1. LH Portal Guidelines for the reporting of MREL and TLAC

This document outlines the LH Portal submission guidelines for the reporting of the minimum requirement for own funds and eligible liabilities (MREL) and the total loss absorbency requirement (TLAC) data as outlined in the Commission Implementing Regulation (EU) No 2021/763.

1.1. Reporting Format

MREL TLAC reporting will be required in XBRL format only.

The XBRL file should be produced using the CRDIV taxonomy in line with EBA's publication of the relevant technical documentation.

Institutions are required to submit MREL TLAC Reporting in a single zip file containing the XBRL file for a particular reference date.

1.2. Submission of data

Institutions are required to submit data through the [LH Portal](#).

1.3. Upload of Supervisory Reporting Modules

See Sections 1 and 2 of the [LH Portal Guidelines](#) for details on how to sign in to the LH Portal and the procedures involved when uploading the single zip file.

Once successfully signed in, select MRELTLAC reporting as project in File Uploads.

1.4. File Naming Conventions

1.4.1. XBRL File Naming Convention

1.4.1.1. For submissions with reference date before 31 December 2022

The following file naming convention should be used for the XBRL file with reference date before 31 December 2022 within submissions of MREL TLAC Reporting:

LEI_CountryCode_Framework_Module_ReferenceDate_Timestamp

where:

LEI: LEI Code (20 characters) of the institution

CountryCode: MT (*always*)

Framework: current framework for ITS v3.0 this is MREL010000

Module: MRELTLACCON or MRELTLACIND as applicable to the institution

ReferenceDate: reference date of the module as YYYY-MM-DD e.g. 2020-09-30

Timestamp: 17-digit timestamp

1.4.1.2. For submissions with reference date on or after 31 December 2022

Due to the modular release of the [EBA reporting framework 3.2](#), the XBRL filename for submissions with reference date on or after 31 December 2022, must be aligned with the changes made in the EBA filing rules.

The following file naming convention should be used for the XBRL file within submissions of MREL TLAC Reporting:

***LEI.ReportType_CountryCode_ReportingFramework_ModuleCode_ReferenceDate_
CreationTimestamp***

where:

LEI: LEI Code (20 characters) of the institution

ReportType: IND/CON

CountryCode: MT (always)

Framework: Reporting framework for ITS v3.0 this is MREL010000

ModuleCode: MRELTAC

ReferenceDate: reference date of the module as YYYY-MM-DD e.g. 2022-12-31

Timestamp: 17-digit timestamp

1.4.1.3. For submissions with reference date on or after 31 December 2024

Due to the modular release of the [EBA reporting framework 3.5](#), the XBRL filename for submissions with reference date on or after 31 December 2024, must be aligned with the changes made in the EBA filing rules.

The same file naming convention listed in Chapter 1.4.1.2 should be used for the XBRL file within submissions of MREL TLAC Reporting, with the exception that it should reflect the updated taxonomy version. The reporting framework for ITS v3.5 is **MREL010200**.

1.4.2. ZIP File Naming Convention

The following ZIP file naming convention should be used for the submission of MREL TLAC Reporting:

***BankDesignatedCode_MmmYYYY_ScopeOfConsolidation_ReportingFramework_
ModuleCode_LEI***

where:

BankDesignatedCode: 3 letter code assigned to the institution

MmmYYYY: reference date of the module e.g. APR2021

ScopeOfConsolidation: CON for Consolidated or IND for Individual, as applicable

ReportingFramework_ModuleCode: MRELTAC (always)

LEI: LEI Code (20 characters) of the institution
