Addendum to the Circular for Credit Institutions on 2026 Resolution Reporting Submissions issued on 17 December 2025

Addendum to Taxonomy Versions for RESOL1 and RESOL2

The Malta Financial Services Authority (“MFSA”) wishes to issue the following addendum to the Circular for Credit Institutions on 2026 Resolution Reporting Submissions dated **17 December 2025**.

Following the publication of the aforementioned circular, EBA has updated the relevant taxonomy. To this effect, the taxonomy versions referenced in the original [circular](#) for resolution planning reporting should be revised as follows:

Correct Taxonomy Versions

Credit institutions are informed that the correct taxonomy version to be used for both reporting modules is:

- RES020000 – applicable to RESOL1
- RES020000 – applicable to RESOL2

This version replaces the taxonomy previously communicated in the original circular.

Credit institutions must ensure that all upcoming RESOL1 and RESOL2 submissions are submitted by using the **RES020000** taxonomy when generating xBRL-CSV files for resolution reporting.

All other instructions, technical details and submission requirements contained in the original circular remain fully applicable.

Any queries relating to this corrigendum or to the reporting requirements should be directed to Resolution at resolution.planning@mfsa.mt.

Thank you for your cooperation.
