f. What are the key risks that are specific to the Guarantor?

i. Risks associated with the exposure to economic conditions of the Maltese market

The Group remains heavily dependent on the Maltese market despite recent internationalisation efforts. This concentration exposes the business to Malta's economic fluctuations, including changes in consumer demand, inflation, property values, interest rates, taxation, and government spending priorities. The business is particularly vulnerable to downturns in tourism, services, and property development sectors. Economic challenges could reduce demand for the Group's offerings, increase operational costs, lower consumer spending power, trigger asset impairments, and diminish the value of property-based security interests. Additionally, sociopolitical instability, unrest, or government deadlock could further undermine demand and operational performance. This geographic concentration could have a material adverse effect on the Group's business, results of its operations, financial condition or prospects.

ii. Risk of loss of key senior personnel and specialist personnel

The Group's growth depends significantly on its executive management team and specialist personnel, including project managers, sector experts, and other key staff. The business relies on its ability to attract, develop, and retain qualified personnel with relevant experience and leadership capabilities. Loss of key personnel, particularly to competitors, could adversely affect stakeholder relationships, operational results, financial position, and growth prospects. The Group may struggle to replace such individuals quickly, potentially causing material harm to business performance. This risk is heightened during acquisitions or divestures when employee motivation and focus become challenging to maintain. The Group's failure to train and motivate personnel to adapt to evolving industry trends could reduce overall quality and efficiency. Without adequate infrastructure to transfer knowledge and skills, the departure of key employees' risks losing valuable accumulated expertise. These factors could adversely impact the Group's business, results of operations or cash flows.

iii. Risks common to the hospitality industry

The Group's hospitality and leisure operations face numerous internal and external factors that could adversely affect business performance, many of which are common to the industry and beyond the Group's control. Key risk factors include: changes in travel patterns, seasonal variations, and consumer preferences regarding price, quality, and location; increased travel-related taxes, fuel surcharges, airline cutbacks, or travel restrictions which could result in a reduction in visitor numbers to Malta; regulatory changes affecting hotel operations, employment, health and safety, licensing, environmental requirements, and related compliance costs; rising operating expenses from inflation, employment costs, utilities, taxes, and insurance which could impact margins and operational viability; socio-demographic changes and economic downturns; changes in the sales terms and conditions of main sales channels; the termination, non-renewal and, or the renewal on less favourable terms of material agreements entered into with local or international intermediaries; and intensifying competition from alternative accommodation providers, including web-based platforms. These factors, individually or collectively, may reduce room rates and occupancy levels at the Group's hotel or otherwise cause a reduction in its revenue or profitability, which could have a material adverse effect on the Group's business, financial condition, and results of operation.

iv. Risks common to the food and beverage industry

The Group's hospitality and leisure operations face risks specific to the food and beverage industry. Economic conditions affecting consumer confidence, disposable income, and discretionary spending directly impact performance. The business faces intense competition regarding pricing, rental costs, service quality, location, and food consistency. Supply chain delays and disruptions can increase operational costs, whilst demographic changes, shifting traffic patterns, and new competing establishments affect customer flow. These factors could reduce income from leisure establishments, limit pricing flexibility, or require costly modifications to concepts and facilities. The Group's operations depend critically on maintaining product quality and service standards, as any degradation could undermine customer confidence, result in customer loss, and hinder new customer acquisition. The business of the Group could be adversely affected by such delays, errors, failures, or faults.

v. Risks common to the property development and construction industry

The Group faces risks common to the property development and construction industry as a result of the Group's property development activities, including the ongoing St. George's Bay Project and the RAK Project commencing in January 2026. Key risks include resource shortages, funding constraints, cost overruns, and market risks affecting anticipated pricing and sales timelines. Industry challenges encompass real estate market cycles, economic downturns, oversupply, reduced demand, and regulatory delays in obtaining permits. Additional risks include unrecoverable development costs, legal complexities, resource constraints from high sector activity, and supply chain disruptions from government restrictions. The occurrence of any of such factors could have a material adverse effect on the Group's business, financial condition, and results of operations, including the increase in projected costs and completion times.

vi. Risks relating to the emphyteutical concession

St. George's Site is held by the Group under a title of a 99-year temporary emphyteusis granted unto DB San Gorg Property Limited by the Commissioner of Land (on behalf of the Government of Malta) on 1 February 2017. The emphyteutical concession over the St. George's Site is subject to a number of terms and conditions, including but not limited to, restrictions on permitted use, the obligation to pay annual ground rent, the requirement to maintain adequate insurance cover, compliance with applicable development permits, and the obligation to carry out necessary maintenance and repairs. Failure to abide with the terms and conditions to which the emphyteutical grant is subject may have an adverse material effect on the operations of the Group.

vii. Risks relating to the engagement and, or the involvement of third parties in connection with the Group's operations in the property sector

The Group places a degree of reliance on third-party architects, contractors, sub-contractors, and suppliers for property development activities including valuation, demolition, excavation, and finishing work. This gives rise to counterparty risk in those instances where such counterparties fail to perform according to contractual obligations due to insolvency, liquidity issues, market downturns, operational failures, or other factors beyond the Group's control. Such defaults could materially impact development projects, potentially preventing completion within deadlines or required specifications, resulting in revenue loss and reduced profitability. The Group's ability to source qualified contractors with necessary sector-specific expertise and resources could adversely affect its competitive positioning in the property development market. If these risks were to materialise, this would have an adverse impact on the Group's business, its financial condition, results of operations, and prospects.

viii. Risks associated with relations with suppliers

The Group's leisure business profitability depends in part on anticipating and responding to supply cost changes and relies on frequent, timely supplier deliveries. The Group may struggle to acquire suitable products in sufficient quantities or on acceptable terms in future. Deteriorating supplier relationships or less favourable supply terms could adversely affect operations. External factors beyond the Group's or suppliers' control, including adverse weather, regulatory changes, product recalls, and similar disruptions, could materially impact the availability, quality, and costs of its products.

g. What are the key risks that are specific to the securities?

i. Suitability

An investment in the Bonds may not be suitable for all recipients of the Base Prospectus and prospective investors are urged to read and fully understand the Base Prospectus and the Final Terms, and to consult an independent investment advisor before making an investment decision, with a view to ascertaining that an investment in the Bonds is suitable for the investor's risk profile.

ii. No prior market for the Bonds

Prior to the Programme and admission of the Bonds to listing and trading, there has been no public market for the Tranche 3 Bonds within or outside Malta. Due to the absence of any prior market for the Tranche 3 Bonds, there can be no assurance that the price of the Tranche 3 Bonds will correspond to the price at which the Tranche 3 Bonds will trade in the market subsequent to the Bond Issue.

iii. Ranking of the Bonds

Any secured or privileged debts of the Issuer shall rank at all times ahead of the obligations of the Issuer under the Bonds, as a result of which the Bondholders may not be able to recover their investment in the Bonds in the case of insolvency or an equivalent situation, whether in full or in part. Furthermore, third-party security interests may be registered which will rank in priority to the Bonds against the assets of the Issuer, as the case may be, for so long as such security interests remain in effect.

iv. Subsequent changes in interest rate and potential impact of inflation

The Bonds are fixed rate debt securities and investment therein involves the risk that subsequent changes in market interest rates may adversely affect the market value of the Bonds. The price of fixed income securities tends to move in a way that is inversely proportional to changes in interest rates. Moreover, the coupon payable on the Bonds is a nominal interest rate. The real interest rate is computed by subtracting inflation from the nominal interest rate, the result of which indicates the real return on the Bond coupons. In a period of high inflation, an investor's real return on the Bonds will be lower than the Bonds' nominal interest rate and thus undermine an investor's expected return. Furthermore, an increase in inflation may result in a decrease in the traded price of the Bonds on the secondary market.

v. Orderly and liquid secondary market

The existence of an orderly and liquid market for the Bonds depends on a number of factors including, but not limited to, the general economic conditions in the market in which the Bonds are traded. Such factors are dependent upon the individual decisions of investors and the general economic conditions of the market, over which the Issuer has no control. Accordingly, there can be no assurance that an active secondary market for the Bonds will develop, or, if it develops, that it will continue. Furthermore, there can be no assurance that Bondholders will be able to sell the Bonds at or above the Bond Issue Price or at all.

vi. Risks relating to the Guarantee

In view of the fact that the Bonds are being guaranteed by the Guarantor on a joint and several basis, the Bondholders shall be entitled to request the Guarantor to pay both the interest due and the principal amount under said Bonds if the Issuer fails to meet any amount when due in terms of the Prospectus. The Guarantee also entitles the Bondholders to take action against the Guarantor without having to first take action against the Issuer, if the Issuer fails to pay any sum payable by it to Bondholders pursuant to the Terms and Conditions of the said Bonds. The strength of this undertaking on the part of the Guarantor and, therefore, the level of recoverability by the Bondholders from the Guarantor of any amounts due under any of the Bonds, is dependent upon and directly linked to the financial position and solvency of the Guarantor.

Notes on how to complete this Application Form and other information

The following notes are to be read in conjunction with the Base Prospectus and Final Terms regulating the Bond Issue

1. This Application Form is governed by the Terms and Conditions of the Bond Issue contained in section 16 of the Base Prospectus. Capitalised terms not defined herein shall, unless the context otherwise requires, have the meaning ascribed to them in the Base Prospectus and/or Final Terms.
2. This Application Form is to be completed in BLOCK LETTERS. Applicants who are non-residents in Malta for tax purposes, must indicate their passport number in Panel B and complete Panel G. The relative box in Panel A must also be marked appropriately.
3. Applicants are to insert full personal details in Panel B. In the case of an Application by more than one person (including husband and wife) full details of all individuals must be given in Panels B and C but the person whose name appears in Panel B shall, for all intents and purposes, be deemed to be the registered holder of the Bonds (vide note 6 below). Applications by more than two persons are to use the Addendum to the Application Form.

Upon submission of an Application Form, Bondholders who opt to have an online e-portfolio facility (by marking the relative box in Panel B), will receive by mail at their registered address a handle code to activate the new e-portfolio login. Registration for the e-Portfolio facility requires a mobile number to be provided on the Application Form. The Bondholder's statement of holdings evidencing entitlement to Bonds held in the register kept by the CSD and registration advices evidencing movements in such register will be available through the said e-portfolio facility on <https://eportfolio.borzamalta.com.mt/>. Further detail on the e-portfolio may be found on <https://eportfolio.borzamalta.com.mt/Help>.

4. Applications in the name and for the benefit of minors shall be allowed provided that the applicant already holds an account with the MSE. Any Bonds allocated pursuant to such an Application shall be registered in the name of the minor as Bondholder, with interest and redemption proceeds payable to the parents or legal guardian/s signing the Application Form until such time as the minor attains the age of eighteen (18) years, following which all interest and redemption proceeds shall be payable directly to the registered holder, provided that the Issuer has been duly notified in writing of the fact that the minor has attained the age of eighteen (18) years. Panel D must be inserted with full details of the parents/legal guardians.
5. In the case of a body corporate, the name of the entity exactly as registered and the registration number are to be inserted in Panel B. A valid Legal Entity Identifier ("LEI") needs to be inserted in Panel B. **Failure to include a valid LEI code, will result in the Application being cancelled by the Registrar.** Applications must be signed by duly authorised representatives indicating the capacity in which they are signing.
6. **APPLICANTS ARE TO INSERT AN MSE ACCOUNT NUMBER IN THE SPACE PROVIDED IN PANEL B, AND FAILURE TO DO SO WILL RESULT IN REJECTION OF THE APPLICATION FORM. APPLICANTS ARE TO NOTE THAT ANY SECURITIES ALLOTTED TO THEM WILL BE RECORDED BY THE MALTA STOCK EXCHANGE IN THE MSE ACCOUNT QUOTED ON THIS APPLICATION FORM WITH THE DETAILS (INCLUDING REGISTERED ADDRESS), AS HELD BY THE CSD OF THE MALTA STOCK EXCHANGE.**

7. Where a decision to invest is taken by a third party authorised to transact on behalf of the Applicant (a "decision maker") such as an individual that holds a power of attorney to trade on the Applicant's account or applications under a discretionary account, details of the decision maker need to be included in Panel D.
8. Where an Applicant quotes an MSE account number which is held subject to usufruct, both the bare owner/s and the usufructuary/ies are to sign this Application Form.
9. Applications must be for a minimum subscription of €2,000 and thereafter in multiples of €100 and must be accompanied by the relevant subscription amount in Euro.
10. Only Applicants who hold a valid official Maltese Identity Card or companies registered in Malta will be treated as resident in Malta. In such a case the Applicant may elect to have final withholding tax, currently 15%, deducted from interest payments in which case such interest need not be declared in the Applicant's income tax return. The Applicant may elect to receive the interest gross (i.e. without deduction of final withholding tax), but will be obliged to declare interest so received in the tax return. The Issuer will render an account to the Maltese Commissioner for Revenue of all interest paid, all amounts of tax deducted by the payor in respect of the interest paid and of the identity of all such recipients. Interest received by non-resident Applicants is not taxable in Malta and non-residents will receive interest gross. Authorised entities applying in the name of a prescribed fund (having indicated their status in the appropriate box in Panel A) will have final withholding tax (currently 10%), deducted from interest payments.

In terms of section 18.1 of the Base Prospectus, unless the Issuer is otherwise instructed by a Bondholder, or if the Bondholder does not fall within the definition of "recipient" in terms of article 41(c) of the Income Tax Act (Cap. 123 of the laws of Malta), interest shall be paid to such person net of final withholding tax, (currently 15%) of the gross amount of interest, pursuant to article 33 of the Income Tax Act (Cap. 123 of the laws of Malta).

11. Non-residents of Malta should note that payment of interest to individuals and certain residual entities residing in another EU Member State is reported on an annual basis to the Director General Inland Revenue, Malta, who will in turn exchange the information with the competent tax authority of the Member State where the recipient of interest is resident. This exchange of information takes place in terms of the Council Directive 2014/107/EU, of 9 December 2014 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation.

The contents of notes 10 and 11 above do not constitute tax advice by the Issuer and Applicants are to consult their own independent tax advisors in case of doubt.

12. Interest and redemption proceeds will be credited to the account indicated in Panel H or as otherwise amended by the Bondholder/s during the term of the Bond.
13. The Direct Offer Period will open at 08:30 hours on 14 May 2026 and will close at 12:00 hours on 22 May 2026. An investor should consult a financial advisor, licensed under the Investment Services Act (Cap. 370 of the laws of Malta), for advice.
