration referred to in Annex III of the Application Form for Licensing as an Occupational Retirement Scheme in Schedule A of Part D of these Pension Rules for Occupational Retirement Schemes.
- 7.3.7 If at any time when the Scheme is required to have an actuary, the Scheme fails to have an actuary in office for a period exceeding four weeks, the MFSA shall be entitled to appoint a person to fill the vacancy, the fees and charges so incurred being payable by the Scheme or Retirement Scheme Administrator.

B.7.4 Duties of an actuary

- 7.4.1 The actuary of a Defined Benefit Scheme shall:
- (a) advise the Scheme and/or the Retirement Scheme Administrator (on an on-going basis) on the appropriate rates of Scheme contributions;
 - (b) calculate the technical provisions for any Biometrical Risks or investment risks or level of benefits for which the Scheme provides cover in accordance with recognised actuarial methods and complete and certify such calculations at least as frequently as the prescribed intervals;
 - (c) prior to the commencement of the Scheme, provide the Scheme Administrator with a certificate (in the form of that in Appendix 6 in Part C of these Pension Rules) setting out whether or not in the actuary's opinion the contributions payable towards the Scheme (as set out in the Schedule of Payments in the form of Appendix 7 in Part C of the Pension Rules for Occupational Retirement Schemes) are likely in the normal course of events to be adequate to continue to meet the Scheme's minimum Technical Funding Requirement over the period to which the Schedule of Payments relates;
 - (d) provide the Scheme and/or the Retirement Scheme Administrator following the end of the first Scheme Year and every third Scheme year thereafter in respect of such year, or on an annual basis if required by SLC 7.5.37 of Part B of the

Pension Rules for Occupational Retirement Schemes , with an actuarial report containing the following:

- i. an actuarial valuation of the assets and liabilities of the Scheme as at the end of the relevant Scheme Year including a note of the assumptions and methods of valuation used and expressed so as to enable the expected future course of the Scheme's contribution rates and funding level to be understood;
- ii. a certificate (in the form of that in Appendix 6 in Part C of the Pension Rules for Occupational Retirement Schemes) setting out the position of the Scheme with respect to the minimum Technical Funding Requirement and whether or not in the actuary's opinion the contributions payable towards the Scheme (as set out in the Schedule of Payments) are likely in the normal course of events to be adequate to continue to meet the Scheme's minimum Technical Funding Requirement over the period to which the Schedule relates or is expected to restore the funding position over this period and indicating any relevant changes that have occurred since the most recent actuarial valuation was prepared.

B.7.5 Actuarial valuation - General

- 7.5.1 An actuarial valuation is required with an effective date no later than the first anniversary of the date on which the Scheme commenced and on an annual basis thereafter.
- 7.5.2 The actuarial valuation report and accompanying certificate must relate to the position of the Scheme at the date 14 days before it is signed.
- 7.5.3 Where an actuarial valuation shows that the Scheme's assets are below the minimum Technical Funding Requirement, then annual valuations and certificates will be required until the funding position is restored.

B.7.6 Transfer of benefits

- 7.6.1 Where a Member wishes to transfer the value of her/his accrued benefits to another Scheme, such Member shall request the Scheme or the Retirement Scheme Administrator to obtain the actuarial value of these benefits. The actuary shall certify (in the form of that in Appendix 8 in Part C of the Pension Rules for Occupational Requirement Schemes) that the method used to calculate this value is appropriate. Such an actuarial value shall be assessed using market rates of interest.
- 7.6.2 The calculations of actuarial values for transfer to another Scheme shall be carried out according to the following principles:
 - (a) market rates of interest used to calculate the actuarial value of accrued benefits shall be determined on the basis of market redemption yields on Government bonds of appropriate currency, duration and type at the time of transfer with

allowance for investment of future interest/redemption receipts at such rates as the actuary considers reasonable;

- (b) guaranteed or statutory increases, both in deferment and after payment commences, should be valued as part of the accrued benefit;
- (c) the actuary should first advise and then establish with the Scheme and/or the Retirement Scheme Administrator whether and to what extent it is considered appropriate to make any addition for future discretionary increases to the accrued benefits or for any other benefits that may be granted on a discretionary basis;
- (d) in general it would be inappropriate to allow for discretionary benefits in the calculation of transfer values unless the Scheme could satisfy the minimum Technical Funding Requirement with allowance made for such benefits for all Beneficiaries or Members;
- (e) the method and assumptions used for calculating the actuarial value of benefits to be transferred out of the Scheme should be consistent with the method and assumptions used to calculate benefits for a person acquiring transfer credits in the Scheme.
